## Exam Microsoft AZ-140 Topic & AZ-140 Download Fee

Passing the test AZ-140 certification can help you realize your goal and find an ideal job. Buying our AZ-140 latest question can help you pass the exam successfully. AZ-140 exam question provides the free update and the discounts for the old client and our experts check whether our test bank has been updated on the whole day and if there is the update the system will send the update automatically to the client. Thus you can have an efficient learning and a good preparation of the exam. It is believed that our AZ-140 latest question is absolutely good choices for you

## Microsoft Configuring and Operating Microsoft Azure Virtual Desktop Sample Questions (Q66-Q71):

### NEW QUESTION # 66

You have an Azure Virtual Desktop deployment.

You have a RemoteApp named App1.

You discover that from the Save As dialog box of App1, users can run executable applications other than App1 on the session hosts.

You need to ensure that the users can run only published applications on the session hosts.

What should you do?

- A. Configure a conditional access policy in Azure Active Directory (Azure AD).
- B. Modify the RDP Properties of the host pool.
- C. Modify the Access control (IAM) settings of the host pool.
- D. Configure an AppLocker policy on the session hosts.

**Answer: D**

Explanation:

Prevent unwanted software from running on session hosts. You can enable App Locker for additional security on session hosts, ensuring that only the apps you allow can run on the host.

<https://docs.microsoft.com/en-us/azure/virtual-desktop/security-guide#other-security-tips-for-session-hosts>

#### NEW QUESTION # 67

You have an on-premises network and an Azure subscription. The subscription contains the following virtual network:

\* Name: VNet1

\* Address space: 10.10.0.0/16

\* Subnet name: Subnet1

\* Subnet1 address range: 10.10.0.0/16

You deploy an Azure Virtual Desktop host pool that contains 10 session hosts to Subnet1.

You plan to deploy a VPN gateway to VNet1 and provide the session hosts with access to the on-premises network.

You need to ensure that you can deploy the VPN gateway.

What should you do first?

- A. Modify the address range of Subnet1. Most Voted
- B. Modify the address space of VNet1. Most Voted
- **C. Add a subnet named GatewaySubnet to VNet1.**
- D. Associate a network security group (NSG) to Subnet1.

**Answer: C**

Explanation:

Explanation

In order to deploy a VPN gateway to VNet1, you should first add a subnet named GatewaySubnet to VNet1.

According to the Microsoft Official Guide AZ-140, "You must create a gateway subnet for the virtual network that you plan to use for the gateway. The subnet must be named GatewaySubnet and it must use an address range that is large enough to accommodate the number of IP addresses that you plan to use for the gateway and its supporting resources." Therefore, the first step to ensure that you can deploy the VPN gateway is to add a subnet named GatewaySubnet to VNet1.

#### NEW QUESTION # 68

You have an Azure subscription that contains the resources shown in the following table.

Which resources can you back up by using Azure Backup?

- A. WVDVM-0, Image1, and Image2 only
- B. WVDVM-0, share1, Image1, and Image2
- C. WVDVM-0, share1, and Image1 only
- **D. WVDVM-0 and share1 only**
- E. WVDVM-0 only

**Answer: D**

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure/backup/backup-azure-vms-introduction>

#### NEW QUESTION # 69

You have an Azure Virtual Desktop deployment.

You plan to use a Conditional Access policy to enforce multi-factor authentication (MFA) when users connect to the deployment.

The solution must meet the following requirements:

\* Enforce MFA when a user connects to Azure Virtual Desktop by using a subscription feed.

\* Enforce MFA when a user authenticates to a session host that has single sign-on (SSO) enabled.

You need to identify which cloud apps to use for the Conditional Access policy.

Which app should you use for each requirement? To answer, drag the appropriate apps to the correct requirements. Each app may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

#### NEW QUESTION # 70

You have an Azure storage account that contains the generalized Windows 10 disk images shown in the following table.

You need to create an image that will be used to deploy an Azure Virtual Desktop session host.

Which disk should you use?

- A. Disk3
- **B. Disk1**
- C. Disk4
- D. Disk2

**Answer: B**

Explanation:
