- A. The next-hop-self command is not implemented on both E-BGP neighbors.
- B. The E-BGP neighbors are not allowed to exchange information due to the customer platforms default policy.
- C. The I-BGP neighbors are mistyped and HELLO packets cannot be exchanged successfully between routers.
- D. A PASS ALL policy has not been implemented for the I-BGP neighbors.

Answer: B

Explanation:

Routing Policy Enforcement

External BGP (eBGP) neighbors must have an inbound and outbound policy configured. If no policy is configured, no routes are accepted from the neighbor, nor are any routes advertised to it. This added security measure ensures that routes cannot accidentally be accepted or advertised in the case of a configuration omission error.
