All these three B2B Commerce for Administrators Accredited Professional

(AP-201) exam dumps formats contain the real and B2B Commerce for Administrators Accredited Professional (AP-201) certification exam trainers.

## Salesforce B2B Commerce for Administrators Accredited Professional Sample Questions (Q104-Q109):

### NEW QUESTION # 104

Which three configuration aspects must be set up outside the Commerce App in order to deploy and activate the full B2B Commerce experience both for internal and external users?

- **A. Profiles and Permission Sets**
- B. Custom attributes
- **C. Multi-Factor Authentication**
- **D. Experience Sites**
- E. Salesforce CMS

**Answer: A,C,D**

Explanation:

To deploy and activate the full B2B Commerce experience for internal and external users, the three configuration aspects that must be set up outside the Commerce App include B. Experience Sites, which involves configuring the digital experience platforms for users; C. Multi-Factor Authentication, which is a security measure to verify user identities; and D. Profiles and Permission Sets, which are essential for defining access controls and permissions for different types of users within the system.

### NEW QUESTION # 105

Which requirement must be met before an Administrator can perform a search index?

- A. All products must have at least one image assigned.
- **B. At least one product must have a ProductCode assigned.**
- C. All products must have a SKU assigned.
- D. At least one product must be marked Active.

**Answer: B**

Explanation:

Before performing a search index in Salesforce B2B Commerce, it is crucial that at least one product has a ProductCode assigned (D). The ProductCode is a unique identifier for products in Salesforce B2B Commerce, and it is essential for indexing and searching products within the platform. While images (A) and SKUs (B) enhance product listings and navigation, they are not prerequisites for indexing. Ensuring products are marked as Active (C) is important for them to appear in search results, but the presence of a ProductCode is fundamental to the indexing process itself.

### NEW QUESTION # 106

Which two steps should an Administrator take to move the B2B store configuration from a sandbox environment to a production environment?

- **A. Add the Store Configuration to a change set.**
- B. Import the settings to the Production environment with Workbench.
- **C. Export the store settings with Data Loader.**
- D. Export the store configuration from the Store Administration.

**Answer: A,C**

Explanation:

To move the B2B store configuration from a sandbox to a production environment, an Administrator should A. Add the Store Configuration to a change set and C. Export the store settings with Data Loader. The change set allows for the transfer of configuration settings, while the Data Loader can be used to migrate data related to the store setup, ensuring a smooth transition to the production environment.

### NEW QUESTION # 107

An Administrator has completed setting up CMS workspace with images for one of their B2B Commerce sites. However, when trying to add an image to the Product record, the Administrator noticed there are no images available to select. What could be causing this to happen?

- A. The Administrator was not added as a contributor in the Store Administration page.
- **B. CMS channel was never configured to connect the CMS workspace to the store.**
- C. The Content admin permission set was not assigned to the Administrator in Setup.
- D. The CMS workspace is still in draft status.

**Answer: B**

Explanation:

If an Administrator is unable to select images for a Product record despite having set up a CMS workspace, it could be because D. CMS channel was never configured to connect the CMS workspace to the store. Without this connection, content from the CMS workspace, including images, is not available for use within the store.

### NEW QUESTION # 108

From within the Experience Site Administration Workspace, in which two ways can membership with an Experience Site be established?

- A. Profiles
- **B. Permission Set Groups**
- **C. Permission Sets**
- D. Buyer Groups

**Answer: B,C**

Explanation:

Within the Experience Site Administration Workspace, membership with an Experience Site can be established through B. Permission Set Groups and D. Permission Sets. These Salesforce features allow administrators to grant users access to Experience Sites by defining and assigning the appropriate permissions and access levels.

### NEW QUESTION # 109

.....

Education degree does not equal strength, and it does not mean ability. Education degree just mean that you have this learning experience only. And the real ability is exercised in practice, it is not necessarily linked with the academic qualifications. Do not feel that you have no ability, and don't doubt yourself. When you choose to participate in the Salesforce AP-201 Exam, it is necessary to pass it. If you are concerned about the test, however, you can choose PracticeTorrent's Salesforce AP-201 exam training materials. No matter how low your qualifications, you can easily understand the content of the training materials. And you can pass the exam successfully.

**AP-201 Excellect Pass Rate:** <https://www.practicetorrent.com/AP-201-practice-exam-torrent.html>
