1z0-1057-25 Training Materials & 1z0-1057-25 Dumps PDF & 1z0-1057-25 Exam Cram

Our 1z0-1057-25 exam materials have helped many people improve their soft power. They are now more efficient than their colleagues, so they have received more attention from their leaders. We are all ordinary professional people. We must show our strength to show that we are worth the opportunity. Using 1z0-1057-25 practice engine may be the most important step for you to improve your strength. You know, like the butterfly effect, one of your choices may affect your life. And our 1z0-1057-25 Exam Questions will be the right exam tool for you to pass the 1z0-1057-25 exam and obtain the dreaming certification.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q85-Q90):

NEW QUESTION # 85

Which four notification templates are predefined?

- A. Forgot Password Template
- B. Forgot Username Template
- C. Password Reset Template
- D. New Account Manager Template
- E. New Account Template

Answer: B,C,D,E

Explanation:

<https://docs.oracle.com/en/cloud/saas/sales/18c/oscus/setting-up-applications-security.html#OSCUS2287154> Predefined Notification Templates Notification Template Description Password Expiry Warning Template Warns the user that a password is expiring soon and provides instructions for resetting the password.

Password Expiration Template

Notifies the user that a password has expired and provides instructions for resetting the password.

Forgot User Name Template

Sends the user name to a user who requested the reminder.

Password Generated Template

Notifies the user that a password has been generated automatically and provides instructions for resetting the password.

Password Reset Template

Sends a reset-password link to a user who requested a new password.

Users can request new passwords by selecting the Forgot Password link on the application Sign In page, or by selecting the

Password option on the Preferences page (Settings and Actions > Set Preferences).

Password Reset Confirmation Template

Notifies the user when a password has been reset.

New Account Template

Notifies a user when a user account is created and provides a reset-password link.

New Account Manager Template

Notifies the user's manager when a user account is created.

When you create a user category, it's associated automatically with the predefined notification templates, which are all enabled.

You can't edit the predefined templates. However, you can create templates and disable the predefined versions. Each predefined event can be associated with only one enabled notification template at a time.

NEW QUESTION # 86

Your client has decided to import time cards into Project Costing from Oracle Fusion Time and Labor. They have a requirement to make adjustments to time card entries whenever needed.

In which work area will the employees and contingent workers be able to modify their time cards?

- A. Time
- B. Asset
- C. Cost
- D. Both Time and Cost

Answer: A

Explanation:

The employees and contingent workers will be able to modify their time cards in the Time work area. This work area allows them to enter, review, edit, and submit their time cards for approval. They can also view the status and history of their time cards and make corrections as needed. The Time and Cost work area allows the project managers and cost accountants to review, adjust, and transfer time card transactions to projects and tasks. The Asset work area allows the asset managers and cost accountants to review, adjust, and transfer asset transactions to Oracle Fusion Assets. These work areas are not used by the employees and contingent workers to modify their time cards. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-time-and-labor.html#OAPFM2356221>

NEW QUESTION # 87

Which data format is supported by SOAP Web services to establish communication between web services consumers and web services providers?

- A. CSV
- B. XLSX
- **C. XML**
- D. JSON

Answer: C

Explanation:

XML (Extensible Markup Language) is the data format that is supported by SOAP (Simple Object Access Protocol) Web services to establish communication between web services consumers and web services providers. XML is a standard format that allows data to be exchanged across different platforms and applications. SOAP Web services use XML to encode the messages and data that are sent and received between the web services endpoints. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/integrate-project-financial-management.html#OAPFM2356071>

NEW QUESTION # 88

Your customer has a requirement to allow adjustment and reversals for transactions imported from an external expense entry system. Which section on the Manage Project Transaction Sources page will allow you to enable these options?

- A. Documents
- B. Transaction Entries
- C. Transaction Source
- **D. Document Entries**

Answer: D

Explanation:

The section on the Manage Project Transaction Sources page that will allow you to enable these options is Document Entries. This section allows you to define the attributes and options for each document entry type that is associated with a transaction source. A document entry type represents a group of transactions that have similar characteristics and processing rules. For example, you can define a document entry type for expense reports and enable adjustment and reversal options for this document entry type. The Documents section allows you to define the attributes and options for each document type that is associated with a transaction source. A document type represents a source document that contains one or more transactions. For example, you can define a document type for expense reports and enable validation and transfer options for this document type. The Transaction Source section allows you to define the attributes and options for each transaction source that is used to import transactions from an external system. A transaction source represents a system or application that provides transactions to Oracle Fusion Project Costing. For example, you can define a transaction source for expense reports and enable costing and accounting options for this transaction source. The Transaction Entries section allows you to review and manage the transactions that are imported from an external system using a transaction source. You can view, edit, adjust, reverse, validate, and transfer transactions in this section. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-costs.html#OAPFM2356241>

NEW QUESTION # 89

Your organization has been using project class categories and codes for reporting purposes and is set up at the project level. You recently defined a new project type, Capital-Contract, and created new class categories named Build, Operate, and Transfer (BOT) and Build, Transfer, and Maintain (BTM), with class codes of Yes/No. But on creation of a project, you are unable to associate these class categories and codes. Identify two setups that are mandatory for these class categories and codes to be displayed. (Choose two.)

- **A. Class categories should be assigned to project type.**
- B. Class categories should be assigned to business unit.
- **C. Class codes should be associated with a related set code.**
- D. Class codes should be assigned to project unit.

Answer: A,C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapfm/project-foundation-configuration-manage-project-types.html#OAPFM360164> Topic - Associating Project Types and Class Categories: Examples Project classifications group your projects according to categories and codes that you define. When you associate project classifications with project

types, the classification is available for selection on projects with that project type.

Use any of the following methods to associate class categories with project types:

- * Add a classification to the project type definition

For each classification that you associate with the project type, you can enable the Assign to All Projects option to automatically add the classification to the project definition for all new projects with the project type. When this option is enabled, all projects with this project type must be assigned a class code for the class category.

- * Add a project type to the class category definition

- * Enable the Assign to all Project Types option on the class category definition

NEW QUESTION # 90

.....

We provide updated and real Oracle 1z0-1057-25 exam questions that are sufficient to clear the Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam in one go. The product of Exams-boost is created by seasoned professionals and is frequently updated to reflect changes in the content of the 1z0-1057-25 Exam Questions.

Valid 1z0-1057-25 Test Answers: <https://www.exams-boost.com/1z0-1057-25-valid-materials.html>

Oracle 1z0-1057-25 Latest Version If you are a working staff, do you want a promotion or apply for better company, Oracle 1z0-1057-25 Latest Version Most candidates purchase our products and will pass exam certainly, You just need to spend 20-30 hours for study and preparation, then confident to attend the 1z0-1057-25 actual test, Exams-boost also offers Oracle 1z0-1057-25 desktop practice exam software which is accessible without any internet connection after the verification of the required license.
