HP HPE7-A05 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none"> Configure the Solution: This section of the exam measures the skills of Network Engineers and focuses on implementing the low-level design through different configuration interfaces. It includes verifying that the configuration aligns with design requirements and setting up monitoring tools to track performance and system health. |
| Topic 2 | <ul style="list-style-type: none"> Install the Solution: This section of the exam measures the skills of Deployment Engineers and focuses on the installation and staging of network equipment. It includes pre-installation testing, physical deployment, and validation of the installation to ensure that the network infrastructure is correctly set up and ready for operation. |
| Topic 3 | <ul style="list-style-type: none"> Troubleshoot: This section of the exam measures the skills of Network Support Specialists and focuses on diagnosing and resolving issues in the deployed solution. It covers the use of embedded diagnostic tools, assessing the severity of problems, and implementing corrective actions to restore functionality efficiently. |
