1Z0-1042-25試験の準備方法 | 高品質な1Z0-1042-25資格取得講座試験 | ハイパスレートのOracle Cloud Infrastructure 2025 Application Integration Professional試験概要

多くの時間とお金がいらなくて20時間だけあって楽に一回にOracleの1Z0-1042-25認定試験を合格できます。Jpshikenが提供したOracleの1Z0-1042-25試験問題と解答が真実の試験の練習問題と解答は最高の相似性があります。

Oracle 1Z0-1042-25 認定試験の出題範囲:

トピック	出題範囲
トピック 1	Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.
トピック 2	Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.

トピック 3	Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.
トピック 4	Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.
トピック 5	Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.

Oracle Cloud Infrastructure 2025 Application Integration Professional 認定 1Z0-1042-25 試験問題 (Q80-Q85):

質問 # 80

Which statement is valid regarding connection resources in Oracle Integration Cloud (OIC)?

- A. All connection resources must be associated with an adapter type regardless of role configuration.
- B. All connection configurations require the association of an active OIC Connectivity Agent group.
- C. Each connection associated with a SaaS adapter type also requires a lookup component configuration.
- D. Connection resources can be configured with either a Trigger role or an Invoke role, but not both.

正解: A

解説:

Comprehensive and Detailed Explanation:

Connections in OIC:

C:True-all connections require an adapter type (e.g., REST, SOAP) to define interaction.

A:False-lookups are optional.

B:False-agents are only for on-premises access.

質問 # 81

Your team is responsible for an OIC package that contains five integrations. Currently, three of these integrations are active while the other two are inactive. Which statement is valid if you were to replace a connection used in this package?

- A. You can only replace the connections used by the three active integrations.
- B. You can only replace the connections used by the two inactive integrations.
- C. You cannot replace connections unless all integrations in the package are in an inactive state.
- D. You cannot replace connections unless all integrations in the package are in an active state.

正解: C

解説:

Comprehensive and Detailed Explanation:

OIC packages group integrations:

Option A:True-replacing a connection requires all dependent integrations to be inactive to avoid runtime conflicts.

Option B:False-active integrations can't have connections replaced without deactivation.

Option C:False-replacement isn't limited to inactive ones; all must be inactive.

Option D:False-active state prevents replacement, opposite of the requirement.

A ensures stability during configuration changes.

質問 # 82

You are creating integrations in Oracle Integration Cloud (OIC) using B2B trading partner agreements. Which identifier is implicitly used for all outbound agreements?

- A. Application Partner ID
- B. EDI Group ID Qualifier
- C. EDI Interchange Internal Sub ID
- **D. EDI Interchange ID**

正解: D

解説:

Comprehensive and Detailed Explanation:

In OIC B2B, outbound agreements use the EDI Interchange ID (B) as the implicit identifier. This ID, part of the EDI header, uniquely identifies the sender in transactions (e.g., X12 or EDIFACT standards).

Option A: Internal Sub ID is a secondary identifier, not implicit for all outbound flows.

Option C: Application Partner ID is specific to application-level config, not EDI.

Option D: Group ID Qualifier defines document grouping, not the primary outbound identifier.

The Interchange ID ensures consistency in B2B communication.

質問 # 83

When defining the frequency for scheduled orchestration style integration runs, you can choose either Basic or the Advanced option. Which expression format is used for defining advanced scheduled runs?

- A. YAML
- B. cron
- C. Groovy
- **D. iCal**

正解: D

解説:

Comprehensive and Detailed Explanation:

OIC provides two scheduling options: Basic (simple intervals) and Advanced (complex patterns). For Advanced scheduling, OIC uses the iCal (Internet Calendaring) format, a standard for defining recurring events.

Option A: iCal supports expressions like `FREQ=DAILY;BYDAY=MO-FR`, ideal for precise scheduling.

Option B: Cron is common in UNIX systems but not used in OIC.

Option C: YAML is a data serialization format, not for scheduling.

質問 # 84

You are configuring an Oracle ERP Cloud adapter connection invoke action within an Oracle Integration (OIC) integration and have selected to browse by Business (REST) resources. Once you have selected the parent resource, how many child resources can you select?

- A. 0
- B. 1
- C. 2
- **D. Unlimited**

正解: D

解説:

Comprehensive and Detailed Explanation:

ERP Resources:

C: True - no fixed limit on child resources.

質問 # 85

.....

なぜみんなが順調にOracleの1Z0-1042-25試験に合格できることに対する好奇心がありますか。Oracleの1Z0-1042-25試験に合格したいんですか。実は、彼らが試験に合格したコツは我々Jpshikenの提供するOracleの1Z0-1042-25試験ソフトを利用したんです。豊富な問題集、専門的な研究と購入の後の一年間の無料更新、ソフトで復習して、自分の能力の高めを感じられます。Oracleの1Z0-1042-25試験に合格することができます。
