SAP Certified Associate - Managing SAP S/4HANA Cloud Private Edition Projects Sample Questions (Q49-Q54):

NEW QUESTION # 49

You are transitioning to SAP S/4HANA. In which phase do you adjust custom code?

- A. Explore
- **B. Realize**
- C. Deploy
- D. Prepare

Answer: B

NEW QUESTION # 50

Which of the following are responsibilities of the SAP Project Manager during the Explore phase of an S/4HANA Cloud Private Edition implementation? Note: There are 3 correct answers to this question.

- A. Monitor completion of the Business Driven Configuration Questionnaire
- B. Develop a detailed technical architecture design
- C. Conduct fit-to-standard workshops
- D. Develop detailed technical specifications for custom development
- E. Establish the Solution Standardization Board

Answer: A,C,E

Explanation:

Step 1 - Understanding the Question

The Explore phase of the SAP Activate methodology focuses on confirming scope, validating SAP Best Practice processes, and finalizing solution design decisions through Fit-to-Standard workshops.

The SAP Project Manager plays a leadership and coordination role - ensuring workshops are executed, project governance is active, and the configuration approach remains aligned with standard SAP practices.

Step 2 - Evaluate Each Option

A). Monitor completion of the Business Driven Configuration Questionnaire

* The Business-Driven Configuration Questionnaire (BDCQ) captures key requirements and process-specific decisions from the customer.

* During the Explore phase, the SAP Project Manager ensures the questionnaire is completed accurately to support Fit-to-Standard discussions.

* Monitoring completion of this document is a formal responsibility of the Project Manager.

Result: Correct - It is a key management activity during Explore.

B). Develop detailed technical specifications for custom development

* This activity is owned by technical consultants or developers, not the Project Manager.

* The Project Manager's role is to oversee progress and governance, not to write or develop technical designs.

Result: Incorrect - Outside the PM's direct responsibilities.

C). Develop a detailed technical architecture design

* Architecture design is the responsibility of technical architects, finalized in the Prepare phase before workshops begin.

* The Project Manager reviews and monitors this work but does not develop it.

Result: Incorrect - Managed, but not developed by the Project Manager.

D). Conduct fit-to-standard workshops

* The Project Manager coordinates and ensures Fit-to-Standard workshops are completed according to plan.

* The PM's role includes scheduling, logistics, resource allocation, and monitoring outcomes.

* While consultants lead the content of workshops, the PM ensures they are conducted effectively and documented.

Result: Correct - Conducting and managing workshops is part of the Project Manager's Explore responsibilities.

E). Establish the Solution Standardization Board

* The Solution Standardization Board (SSB) is established during Explore to govern deviation requests from SAP Best Practices.

* The Project Manager facilitates the setup of this board and ensures that change requests are reviewed and approved in line with the clean-core principle.

Result: Correct - Establishing and managing the SSB is part of the Project Manager's Explore phase tasks.

NEW QUESTION # 51

What can you find in the SAP Fiori apps reference library? Note: There are 3 correct answers to this question.

- A. Shortcut to the Quicksizer tool to estimate hardware requirements
- B. Related app recommendations based on your usage profile
- C. Installation and configuration requirements for selected apps
- D. Shortcut to the Maintenance Planner tool to establish the technical update path
- E. Related app-specific solution design guidelines

Answer: B,C,E

Explanation:

Step 1 - Understanding the question

This question refers to the SAP Fiori Apps Reference Library, which is the official tool provided by SAP to explore all Fiori applications available for SAP S/4HANA.

It includes detailed information such as functional scope, technical components, installation requirements, and related app recommendations.

Step 2 - Evaluate each option

Option A: Related app-specific solution design guidelines

This is correct.

The Fiori Apps Reference Library provides design guidelines and best practices for specific Fiori apps, including navigation patterns and user experience notes.

Option B: Shortcut to the Maintenance Planner tool to establish the technical update path This is incorrect.

The library does not provide direct access to the Maintenance Planner tool. Maintenance Planner is accessed through SAP Support Portal, not the Fiori Apps Library.

Option C: Installation and configuration requirements for selected apps

This is correct.

Each app entry provides installation, configuration, and authorization requirements, including business catalogs, roles, and software components.

Option D: Shortcut to the Quicksizer tool to estimate hardware requirements This is incorrect.

The Quicksizer tool is separate and used for system sizing; it is not part of the Fiori Apps Reference Library.

Option E: Related app recommendations based on your usage profile

This is correct.

The library provides related app recommendations, showing which other apps are commonly used together or complement the selected one.

NEW QUESTION # 52

Which organizational change management activity is usually performed in which SAP Activate phase? Note:

There are 2 correct answers to this question.

- A. The change assessment is usually conducted in the prepare phase.
- B. The user adoption analysis is usually conducted in the run phase.
- C. The change plan is usually developed in the explore phase.
- D. The business readiness assessment is usually conducted in the discover phase.

Answer: B,C

NEW QUESTION # 53

How do you define the term Organizational Change Management?

- A. It is a selective, singular, and intuitive approach for transitioning individuals, groups, and organizations from a traditional to an agile organizational set-up with intended business benefits.
- B. It is a comprehensive, cyclic, and structured approach for transitioning individuals, groups, and organizations from a traditional to an agile organizational set-up with focus on the added value for the impacted users.
- C. It is a selective, singular, and intuitive approach for transitioning individuals, groups, and organizations from a current to a future state with focus on the added value for the impacted users.
- D. It is a comprehensive, cyclic, and structured approach for transitioning individuals, groups, and organizations from a current to a future state with intended business benefits.

Answer: D

Explanation:

Step 1 - Understanding the Question

The question defines Organizational Change Management (OCM) in SAP's context.

SAP describes OCM as a structured approach that prepares and supports individuals, teams, and organizations in making organizational change successfully.

Step 2 - Evaluate Each Option

A). Selective, singular, and intuitive approach - transitioning to agile setup

* Incorrect: OCM is comprehensive and structured, not selective or singular.

B). Comprehensive, cyclic, structured - but focuses only on agile setup

* Incorrect: OCM supports all types of change, not limited to agile transformations.

C). Selective, singular, and intuitive approach - transitioning to a future state

* Incorrect: OCM is not intuitive or selective, but methodical and repetitive (cyclic).

D). Comprehensive, cyclic, and structured approach - transitioning from current to future state with intended business benefits

* Correct: This reflects SAP's exact description - OCM manages the human and organizational aspects of transformation, ensuring adoption and value realization.

Step 3 - Final Answer

The correct answer is:

D). It is a comprehensive, cyclic, and structured approach for transitioning individuals, groups, and organizations from a current to a future state with intended business benefits.

NEW QUESTION # 54

.....

We guarantee you that our top-rated SAP C_S4PM2_2507 practice exam (PDF, desktop practice test software, and web-based practice exam) will enable you to pass the SAP Certified Associate - Managing SAP S/4HANA Cloud Private Edition Projects (C_S4PM2_2507) certification exam on the very first go.
