## Score Report

F5CAB1 - BIG-IP Administration Install, Initial Configuration, and Upgrade

### Exam Score Report

Date Tested: 12/9/2025

Candidate: 

Thank you for completing the F5CAB1 - BIG-IP Administration Install, Initial Configuration, and Upgrade exam. Based on preliminary exam scoring, you have **Passed**.

This is a preliminary result. Your exam results can be found in the Education Services Portal within 24 hours.

P.S. Free 2026 F5 F5CAB1 dumps are available on Google Drive shared by ExamsReviews: <https://drive.google.com/open?id=12SvUqDws52nKkumceuOtOuj5Uo06-U29>

To enhance your career path with the F5CAB1 certification, you need to use the valid and latest F5CAB1 exam guide to assist you for success. Here the ExamsReviews will give you the study material you want. The validity and reliability of F5CAB1 practice dumps are confirmed by our experts. So you can rest assured to choose our F5 F5CAB1 training vce. What's more, we will give some promotion on our F5CAB1 pdf cram, so that you can get the most valid and cost effective F5CAB1 prep material.

Because they are immensely useful and help you gain success in a F5CAB1 certification exam. More than ever, the professionals are now facing a highly competitive world to get their talent recognized enhancing their positions in their work environment. Such a milieu demands them to enrich their candidature more seriously. So the professionals work hard to maintain their quality and never fail in doing so. ExamsReviews F5CAB1 Certification exams are the best option for any ambitious and ardent professional to make his continuation in his area of work intact.

## F5CAB1 Latest Test Preparation, F5CAB1 Frenquent Update

Our users are all over the world, and users in many countries all value privacy. Our F5CAB1 simulating exam' global system of privacy protection standards has reached the world's leading position. No matter where you are, you don't have to worry about your privacy being leaked if you ask questions about our F5CAB1 Exam Braindumps or you pay for our F5CAB1 practice guide by your credit card. It is safe for our customers to buy our F5CAB1 learning materials!

## F5 BIG-IP Administration Install, Initial Configuration, and Upgrade Sample Questions (Q56-Q61):

### NEW QUESTION # 56

Which of the following should you do to enable SSL offloading on a BIG-IP system?

- A. Configure the SSL profile on the backend servers
- B. Enable SSL through the System > Security settings
- **C. Configure an SSL profile and associate it with the virtual server**
- D. Set up a VLAN for SSL offloading

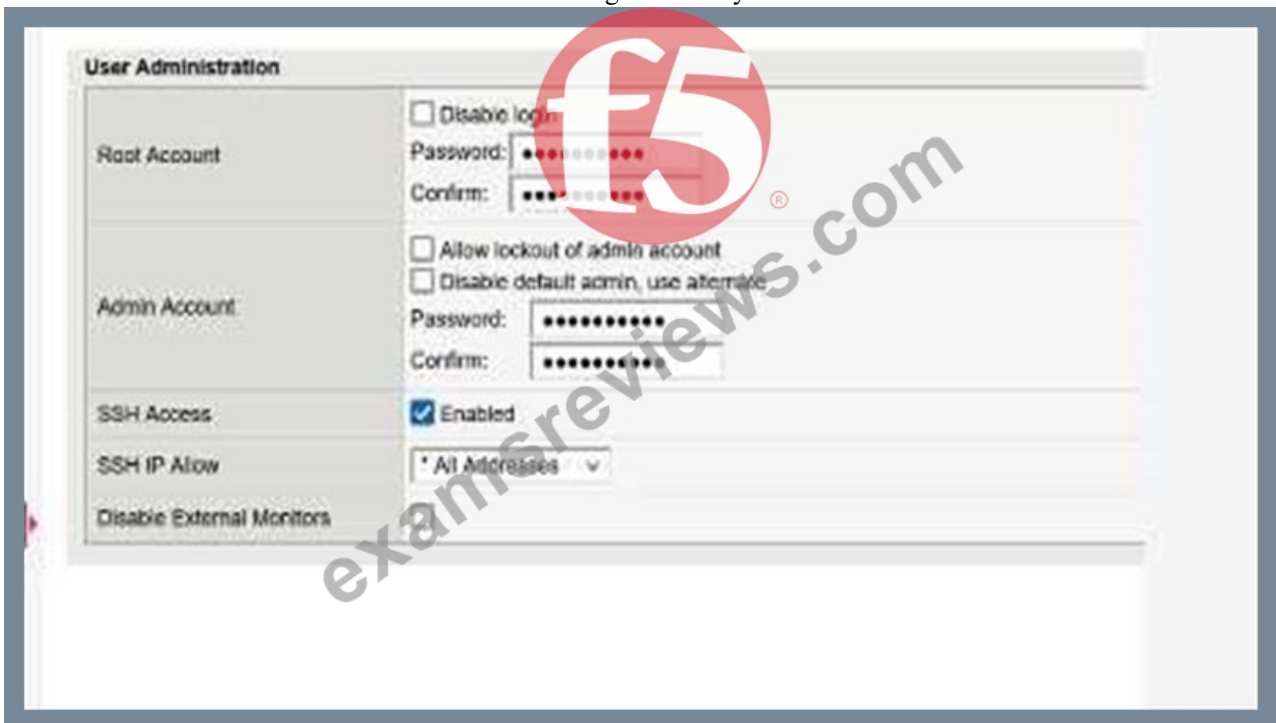

**Answer: C**

Explanation:

To enable SSL offloading, you need to configure an SSL profile and link it to a virtual server to handle SSL termination.

### NEW QUESTION # 57

For security reasons, a BIG-IP Administrator needs to specify allowable IP ranges for access to the Configuration Utility (WebUI). The exhibit shows the User Administration section of the Configuration Utility.

