The PCNSA web-based practice test can be accessed online. It means the exam candidates can access it from the browsers like Firefox, Microsoft Edge, Google Chrome, and Safari. The user doesn't need to install or download any excessive plugins to take the Palo Alto Networks Certified Network Security Administrator (PCNSA) practice test. Mac, Windows, iOS, Android, and Linux support it. The third and last format is the desktop practice test software. The Palo Alto Networks Certified Network Security Administrator (PCNSA) desktop practice test format can be used on Windows computers.

The Palo Alto Networks Certified Network Security Administrator (PCNSA) certificate can be important to your career as it confirms the specialists' competence in operating Palo Alto Networks' next-generation firewalls which are designed to keep networks away from high-level cyber threats. This certification validates the candidates' ability to create, install, maintain, and configure Palo Alto Networks firewalls as well as effectively deploy them to support networking traffic founded on 'Who – User ID', 'What – App ID', and 'When – Policy'.
