## HPE2-W12 Valid Test Review, New Guide HPE2-W12 Files

Are you staying up for the HPE2-W12 exam day and night? Do you have no free time to contact with your friends and families because of preparing for the exam? Are you tired of preparing for different kinds of exams? If your answer is yes, please buy our HPE2-W12 Exam Questions, which is equipped with a high quality. We can make sure that our products have the ability to help you pass the exam and get the according HPE2-W12 certification.

## HP Selling HPE Aruba Networking Solutions Sample Questions (Q47-Q52):

### NEW QUESTION # 47

What is one security feature that acts as a distinguishing value of HPE Aruba Networking Central?

- A. Ability to encrypt traffic in the wireless network.
- **B. AI-based security recommendations for firmware upgrades.**
- C. A stateful firewall to filter VM-to-VM traffic in the data center.
- D. Filtering of remote users' access to SaaS applications to prevent data loss.

**Answer: B**

Explanation:

The correct answer is D because Aruba Central leverages AI-driven security intelligence to provide proactive recommendations, including firmware and configuration updates, to mitigate vulnerabilities and strengthen overall network security. This capability distinguishes Central by combining AI for networking (AIOps) with security posture management, ensuring that networks remain resilient against emerging threats.

#### **NEW QUESTION # 48**

Which Aruba solution provides detailed RF and wireless network monitoring?

- A. ClearPass
- B. NetEdit
- C. Fabric Composer
- **D. AirWave**

**Answer: D**

Explanation:

Aruba AirWave offers monitoring and reporting for wireless and wired networks.

#### **NEW QUESTION # 49**

What is one customer need that HPE Aruba Networking Central addresses?

- **A. Optimizing network performance through actionable AI recommendations.**
- B. Eliminating the need for network admins and letting server admins maintain the network.
- C. Managing each network silo with tools specialized for that silo's needs.
- D. Deploying the network and then letting it run without further management and monitoring.

**Answer: A**

Explanation:

The correct answer is B because Aruba Central addresses the need for continuous optimization and operational efficiency by providing AI-driven recommendations, anomaly detection, and performance insights. These capabilities help network admins proactively manage performance, improve user experience, and reduce troubleshooting overhead.

Relevant extracts from official HPE Aruba Networking documentation:

\* "Aruba Central leverages AI/ML to provide actionable insights and recommendations to optimize network performance."

\* "By continuously monitoring the health of the network and user experience, Aruba Central ensures IT can proactively identify and resolve issues."

\* "AI recommendations empower IT staff to focus on strategic initiatives rather than reactive troubleshooting, enhancing operational efficiency."

\* "Aruba Central transforms operations by consolidating management across LAN, WLAN, and WAN, while improving performance with automated optimization." Why the other options are incorrect:

\* A is incorrect: Aruba Central emphasizes ongoing monitoring, management, and optimization; it is not a "set and forget" solution.

\* C is incorrect: Aruba Central does not eliminate the need for network admins-it enhances their efficiency, not replaces them.

\* D is incorrect: Aruba Central's strength is breaking down silos by unifying management across wired, wireless, and WAN, not managing them separately.

### NEW QUESTION # 50

A customer wants to know what makes HPE Aruba Networking ZTNA better than a traditional virtual private network (VPN). What is one key distinguishing value?

- A. The cost of the solution is lower than a traditional VPN because HPE Aruba Networking ZTNA uses HPE Aruba Networking gateways.
- **B. HPE Aruba Networking ZTNA shrinks the attack surface by automatically creating and applying least- privilege policies.**
- C. HPE Aruba Networking ZTNA decreases complexity with its on-prem management platform.
- D. The cloud-based solution seamlessly scales to accommodate customers' growing remote workforce.

**Answer: B**

Explanation:

The correct answer is because Aruba Zero Trust Network Access (ZTNA) fundamentally reduces risk by replacing broad, implicit trust models of VPNs with least-privilege, identity-based access policies. Instead of giving remote users blanket access to the network, ZTNA dynamically enforces application- and user- specific policies, shrinking the attack surface and preventing lateral movement.

Relevant extracts from official HPE Aruba Networking documentation:

- \* "ZTNA applies Zero Trust principles by continuously verifying user and device identity and assigning least-privilege access based on contextual factors."
  - \* "Unlike traditional VPNs that extend full network access, Aruba ZTNA provides per-application access, dramatically reducing the attack surface."
  - \* "With automated policy enforcement, Aruba ZTNA ensures secure access while preventing unauthorized lateral movement across the network."
  - \* "ZTNA secures the remote workforce by combining granular access control with Zero Trust segmentation, delivering stronger security than legacy VPN models." Why the other options are incorrect:
  - \* A Scalability is a benefit, but it is not the key distinguishing factor compared to VPN-least-privilege security is the core differentiation.
  - \* B Aruba ZTNA is cloud-native, not dependent on an on-prem management platform, so this is inaccurate.
  - \* D Lower cost is not the primary positioning; the value lies in enhanced security and reduced risk.
- References (HPE Aruba Networking Solutions / Study Guides):
- \* Aruba Zero Trust Network Access (ZTNA) - Solution Overview
  - \* Aruba ESP Zero Trust Security - Technical White Paper
  - \* Aruba SSE and ZTNA for Remote Workforce - Product Brief
  - \* Aruba Security and Access Control - Deployment Guide

### NEW QUESTION # 51

What is the main benefit of Aruba Dynamic Segmentation?

- **A. Identity-based access control**
- B. Hardware cost reduction
- C. Simplified VLAN creation
- D. WAN optimization

**Answer: A**

Explanation:

Dynamic segmentation allows network policies to follow users and devices regardless of connection point.

### NEW QUESTION # 52

.....

If you want to enter a better company, a certificate for this field is quite necessary. HPE2-W12 learning materials of us will help you obtain the certificate successfully. HPE2-W12 exam braindumps of us are high quality, and they contain both questions and answers, and it will be enough for you to pass the exam. We also pass guarantee and money back guarantee if you fail to pass the exam if you buy HPE2-W12 Exam Dumps from us. Just think that you just need to spend some money, you can pass the exam and get the certificate and double your salary. Choose us, you can make it.
