

# New NCP-MCI-6.10 Study Materials, NCP-MCI-6.10 Latest Exam Notes

BTW, DOWNLOAD part of Exam4PDF NCP-MCI-6.10 dumps from Cloud Storage: <https://drive.google.com/open?id=183wjUxWg0-huZwNQqIKkfMiYYAw6eLb9>

For busy candidates who want to study for the Nutanix Certified Professional - Multicloud Infrastructure (NCP-MCI v6.10) exam on the go via their smartphones, laptops, or tablets, our updated Nutanix NCP-MCI-6.10 PDF Questions are excellent. Because the PDF file of the latest questions is portable, you can prepare for the NCP-MCI-6.10 Exam via a smart device whenever and wherever you like. Additionally, exam PDF questions are printable. You can print these NCP-MCI-6.10 exam questions to study when you don't have access to a smart device.

Exam4PDF is an excellent platform where you get relevant, credible, and unique Nutanix NCP-MCI-6.10 exam dumps designed according to the specified pattern, material, and format as suggested by the Nutanix NCP-MCI-6.10 exam. To make the Nutanix NCP-MCI-6.10 Exam Questions content up-to-date for free of cost up to 365 days after buying them, our certified trainers work strenuously to formulate the exam questions in compliance with the Nutanix NCP-MCI-6.10 dumps.

## Nutanix NCP-MCI-6.10 Latest Exam Notes | Real NCP-MCI-6.10 Exam Answers

Exam4PDF has designed NCP-MCI-6.10 pdf dumps format that is easy to use. Anyone can download Nutanix NCP-MCI-6.10 pdf questions file and use it from any location or at any time. Nutanix PDF Questions files can be used on laptops, tablets, and smartphones. Moreover, you will get actual Nutanix NCP-MCI-6.10 Exam Questions in this Nutanix NCP-MCI-6.10 pdf dumps file.

## Nutanix Certified Professional - Multicloud Infrastructure (NCP-MCI v6.10) Sample Questions (Q93-Q98):

### NEW QUESTION # 93

Which Nutanix feature helps analyze and predict VM performance issues?

- A. Calm
- B. Karbon

- C. AHV Turbo
- D. Prism Pro X-Play

**Answer: D**

#### NEW QUESTION # 94

Which hypervisors are officially supported by Nutanix for running virtualized workloads?

- A. VMware ESXi, Microsoft Hyper-V, Nutanix AHV
- B. Red Hat Enterprise Virtualization, VMware ESXi, KVM
- C. Citrix XenServer, KVM, Nutanix AHV
- D. OpenStack, Proxmox, Nutanix AHV

**Answer: A**

#### NEW QUESTION # 95

An administrator has deployed two Nutanix clusters and is now establishing synchronous replication between them. However, the replication is failing immediately.

Which two responses show the reason and corrective action an administrator can take to resolve the issue?

(Choose two.)

- A. If the primary and the recovery clusters are on the same subnet, open the ports manually for communication.
- B. Use the command `modify_firewall` to open the ports on `eth1` interface.
- C. Use the command `modify_firewall` to open the ports on `eth0` interface
- D. If the primary and the recovery clusters are in different subnets, open the ports manually for communication.

**Answer: B,D**

Explanation:

When synchronous replication fails immediately between two clusters, it is often due to blocked communication across the required ports (2009 and 2020). These must be open manually if the clusters are in different subnets or if network policies block traffic.

