NEW QUESTION # 137

What is a key difference between audit users and full users in Cortex XSOAR?

- A. Audit users can run scripts and playbooks, while full users can only view reports.
- B. Full users can only view dashboards, while audit users can investigate incidents.
- C. Audit users can only view incidents, while full users can edit system components.
- **D. Audit users have read-only permission, while full users have read-write permission.**

Answer: D

Explanation:

Audit users in Cortex XSOAR have limited, read-only access to the system, which allows them to view information without making any changes. Full users, on the other hand, have read-write access, meaning they can both view and modify incidents, configurations, and other system components.
