The product of Actual4Cert has many different premium features that help you use this product with ease. The study material has been made and updated after consulting with a lot of professionals and getting customers' reviews.

## GInI Certified Innovation Professional (CInP) Sample Questions (Q109-Q114):

### NEW QUESTION # 109

Innovation is an acquirable mentality and skillset.  
Select one correct answer from the list:

- **A. acquirable**

- B. extremely common
- C. extremely rare
- D. in-born

**Answer: A**

Explanation:

GInI's foundational philosophy, as articulated in the CInP Handbook, posits that innovation is not an innate trait but a "mentality and skillset" that can be learned and developed through practice, training, and exposure to structured methods. Option A, "in-born," contradicts this by suggesting it's genetic. Option B, "extremely common," overstates its prevalence without training. Option C, "extremely rare," undermines GInI's mission to democratize innovation skills. D, "acquirable," reflects GInI's belief in teachability, aligning with the question's statement and the original answer. This is a core tenet of the CInP certification itself.

Reference: GInI CInP Handbook, Introduction to Innovation Competencies.

### NEW QUESTION # 110

\_\_\_\_\_ engage in a certain amount of their own risk taking within their business to pursue a new innovation they are passionate about, even sometimes when they are not formally sanctioned.

Select one correct answer from the list:

- A. Rebels
- B. Mavericks
- C. Intrapreneurs
- D. Dreamers

**Answer: C**

### NEW QUESTION # 111

Cross-Industry Lateral Innovation Panels are private groups of businesses from different industries who from time to time host panel sessions together where each business sends one or more leaders to engage with peers on the panel for the purpose of cross-pollinating ideas with one another. This tends to produce highly lateral thinking around different ways of doing things-aka lateral approaches. These individuals then return to their respective organizations and use their new insights as fresh fodder for the Innovation Funnel.

Select one correct answer from the list:

- A. Cross-Industry Lateral Innovation Panels
- B. Extra-Industry Horizontal Innovation Forums
- C. Intra-Industry Lateral Thinking Teams
- D. Super-Industry Horizontal Thinking Labs

**Answer: A**

Explanation:

The description provided in the question explicitly matches the definition of "Cross-Industry Lateral Innovation Panels" as outlined in GInI documentation. These panels are designed to bring together leaders from different industries to share perspectives and generate lateral (outside-the-box) ideas that can be fed into an organization's Innovation Funnel. The term "cross-industry" indicates collaboration across diverse sectors, distinguishing it from "intra-industry" (B), which would imply within the same industry. Options A (

"Super-Industry Horizontal Thinking Labs") and D ("Extra-Industry Horizontal Innovation Forums") are not standard terms in GInI's framework and appear as distractors. The focus on cross-pollination and lateral thinking aligns perfectly with option C, making it the correct choice.

Reference: GInI CInP Handbook, Section on Mechanisms of Engagement.

### NEW QUESTION # 112

Becoming an Innovation Manager gives one a chance to make a name for themselves by \_\_\_\_\_.

Select one correct answer from the list

- A. demonstrating lean thinking skills and financial acumen
- B. showing off how much they know

- C. leading the most radical and demanding innovation efforts
- D. demonstrating leadership skills and business acumen

**Answer: D**

### NEW QUESTION # 113

A key use of research in Needfinding work is for market segmentation, where an overall population of prospective customers is segmented according to the particular outcome each segment seeks.

Select one correct answer from the list:

- A. The particular outcome each segment seeks
- B. Various demographic factors
- C. Their lifestyles
- D. Their tastes-what they like and dislike

**Answer: A**

Explanation:

GInI's CInP Handbook highlights Needfinding as a Front End activity where research, including market segmentation, identifies customer needs. GInI advocates segmenting based on "the particular outcome each segment seeks" (e.g., convenience, performance)-a jobs-to-be-done approach-rather than traditional metrics. This focuses on why customers buy, revealing actionable innovation opportunities. Option B, "demographic factors" (age, income), is conventional but less need-centric. Option C, "lifestyles," and Option D, "tastes," are behavioral but miss the outcome focus GInI prioritizes. Option A aligns with GInI's methodology, matching the original answer, embodying a sophisticated, outcome-driven segmentation that drives targeted innovation-a nuanced evolution of market research.

### NEW QUESTION # 114

.....

The data that come up with our customers who have bought our CInP actual exam and provided their scores show that our high pass rate of our CInP exam questions is 98% to 100%. This is hard to find and compare with in the market. And numerous enthusiastic feedbacks from our worthy clients give high praises not only on our CInP study torrent, but also on our sincere and helpful 24 hours customer services online. All of these prove that we are the first-class vendor in this career and have authority to ensure your success in your first try on CInP exam.