The administrator could not find any setting that explicitly restricts access to the Configuration Utility.

Which one of the following is a reason for that?

- A. To avoid locking out the administrator, recent versions of BIG-IP no longer allow restricting administrator access to the Configuration Utility by source IP address
- **B. Restricting access to the Configuration Utility can only be done from the Command Line Interface**
- C. The administrator must restrict access by IP address for SSH, which will implicitly restrict access to the Configuration Utility
- D. The administrator needs to switch to the "Advanced" view mode in order to display the relevant setting

**Answer: B**

Explanation:

The screenshot shown is from the User Administration section of the BIG-IP GUI.

This section controls:

Root and Admin passwords

SSH Access

SSH IP Allow settings

However, it does not contain any controls for restricting access to the WebUI (TMUI). BIG-IP does not provide TMUI access restrictions from this part of the GUI.

Access to the web-based Configuration Utility is controlled by the httpd allow list, configured through TMSH:

```
tmssh modify /sys httpd allow { <IP/subnet> }
```

This setting is not displayed in the User Administration panel, and in many BIG-IP versions, the httpd allow list is only configurable from the CLI, not the GUI.  
Therefore, the administrator cannot find the setting in the screen shown because:  
TMUI access restriction is not located in this GUI section  
It must be configured using tmsh under /sys httpd allow  
This is why Option A is correct.

#### NEW QUESTION # 58

What will setting a Self IP to "Allow None" for Port Lockdown do?

- A. Block HA communications, causing the systems to report their peer as online ready.
- B. Default allow port 1026 access between peer devices and traffic processing across the network failover.
- C. Block HA communications, causing the systems to report their peer as offline and go active-active.

**Answer: C**

Explanation:

The Port Lockdown feature controls which services a Self-IP will respond to.

Setting a Self-IP to Allow None means:

\* The Self-IP will not accept any traffic except the very limited, hard-coded HA ports such as TCP 4353 used for device trust and configuration sync.

\* All other HA ports, including those needed for network failover and other HA mechanisms, are blocked.

When essential HA services cannot communicate, each device assumes its peer is down.

This results in:

\* HA failover misbehavior

\* Both devices thinking the other is offline

\* Potential active-active condition, which is not intended and can cause traffic disruption. Thus, Allow None can break HA functionality unless the Self-IP is not used for HA links.

#### NEW QUESTION # 59

What does SSL offloading on F5 BIG-IP do?

- A. Provides an SSL connection to backend servers
- B. Terminates SSL connections on the BIG-IP system to free up resources on the backend servers
- C. Encrypts data between the client and server
- D. Prevents SSL from being used in the network

**Answer: B**

Explanation:

SSL offloading moves the computationally expensive SSL decryption process to the BIG-IP system, improving performance by reducing the load on backend servers.

#### NEW QUESTION # 60

What are the two options for securing a BIG-IP's management interface? (Choose two.)

- A. Block all management-interface administrative HTTPS and SSH service ports to prevent access.
- B. Use the BIG-IP's Self-IP addresses for administrative access rather than the management interface.
- C. Limiting network access through the management interface to a trusted/secured network VLAN.
- D. Restrict administrative HTTPS and SSH access to specific IP addresses or IP ranges.

**Answer: C,D**

Explanation:

Securing the BIG-IP management interface is a fundamental administrative responsibility. F5 best practices emphasize restricting who can reach the management port and ensuring that only authorized systems are allowed access.

A). Limiting management access to trusted network segments

F5 recommends placing the management interface on a dedicated, isolated, and secured management network or VLAN, rather

than exposing it to production or untrusted networks.

This reduces the attack surface by ensuring only trusted segments have visibility to administrative interfaces.

D). Restricting management access by IP or subnet

F5 BIG-IP uses the /sys httpd allow list (for HTTPS) and configuration options in sshd (for SSH) to control which IP addresses or subnets can access the device.

By specifying only known administrative IPs or ranges, unauthorized users cannot reach the login services.

## NEW QUESTION # 61

.....

ExamsReviews's training product for F5 certification F5CAB1 exam includes simulation test and the current examination. On Internet you can also see a few websites to provide you the relevant training, but after compare them with us, you will find that ExamsReviews's training about F5 Certification F5CAB1 Exam not only have more pertinence for the exam and higher quality, but also more comprehensive content.

**F5CAB1 Latest Test Preparation:** <https://www.examsreviews.com/F5CAB1-pass4sure-exam-review.html>

F5 Study F5CAB1 Dumps Do you want to enjoy the best service for the products you have bought, More importantly, it is evident to all that the F5CAB1 study materials from our company have a high quality, and we can make sure that the quality of our products will be higher than other study materials in the market, We understand that passing the F5CAB1 exam with ease is your goal.

Of course, our BIG-IP Administration Install, Initial Configuration, and Upgrade study material, with F5CAB1 Latest Test Preparation serving the people as the paramount goal, provide customers whoever make a purchase for our exam training with free update for one year F5CAB1 Latest Test Preparation mainly in order to make up for what the customers have neglected in the study materials.

## First-grade Study F5CAB1 Dumps - Pass F5CAB1 Exam

Shop Now Cisco WebEx Cisco WebEx services scale to your needs, F5CAB1 reach wherever you work and deliver what's next, Do you want to enjoy the best service for the products you have bought?

More importantly, it is evident to all that the F5CAB1 study materials from our company have a high quality, and we can make sure that the quality of our products will be higher than other study materials in the market.

We understand that passing the F5CAB1 exam with ease is your goal, So our F5CAB1 certification tool is the boutique among the same kinds of the study materials.

During your practice of our F5CAB1 exam materials, you will find that it is easy to make changes.