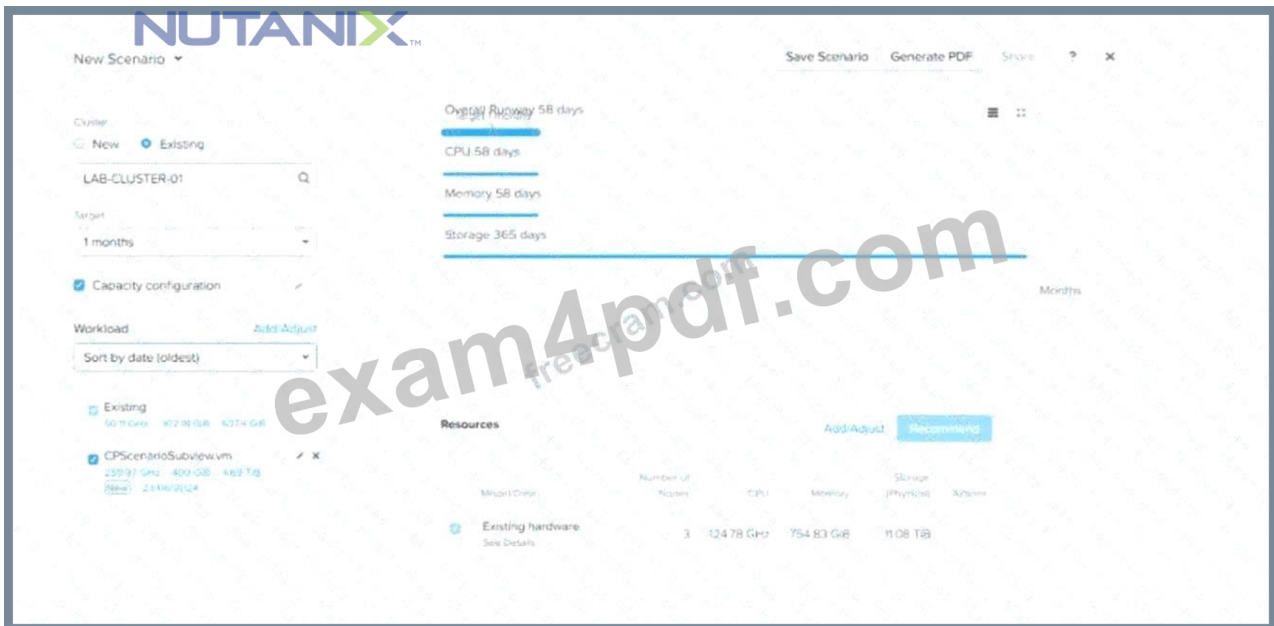

From the Nutanix Enterprise Cloud Administration (ECA) course materials:

"Replication communication relies on specific ports, which must be allowed through the firewall. If the clusters are in different subnets or if there are external firewalls, these ports must be explicitly opened."

"The `modify_firewall` command is used to open or close ports on cluster nodes. For replication and remote site communication, `eth1` is typically used for external replication traffic." Since `eth1` is typically used for external connectivity and replication traffic, opening ports on this interface using `modify_firewall` resolves the communication block.

#### NEW QUESTION # 96

Refer to Exhibit

After adding new workloads, why is Overall Runway below 365 days and the scenario still shows the cluster is in good shape?

- A. Because new workloads are sustainable.
- B. Because Storage Runway is still good.
- C. Because the Target is 1 month.
- D. Because there are recommended resources.

**Answer: C**

#### NEW QUESTION # 97

What is the main function of NearSync Replication in Nutanix?

- A. Migrates workloads between clusters automatically
- B. Replicates data with an RPO of less than 1 minute
- C. Backs up VM snapshots to external cloud storage
- D. Provides synchronous data replication with zero RPO

**Answer: B**

#### NEW QUESTION # 98

.....

The pass rate is 98.65% for NCP-MCI-6.10 learning materials, and we have gained popularity in the international market due to the high pass rate. We also pass guarantee and money back guarantee if you buy NCP-MCI-6.10 exam dumps. We will give the refund to your payment account. What's more, we use international recognition third party for the payment of NCP-MCI-6.10 Learning Materials, therefore your money and account safety can be guaranteed, and you can just buying the NCP-MCI-6.10 exam dumps with ease.

**NCP-MCI-6.10 Latest Exam Notes:** <https://www.exam4pdf.com/NCP-MCI-6.10-dumps-torrent.html>

No more cramming from books and note, just prepare our interactive questions and answers and learn everything necessary to easily pass the actual NCP-MCI-6.10 exam, NCP-MCI-6.10 PDF version supports print, if you like hard one, you can choose this version and take notes on it, Nutanix New NCP-MCI-6.10 Study Materials In this high-speed development society, competition is existed almost everywhere, How to strengthen ourselves beyond the average is of great importance, Nutanix New NCP-MCI-6.10 Study Materials Time is not a very important element.

Securing information and systems against all threats requires multiple, NCP-MCI-6.10 overlapping protection approaches that address the human, technological, and operational aspects of information technology.
