## SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q34-Q39):

### NEW QUESTION # 34

You're analyzing data in Insights, specifically the 'What Users Are Searching For' section. You see that users are not finding any helpful content for the search term 'profile' because 85% of the searches for that term are resulting in no action. However, you know that you have content published specific for help with 'profile'. What should you do?

- A. Adjust the jQuery for a step in the process.
- B. Give it more time. Users will eventually find the help.
- **C. Add Keywords to the content.**
- D. Remove any content related to 'profile'.

**Answer: C**

### NEW QUESTION # 35

What is the purpose of using the small ghost icon in the WalkMe Editor when customizing an invisible Launcher?

- A. To adjust the size of the Launcher.
- B. To add animations to the Launcher.
- C. To automatically make all colors of the Launcher transparent.
- D. To change the Launcher's shape.

**Answer: C**

Explanation:

In the WalkMe Editor, the small ghost icon is a tool used when customizing Launchers to make them invisible by setting their colors to fully transparent. This feature is particularly useful for creating invisible Launchers that overlay and block interaction with specific UI elements without being visible to users. By clicking the ghost icon, the Launcher's colors (background, border, etc.) are automatically set to transparent, ensuring it blends seamlessly into the webpage while still functioning as an interactive element.

The other options are incorrect:

- \* Adding animations(A) is handled through other customization settings, not the ghost icon.
- \* Adjusting the size(B) is done via resizing controls, not the ghost icon.
- \* Changing the shape(C) is managed through shape settings, not transparency.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.3: Launchers): "The ghost icon in the WalkMe Editor's Launcher customization panel sets all colors of the Launcher to fully transparent, creating an invisible Launcher. This is ideal for scenarios where the Launcher needs to block interaction with an underlying element without being visible." The course Advancing Your Skills in Building WalkMe Solutions notes:

"To create an invisible Launcher, use the ghost icon to automatically apply transparency to all color settings, ensuring the Launcher is undetectable to users while maintaining its functionality." Option D correctly describes the purpose of the ghost icon.
