

FCP_FCT_AD-7.4 Reliable Dumps Questions | Latest FCP_FCT_AD-7.4 Version

What's more, part of that itPass4sure FCP_FCT_AD-7.4 dumps now are free: <https://drive.google.com/open?id=1c4uhrTmk75czx1rriXdr7A2d1fvnZlg7>

The Fortinet world has become so competitive and challenging. To stay updated and meet the challenges of the market you have to learn new in-demand skills and upgrade your knowledge. With the Fortinet FCP_FCT_AD-7.4 Certification Exam everyone can do this job nicely and quickly. The FCP - FortiClient EMS 7.4 Administrator (FCP_FCT_AD-7.4) certification exam offers a great opportunity to validate the skills and knowledge.

Fortinet FCP_FCT_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">FortiClient EMS design and deployment: This domain covers the architecture, core components, and deployment modes of FortiClient EMS. It also includes installing and configuring the server to ensure proper setup and initial system operation.
Topic 2	<ul style="list-style-type: none">Troubleshooting: This section covers analyzing logs and diagnostic information to identify issues with EMS and endpoints, and resolving common deployment, connectivity, and configuration problems.
Topic 3	<ul style="list-style-type: none">Zero trust and Security Fabric integration: This domain explains how to integrate EMS with the Fortinet Security Fabric, configure quarantine for compromised endpoints, and implement zero trust network access to control and secure endpoint connectivity.
Topic 4	<ul style="list-style-type: none">FortiClient provisioning and deployment: This section focuses on deploying FortiClient to endpoint devices, creating and assigning endpoint profiles, and implementing endpoint security features to enforce protection and compliance.

FCP_FCT_AD-7.4 Reliable Dumps Questions Reliable Questions Pool Only at itPass4sure

itPass4sure is a wonderful study platform that contains our hearty wish for you to pass the exam by our FCP_FCT_AD-7.4 exam materials. So our responsible behaviors are our instinct aim and tenet. By devoting in this area so many years, we are omnipotent to solve the problems about the FCP_FCT_AD-7.4 learning questions with stalwart confidence. we can claim that only studying our FCP_FCT_AD-7.4 study guide for 20 to 30 hours, then you will pass the exam for sure.

Fortinet FCP - FortiClient EMS 7.4 Administrator Sample Questions (Q56-

Q61):

NEW QUESTION # 56

Which two statements about FortiClient EMS integration with Active Directory (AD) are true?
(Choose two.)

- A. Endpoint profiles can be assigned to endpoints based on domain groups.
- B. Imported AD endpoints cannot be directly deleted on FortiClient EMS.
- C. FortiClient EMS has full read-write access on the AD server.
- D. FortiClient installations on domain endpoints can be deployed from FortiClient EMS.

Answer: A,B

Explanation:

Endpoint profiles in FortiClient EMS can be assigned based on AD domain groups, allowing policy targeting. Imported AD endpoints are managed through AD synchronization, so they cannot be directly deleted from EMS.

NEW QUESTION # 57

Refer to the exhibit. The zero trust network access (ZTNA) serial number on endpoint br-pc-1 is in a disabled state. What is causing the problem?

All Endpoints

The screenshot shows the FortiClient EMS interface for an endpoint named 'br-pc-1'. The interface is divided into several sections:

- Device Information:** Device: br-pc-1, OS: Linux - Ubuntu 22.04.3 LTS, IP: 10.1.0.10, MAC: 02-09-0f-00-04-02, Public IP: 35.230.181.150, Status: Online, Location: On-Fabric, Owner: admin, Organization: No Email, Group Tag: Other Endpoints, Security Posture Tags: all_registered_clients.
- Connection:** Managed by EMS.
- Configuration:** Policy: Default, Installer: Not assigned, FortiClient Version: 7.4.0.1636, FortiClient Serial Number: FCT8000082946488, FortiClient ID: C832EF1D7DBD4A2AA1A4B2487F68..., **ZTNA Serial Number: Disabled** (highlighted with a red box).
- Classification Tags:** Low.
- Status:** Managed.
- Features:** Antivirus enabled, Real-Time Protection enabled, Anti-Ransomware not installed, Cloud Based Malware Outbreak D, Sandbox not installed, Sandbox Cloud not installed, Web Filter enabled, Application Firewall not installed, Remote Access installed, Vulnerability Scan enabled, SSOMA not installed, User Verification supported.

