Hot Reliable Test AI-102 Test | High-quality AI-102: Designing and Implementing a Microsoft Azure AI Solution 100% Pass

Our company according to the situation reform on conception, question types, designers training and so on. Our latest AI-102 exam torrent was designed by many experts and professors. You will have the chance to learn about the demo for if you decide to use our AI-102 quiz prep. We can sure that it is very significant for you to be aware of the different text types and how best to approach them by demo. At the same time, our AI-102 Quiz torrent has summarized some features and rules of the cloze test to help customers successfully pass their exams.

Microsoft AI-102 Exam is a challenging exam, and it requires a significant amount of time and effort to prepare for it. However, with the right study materials and preparation, individuals can clear the exam with flying colors. AI-102 exam is also a great way to demonstrate your expertise in AI solutions to potential employers and clients.

The Microsoft AI-102 exam covers various topics related to AI solution development, including designing and implementing AI workflows, creating natural language processing solutions, leveraging computer vision techniques, and implementing machine learning models. It also tests the candidate's ability to work with Azure services such as Azure Cognitive Services, Azure Machine Learning, and Azure Databricks.

Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q369-Q374):

NEW QUESTION # 369

Select the answer that correctly completes the sentence.

☐

Answer:

Explanation:

☐

Explanation:

☐

NEW QUESTION # 370

You are developing the knowledgebase by using Azure Cognitive Search.

You need to build a skill that will be used by indexers.

How should you complete the code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐

NEW QUESTION # 371

You are building an app that will scan confidential documents and use the Language service to analyze the contents.

You provision an Azure Cognitive Services resource.

You need to ensure that the app can make requests to the Language service endpoint. The solution must ensure that confidential documents remain on-premises.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

☐

Answer:

Explanation:

☐

Explanation

☐

NEW QUESTION # 372

You are building a retail chatbot that will use a QnA Maker service.

You upload an internal support document to train the model. The document contains the following question:

"What is your warranty period?"

Users report that the chatbot returns the default QnA Maker answer when they ask the following question:

"How long is the warranty coverage?"

The chatbot returns the correct answer when the users ask the following question: "What is your warranty period?" Both questions should return the same answer.

You need to increase the accuracy of the chatbot responses.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. (Choose three.)

☐

Answer:

Explanation:

☐

Explanation:

☐

Step 1: Add alternative phrasing to the question and answer (QnA) pair.

Add alternate questions to an existing QnA pair to improve the likelihood of a match to a user query.

Step 2: Retrain the model.

Periodically select Save and train after making edits to avoid losing changes.

Step 3: Republish the model

Note: A knowledge base consists of question and answer (QnA) pairs. Each pair has one answer and a pair contains all the information associated with that answer.

NEW QUESTION # 373

You have 100 chatbots that each has its own Language Understanding model.

Frequently, you must add the same phrases to each model.

You need to programmatically update the Language Understanding models to include the new phrases.

How should you complete the code? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Box 1: AddPhraseListAsync

Example: Add phraselist feature

```
var phraselistId = await client.Features.AddPhraseListAsync(appId, versionId, new PhraselistCreateObject
{
    EnabledForAllModels = false,
    IsExchangeable = true,
    Name = "QuantityPhraselist",
    Phrases = "few,more,extra"
});
```

Box 2: PhraselistCreateObject
