

Salesforce PDII-JPN Vce File, PDII-JPN Dumps Collection

Our PDII-JPN exam preparation materials have a higher pass rate than products in the same industry. If you want to pass PDII-JPN certification, then it is necessary to choose a product with a high pass rate. Our PDII-JPN study materials guarantee the pass rate from professional knowledge, services, and flexible plan settings. The 99% pass rate is the proud result of our PDII-JPN Study Materials. I believe that pass rate is also a big criterion for your choice of products, because your ultimate goal is to obtain PDII-JPN certification.

The (PDII-JPN) practice test software keeps track of each previous attempt and highlights the improvements with each attempt. The (PDII-JPN) mock exam setup can be configured to a particular style and arrive at unique questions. Getcertkey Salesforce PDII-JPN practice exam software went through real-world testing with feedback from more than 90,000 global professionals before reaching its latest form. The Salesforce PDII-JPN Exam Dumps are similar to real exam questions. Our Salesforce PDII-JPN practice test software is suitable for computer users with a Windows operating system.

Why Getcertkey Best Salesforce PDII-JPN Exam Preparation

To let the clients have an understanding of their mastery degree of our PDII-JPN guide materials and get a well preparation for the test, we provide the test practice software to the clients. The test practice software of PDII-JPN practice guide is based on the real test questions and its interface is easy to use. The test practice software boosts the test scheme which stimulate the real test and boost multiple practice models, the historical records of the practice of PDII-JPN Training Materials and the self-evaluation function.

Salesforce Sample Questions (Q150-Q155):

NEW QUESTION # 150

次のコード スニペットを考えてみましょう。

開発者は、上記のスニペットに適切なコード カバレッジを提供するために、次のテスト クラスを作成しました。

ただし、テストを実行するとデータが返されず、アサーションは失敗します。

テストクラスが正常に実行されることを確認するには、開発者はどの編集を行う必要がありますか？

- A. @IsTest アノテーションに `seeAllData=true` 属性を実装します。
- B. `searchFeatures` Apex クラスにキーワードを共有せずに実装します。
- C. メソッド呼び出しを Test 内に囲みます。 `startTest()` および `@Test_stopTest()`。
- D. テスト クラスに `setFixedSearchResult=` メソッドを実装します。

Answer: D

Explanation:

To ensure that the test class for a search functionality in Salesforce runs successfully, the developer should use the

Test.setFixedSearchResults() method. This allows the test to specify the records that are returned by the search, ensuring that the search behavior is predictable and that the assertion can be properly evaluated. References: Apex Developer Guide - Testing SOSL Queries

NEW QUESTION # 151

Universal Containers を使用すると、顧客は Salesforce コミュニティにログインし、カスタム Visualforce ページ経由で注文を更新できます。Universal Containers の営業担当者は、同じ Visualforce ページで注文を編集できます。Visualforce ページでレコード共有が強制されていることをテストするには、開発者は Apex テストクラスで何を使用する必要がありますか？

- A. システムを使用します。profilesIn() 営業担当者およびコミュニティ ユーザーとしてテストします。
- B. システムを使用します。profiles() 営業担当者およびコミュニティ ユーザーとしてテストします。
- C. システムを使用します。管理者およびコミュニティ ユーザーとしてテストするには、runAs() を実行します。
- D. システムを使用します。profiles() を使用して、管理者およびコミュニティ ユーザーとしてテストします。

Answer: C

Explanation:

The System.runAs() method is used in test classes to enforce record sharing. This method allows you to write test methods that change user contexts to ensure that the proper record sharing is enforced. References:

Understanding the runAs Method

NEW QUESTION # 152

Universal Containers は、外部 REST API との頻繁な対話を必要とする Salesforce アプリケーションを開発します。コードの重複を避け、保守性を向上させるには、コードを再利用するために APL 統合をどのように実装する必要がありますか？

- A. API 統合コードを必要とする各 Apex クラスに直接組み込みます。
- B. API エンドポイントごとに個別の Apex クラスを使用して、統合ロジックをカプセル化します。
- C. APT 統合コードを静的リソースとして保存し、各 Apex クラスで参照します。
- D. AFL 統合用の再利用可能な Apex クラスを作成し、関連する Apex クラスから呼び出します。

Answer: D

Explanation:

Creating a reusable Apex class for API integration allows for code encapsulation and maintainability. This class can then be invoked from any other Apex class that requires interaction with the API, preventing code duplication.

