### NEW QUESTION # 109

You are implementing Microsoft Purview Advanced Message Encryption for a Microsoft 365 tenant named contoso.com You need to meet the following requirements:

\* All email to a domain named (abrikam.com must be encrypted automatically.

\* Encrypted emails must expire seven days after they are sent

What should you configure for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

### NEW QUESTION # 110

Hotspot Question

You have a Microsoft 365 subscription.

You identify the following data loss prevention (DLP) requirements:

- Send notifications to users if they attempt to send attachments that contain an EU Social Security Number (SSN) or Equivalent ID.
- Prevent any email messages that contain credit card numbers from being sent outside your organization.
- Block the external sharing of Microsoft OneDrive content that contains EU passport numbers.
- Send administrators email alerts if any rule matches occur.

What is the minimum number of DLP policies and rules you must create to meet the requirements? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

### **NEW QUESTION # 111**

You are creating a DLP policy named Policy1 that will be applied to the locations as shown in the following exhibit.

Policy1 contains an advanced data loss prevention (DLP) rule named Rule1.

Which two conditions can you use in Rule1? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Attachment's file extension is
- B. Document size equals or is greater than
- C. Content contains
- D. Content is shared from Microsoft 365
- E. Document property is

**Answer: C,D**

Explanation:

You are creating a Data Loss Prevention (DLP) policy in Microsoft 365 with advanced rules. Advanced DLP rules provide more granular conditions and actions than standard DLP rules.

Conditions available in advanced DLP

According to Microsoft Docs on Conditions in DLP policies:

\* # Content contains # Used to detect sensitive information types, keywords, or exact data matches.

This is one of the most common and fundamental DLP conditions.

\* # Content is shared from Microsoft 365 # Used to detect whether content has been shared externally or with specific domains/users. This is a modern advanced DLP condition.

Why the others are not correct:

\* A. Document property is # This condition applies to information governance retention policies /labels (not DLP). Not available in DLP rules.

\* B. Attachment's file extension is # This is supported in Exchange mail flow rules (transport rules) but not in advanced DLP rules.

\* C. Document size equals or is greater than # Also applies in Exchange transport rules and certain SharePoint restrictions, but not available as a DLP rule condition.

### **NEW QUESTION # 112**

Hotspot Question

You use project codes that have a format of three alphabetical characters that represent the project type, followed by three digits, for example Abc123.

You need to create a new sensitive info type for the project codes.

How should you configure the regular expression to detect the content? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

## NEW QUESTION # 113

You can use this Microsoft simulation software without an internet connection after installation. Tracking and reporting features of our Administering Information Security in Microsoft 365 SC-401 Practice Exam software makes it easier for you to identify and overcome mistakes. Customization feature of this format allows you to change time limits and questions numbers of mock exams.
