DAMA Data Management Fundamentals Sample Questions (Q136-Q141):

NEW QUESTION # 136

What is a steward?

- A. An employer
- **B. A person whose job it is to manage the property of another person**
- C. A stakeholder
- D. A person responsible to follow trends
- E. A sponsor

Answer: B

Explanation:

A steward, in the context of data governance, is someone who manages assets on behalf of others. The DAMA-DMBOK states: "A steward is a person entrusted with the management of another's property or assets, such as data, ensuring its proper use and quality" (DMBOK2, Chapter 3: Data Governance, p. 110).

Options A, B, D, and E do not align with this definition: sponsors fund, stakeholders have interests, trend-followers are unrelated, and employers hire.

Reference: DAMA-DMBOK2, Chapter 3: Data Governance, Section 3.1, p. 110.

NEW QUESTION # 137