- A. The ZTNA certificate has been revoked by administrator.
- B. The ZTNA feature is not installed on FortiClient.
- C. The ZTNA destinations endpoint profile is disabled.
- D. The ZTNA is disabled due to FortiClient disconnected from FortiClient EMS.

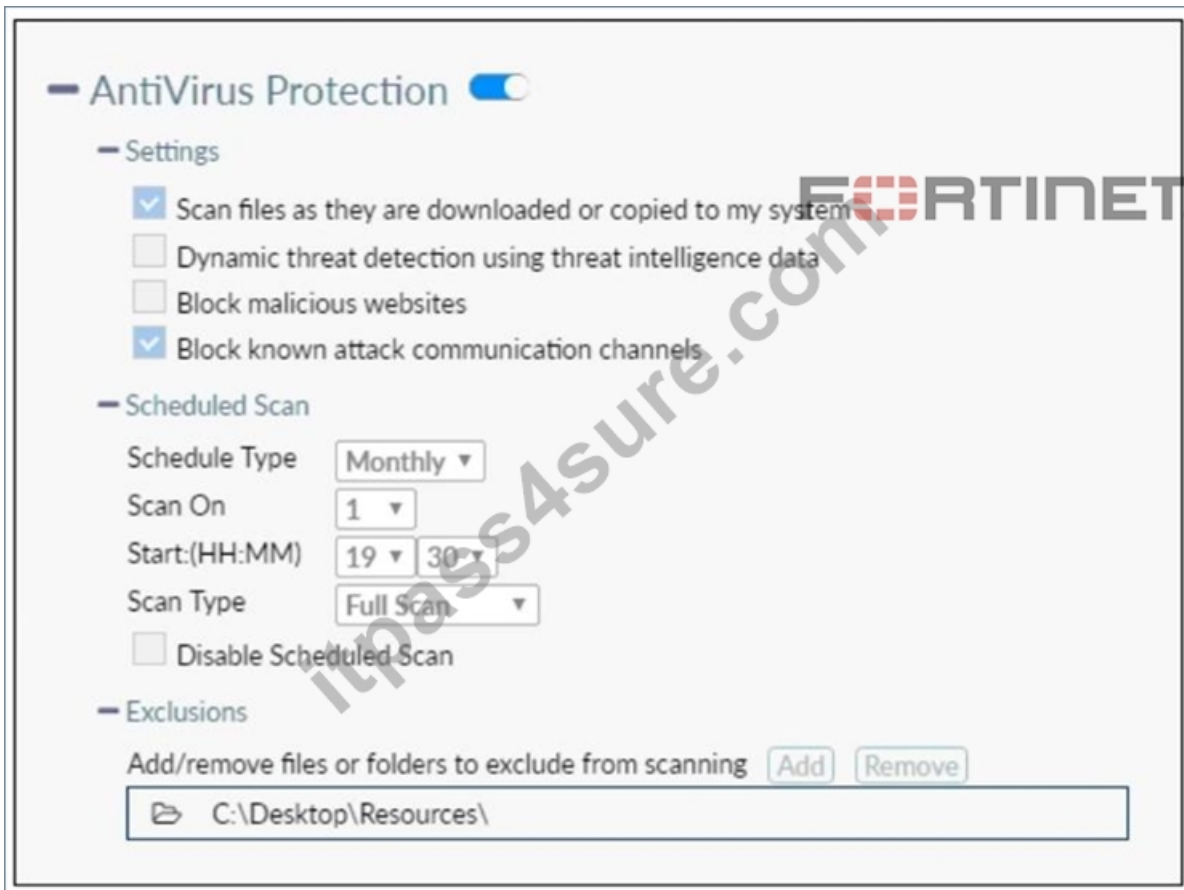

Answer: D

Explanation:

