NEW QUESTION # 323

A company is creating a canvas app to manage weekly status reports from users about projects.

Status reports must be created weekly. Users can enter project tasks with descriptions. Users can also add escalation requests for tasks that are late or at risk. When a status report is submitted with an escalation request the app must automatically send a text message to the submitter's manager. A reminder must be sent at

8 PM on Sunday to everyone who has not yet submitted a status report for the previous week.

You need to identify the appropriate components to use in the solution.

What should you use? To answer, drag the appropriate implementation mechanisms to the correct requirements. Each implementation mechanism may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content NOTE: Each correct selection is worth one point

Answer:

□

You have version 1.0.0.0 of a published Power Apps app. You create and publish version 2.0.0.0 of the app. A customer goes through the process of restoring the previous version of the app. How many versions of the app are displayed in the Version tab for the app? To answer, select the appropriate option in the answer area.
