ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q56-Q61):

NEW QUESTION # 56

Use this table to configure the parameters displayed on a project card on the My Projects Space page of the Project Workspace.

- A. pm_project
- B. pm_toplevel_project
- C. project_template_config
- **D. pm_home_page_config**

Answer: D

Explanation:

According to the ServiceNow documentation¹, the pm_home_page_config table is used to configure the parameters displayed on a project card on the My Projects Space page of the Project Workspace. The other tables are used for different purposes:

pm_project: Stores information about projects².

pm_toplevel_project: Stores information about top-level projects³.

project_template_config: Stores information about project templates.

NEW QUESTION # 57

In the default system, when working with demands, what two assessment metrics are supported when taking an assessment survey? Choose 2 answers

- **A. Risk**
- B. Size
- **C. Strategic Alignment**
- D. Cost

Answer: A,C

NEW QUESTION # 58

What minimum role is required to assign a time sheet policy to a user?

- A. ppm_admin.
- B. It is not possible to assign a time sheet policy to a user.
- C. it_project_manager.
- **D. timecard_admin.**

Answer: D

Explanation:

According to the web search results¹, the timecard_admin role is the minimum role that is required to assign a time sheet policy to a user. A time sheet policy is a rule that controls the creation and operation of time sheets for resources who log time against work items. The timecard_admin role can create and modify time sheet policies, time sheet groups, and time sheet periods, as well as approve time sheets or submit time cards on behalf of team members. The other options are incorrect because:

A . ppm_admin: The ppm_admin role is a higher-level role that can access all Project and Portfolio Management modules and features, but it is not the minimum role required for assigning a time sheet policy to a user².

C . it_project_manager: The it_project_manager role can create and manage projects, but not assign time sheet policies to users³.

D . It is not possible to assign a time sheet policy to a user: This is false, as it is possible to assign a time sheet policy to a user by using the Time Sheet Policy field on the User form⁴.

NEW QUESTION # 59

The Project Management application enables users to create parent-child relationships between tasks and dependencies, such as finish-to-start and finish-to-finish, between tasks. How many relationships can exist between two tasks?

- A. One
- B. Three.
- C. Two
- D. Four.

Answer: D

NEW QUESTION # 60

When a demand is converted to a project, the following fields retain the start and due date:

Choose 2 answers

- A. Approved start date
- B. Actual start date
- C. Approved end date
- D. Actual end date

Answer: A,C

NEW QUESTION # 61