The ZTNA serial number shows as disabled because FortiClient must maintain a connection with FortiClient EMS for ZTNA functionality. If the client is disconnected or cannot communicate with EMS, the ZTNA serial number will appear disabled.

NEW QUESTION # 58

Refer to the exhibit. Based on the settings shown in the exhibit, which statement about FortiClient behaviour is true?

- A. FortiClient scans infected files when the user copies files to the Resources folder.
- B. FortiClient blocks and deletes infected files after scanning them.
- C. FortiClient copies infected files to the Resources folder without scanning them.
- D. FortiClient quarantines infected files and reviews later, after scanning them.

Answer: D

Explanation:

Action On Virus Discovery Warn the User If a Process Attempts to Access Infected Files Quarantine Infected Files. You can use FortiClient to view, restore, or delete the quarantined file, as well as view the virus name, submit the file to FortiGuard, and view logs.

NEW QUESTION # 59

An administrator must add an authentication server on FortiClient EMS in a different security zone that cannot allow a direct connection.

Which solution can provide secure access between FortiClient EMS and the Active Directory server?

- A. Configure a slave FortiClient EMS on a virtual machine.
- B. Configure Active Directory and install FortiClient EMS on the same VM.
- C. Configure and deploy a FortiGate device between FortiClient EMS and the Active Directory server.
- D. Configure an Active Directory connector between FortiClient EMS and the Active Directory server.

Answer: C

Explanation:

Requirement:

The administrator needs to add an authentication server on FortiClient EMS in a different security zone that cannot allow a direct connection.

Solution Analysis:

The goal is to securely connect FortiClient EMS and the Active Directory server despite being in different security zones.

Evaluating Options:

Installing FortiClient EMS on the same VM as Active Directory (option B) is not practical due to security zone separation. Configuring a slave FortiClient EMS on a virtual machine (option C) does not address the need for secure communication. Configuring an Active Directory connector (option D) may not be sufficient without secure routing.

Conclusion:

Deploying a FortiGate device between FortiClient EMS and the Active Directory server ensures secure and controlled access between the two zones.

NEW QUESTION # 60

Refer to the exhibit.

Based on The settings shown in The exhibit, which statement about FortiClient behaviour is Hue?

- A. FortiClient blocks and deletes infected files after scanning them.
- B. FortiClient copies infected files to the Resources folder without scanning them.
- C. FortiClient quarantines infected ties and reviews later, after scanning them.
- D. FortiClient scans infected files when the user copies files to the Resources folder.

Answer: D

Explanation:

Based on the settings shown in the exhibit, FortiClient is configured to scan files as they are downloaded or copied to the system. This means that if a user copies files to the "Resources" folder, which is not listed under exclusions, FortiClient will scan these files for infections. The exclusion path mentioned in the settings, "C:

\Users\Administrator\Desktop\Resources", indicates that any files copied to this specific folder will not be scanned, but since the question implies that the "Resources" folder is not the same as the excluded path, FortiClient will indeed scan the files for infections.

NEW QUESTION # 61

.....

If you buy our FCP_FCT_AD-7.4 practice prep, you will get more than just a question bank. You will also get our meticulous after-sales service. The purpose of the FCP_FCT_AD-7.4 study materials' team is not to sell the materials, but to allow all customers who have purchased FCP_FCT_AD-7.4 Exam Materials to pass the exam smoothly. And if you have any question about our FCP_FCT_AD-7.4 training guide, our services will help you solve it in the first time.
