

# SAP C-BW4H-2505 Exam Brain Dumps - C-BW4H-2505 Download Fee

BTW, DOWNLOAD part of DumpsKing C-BW4H-2505 dumps from Cloud Storage: <https://drive.google.com/open?id=15Fkm2PpE3uFmO5BdZqYbmlYw-7Awci7k>

If you can pass the exam just one time, then you will save both your money and your time. C-BW4H-2505 exam braindumps can help you pass the exam just one time. C-BW4H-2505 exam dumps are edited by professional experts, therefore the quality can be guaranteed. C-BW4H-2505 exam materials cover most of knowledge points for the exam, and you can master major knowledge points. In addition, we offer a pass guarantee and money back guarantee if you fail to pass the exam. You can know the latest information for C-BW4H-2505 Exam Materials through the update version, since we offer you free update for one year, and the update version for C-BW4H-2505 exam dumps will be sent to your email address automatically.

## SAP C-BW4H-2505 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Native SAP HANA Modeling: This section evaluates the ability of SAP Consultants to describe and apply native modeling options in SAP HANA. It emphasizes understanding how to build optimized data structures directly within the HANA platform.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>SAP BW Query Design: This section of the exam assesses the ability of Data Engineers to create and run queries using SAP BW</li><li>4HANA: It evaluates how well candidates can work with query components to retrieve and structure data effectively for reporting and analysis.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>SAP BW</li><li>4HANA Data Flow: This section of the exam measures the practical ability of SAP Consultants to load data within the SAP BW</li><li>4HANA environment: It assesses familiarity with data movement and transformation processes across different layers of the system</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• SAP BW</li> <li>• 4HANA Project and the Modeling Process: This section of the exam assesses how Data Engineers guide and contribute to SAP BW</li> <li>• 4HANA projects. It includes knowledge of modeling workflows, project lifecycle stages, and collaboration strategies within project teams.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Data Acquisition into SAP HANA: This section evaluates the capacity of SAP Consultants to integrate various data sources into SAP HANA. It assesses their ability to understand different ingestion techniques and ensure data accessibility for processing.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Fundamentals: This section of the exam measures the foundational understanding of SAP Consultants and covers essential terms and concepts related to SAP BW</li> <li>• 4HANA and SAP Business Data Cloud. It focuses on the core framework and architecture necessary to navigate and work with these platforms.</li> </ul>

## C-BW4H-2505 Download Fee & C-BW4H-2505 Detailed Answers

There are so many saving graces to our C-BW4H-2505 exam simulation which inspired exam candidates accelerating their review speed and a majority of them even get the desirable outcomes within a week. Therefore, many exam candidates choose our C-BW4H-2505 Training Materials without scruple. For as you can see that our C-BW4H-2505 study questions have the advantage of high-quality and high-efficiency. You will get the C-BW4H-2505 certification as well if you choose our exam guide.

### SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q17-Q22):

#### NEW QUESTION # 17

Which development object needs to be built to generate an HDI Container?

- A. Package
- B. Space
- C. SQL script procedure
- D. **HDB module**

**Answer: D**

#### NEW QUESTION # 18

Which options do you have to combine data from SAP BW bridge a customer space in SAP Datasphere core?

Note: There are 2 correct answers to this question.

- A. **\*Import SAP BW bridge objects to the SAP BW bridge space.**  
**\*Share the generated remote tables with the customer space.**  
**\*Create additional views in the customer space to combine data.**
- B. **\*Import SAP BW bridge objects to the SAP BW bridge space.**  
**\*Create additional views in the customer space.**  
**\*Share the created views with the SAP BW bridge space to combine data.**
- C. **\*Import objects from the customer space to the SAP BW bridge space.**  
**\*Create additional views in the SAP BW bridge space to combine data.**
- D. **\*Import SAP BW bridge objects to the customer space.**  
**\*Create additional views in the customer space to combine data.**

**Answer: A,D**

Explanation:

Combining data from SAP BW Bridge and the customer space in SAP Datasphere Core requires careful planning to ensure

seamless integration and efficient data access. Let's analyze each option to determine why A and B are correct:

\* Explanation:

\* Step 1: Importing SAP BW Bridge objects into the SAP BW Bridge space ensures that the data remains organized and aligned with its source.

\* Step 2: Sharing the generated remote tables with the customer space allows the customer space to access the data without duplicating it.

\* Step 3: Creating additional views in the customer space enables users to combine the shared data with other datasets in the customer space.

\* This approach leverages the concept of "remote tables" in SAP Datasphere, which provides a virtual link to the data in the SAP BW Bridge space. It avoids unnecessary data replication and ensures efficient data access.

2. Option B: Import SAP BW bridge objects to the customer space and create views to combine data

Explanation: Step 1: Importing SAP BW Bridge objects directly into the customer space simplifies the data model by consolidating all required data in one location.

Step 2: Creating additional views in the customer space allows users to combine the imported data with other datasets within the same space.

Reference: This approach is suitable when the customer space is the primary workspace for data modeling and analysis. It eliminates the need for cross-space sharing but may involve some data duplication.

3. Option C: Import SAP BW bridge objects to the SAP BW bridge space, create views in the customer space, and share views with the SAP BW bridge space

Explanation: Sharing views created in the customer space back to the SAP BW Bridge space is not a standard practice. Views in SAP Datasphere are typically used within the space where they are created, and sharing them across spaces can lead to complexity and inefficiency.

Reference: SAP Datasphere emphasizes clear separation between spaces to maintain governance and performance. Cross-space sharing of views is not supported or recommended.

4. Option D: Import objects from the customer space to the SAP BW bridge space and create views to combine data

Explanation: Importing objects from the customer space into the SAP BW Bridge space reverses the typical data flow and introduces unnecessary complexity. The SAP BW Bridge space is designed to host data from SAP BW Bridge, while the customer space is intended for custom data modeling and integration.

Reference: SAP Datasphere follows a unidirectional flow where data from SAP BW Bridge is shared with the customer space, not the other way around.

## NEW QUESTION # 19

You use InfoObject B as a display attribute for InfoObject A. Which object properties prevent you from changing InfoObject B into a navigational attribute for InfoObject A? Note: There are 3 correct answers to this question.

- A. High Cardinality is set in InfoObject B.
- B. Data Type "Character String" is set in InfoObject A.
- C. InfoObject B is defined as a Key Figure
- D. Conversion Routine "ALPHA" is set in InfoObject A.
- E. Attribute Only is set in InfoObject B.

Answer: A,C,E

Explanation:

SAP BW/4HANA Project and Modeling Process

## NEW QUESTION # 20

Which objects values can be affected by the key date in a BW query? Note: There are 3 correct answers to this question.

- A. Hierarchies
- B. Navigation attributes
- C. Display attributes
- D. Time characteristics
- E. Basic key figures

Answer: A,C,D

## NEW QUESTION # 21

You create a report with SAP Crystal Reports for Enterprise and need an analysis view as a data source. Which tool can you use to create this analysis view?

- A. SAP Analysis for Microsoft Office
- B. SAP BusinessObjects Web Intelligence
- C. SAP Crystal Reports for Enterprise
- D. SAP Lumira, designer edition

**Answer: A**

## NEW QUESTION # 22

.....

These SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) practice test questions are customizable and give real SAP Certified Associate - Data Engineer - SAP BW/4HANA (C-BW4H-2505) exam experience. Windows computers support desktop software. The web-based C-BW4H-2505 Practice Exam is supported by all browsers and operating systems.