References: Apex Developer Guide - Apex Classes

NEW QUESTION # 153

ある企業は、多数のメソッドを含むテストクラスのユニットテストで、前提条件となる参照データ用のレコードを多数作成する処理が遅いことに気づきました。開発者はこの問題を解決するために何ができるでしょうか？

- A. 前提条件となる参照データの設定を TestDataFactory に移動し、各テスト メソッドからそれを読み出します。
- B. 前提条件となる参照データのセットアップをテスト クラスの @testSetup メソッドに移動します。
- C. 前提条件となる参照データの設定をテスト クラスのコンストラクターに移動します。
- D. テストを実行するときに、トリガー、フロー、検証をオフにします。

Answer: B

Explanation:

The most effective way to optimize test performance when multiple test methods require the same set of records is to use the @testSetup annotation (Option C).

When a method is marked with @testSetup, Salesforce executes it exactly once before any test methods in the class run. The

platform then creates a "database snapshot" of those records. For every individual test method in the class, Salesforce simply rolls back the database to that snapshot rather than re-executing the DML operations required to create the records. This dramatically reduces the total number of DML statements and CPU time consumed during the test run.

In contrast, calling a TestDataFactory (Option D) from within every test method results in the same records being inserted and deleted repeatedly for every test case. If a class has 50 test methods, the records are created

50 times. With @testSetup, they are created once. Option A is not possible (you cannot programmatically disable these during a test run), and Option B is incorrect as test classes do not use constructors in this manner. Using @testSetup is the platform-recommended pattern for efficient, high-performance unit testing.

NEW QUESTION # 154

静的リソース内の JavaScript ファイルを読み込むために、Lightning Web コンポーネントで完了する必要がある 3 つのアクションはどれですか? 3 つの答えを選択してください

- A. loadScript を呼び出します。
- B. 静的リソースを DOM に追加します。
- C. platformResourceLoader からメソッドをインポートします。
- D. <script> タグで静的リソースを参照します。
- E. 静的リソースをインポートします。

Answer: A,C,E

Explanation:

The three actions that must be completed in a Lightning web component for a JavaScript file in a static resource to be loaded are to import the static resource, call loadScript, and import a method from the platformResourceLoader. Importing the static resource allows the developer to reference the JavaScript file by name, and use the @salesforce/resourceUrl annotation to assign the URL of the file to a property. Calling loadScript allows the developer to load the JavaScript file dynamically, and use a callback function to handle the success or failure of the loading. Importing a method from the platformResourceLoader allows the developer to use the loadScript method, which is a utility method that is part of the platformResourceLoader module. Referencing the static resource in a <script> tag will not work, as the <script> tag is not supported in the Lightning web component template, and it will not load the JavaScript file. Appending the static resource to the DOM will not work, as it is not a valid way to load a JavaScript file in a Lightning web component, and it will not execute the code in the file. Reference: [Use Third-Party JavaScript Libraries], [Lightning Web Components Developer Guide]

NEW QUESTION # 155

.....

Making right decision of choosing useful PDII-JPN practice materials is of vital importance. Here we would like to introduce our PDII-JPN practice materials for you with our heartfelt sincerity. With passing rate more than 98 percent from exam candidates who chose our PDII-JPN Study Guide, we have full confidence that your PDII-JPN actual test will be a piece of cake by them. Don't hesitant, you will pass with our PDII-JPN exam questions successfully and quickly.

PDII-JPN Dumps Collection: https://www.getcertkey.com/PDII-JPN_braindumps.html

Our PDII-JPN Dumps Collection - valid study torrent must be your smart choice since you never worry to waste any money on them, is increased, the PDII-JPN Dumps Collection - pdf dump is updated, Our PDII-JPN test torrent offers you fast delivery to safeguard your interests, with our PDII-JPN exam dumps for 20 to 30 hours, we can claim that our customers are confident to take part in your PDII-JPN exam and pass it for sure, If you purchase the training materials we provide, you can pass Salesforce certification PDII-JPN exam successfully.

Their techniques are easy to understand, and easy to use with PDII-JPN any iterative methodology, from Rational Unified Process to Extreme Programming to the Microsoft Solutions Framework.

Developing positive relationships, Our valid study torrent PDII-JPN Dumps Collection must be your smart choice since you never worry to waste any money on them, is increased, the pdf dump is updated.

High Hit Rate Salesforce PDII-JPN Vce File - PDII-JPN Free Download

Our PDII-JPN Test Torrent offers you fast delivery to safeguard your interests, with our PDII-JPN exam dumps for 20 to 30 hours, we can claim that our customers are confident to take part in your PDII-JPN exam and pass it for sure.

If you purchase the training materials we provide, you can pass Salesforce certification PDII-JPN exam successfully.
