## CIPT new questions & CIPT dumps VCE & CIPT dump collection

At the beginning of the launch of our CIPT exam torrent, they made a splash in the market. We have three versions which are the sources that bring prestige to our company. Our PDF version of Certified Information Privacy Technologist (CIPT) prepare torrent is suitable for reading and printing requests. You can review and practice with it clearly just like using a professional book. It can satisfy the fundamental demands of candidates with concise layout and illegible outline. The second one of CIPT Test Braindumps is software versions which are usable to windows system only with simulation test system for you to practice in daily life. The last one is app version of CIPT exam torrent suitable for different kinds of electronic products. And there have no limitation for downloading.

## IAPP Certified Information Privacy Technologist (CIPT) Sample Questions (Q124-Q129):

### NEW QUESTION # 124

#### SCENARIO

Please use the following to answer the next question:

Chuck, a compliance auditor for a consulting firm focusing on healthcare clients, was required to travel to the client's office to perform an onsite review of the client's operations. He rented a car from Finley Motors upon arrival at the airport as so he could commute to and from the client's office. The car rental agreement was electronically signed by Chuck and included his name, address, driver's license, make/model of the car, billing rate, and additional details describing the rental transaction. On the second night, Chuck was caught by a red light camera not stopping at an intersection on his way to dinner. Chuck returned the car back to the car rental agency at the end week without mentioning the infraction and Finley Motors emailed a copy of the final receipt to the address on file.

Local law enforcement later reviewed the red light camera footage. As Finley Motors is the registered owner of the car, a notice was sent to them indicating the infraction and fine incurred. This notice included the license plate number, occurrence date and time, a photograph of the driver, and a web portal link to a video clip of the violation for further review. Finley Motors, however, was not

responsible for the violation as they were not driving the car at the time and transferred the incident to AMP Payment Resources for further review. AMP Payment Resources identified Chuck as the driver based on the rental agreement he signed when picking up the car and then contacted Chuck directly through a written letter regarding the infraction to collect the fine. After reviewing the incident through the AMP Payment Resources' web portal, Chuck paid the fine using his personal credit card. Two weeks later, Finley Motors sent Chuck an email promotion offering 10% off a future rental. What should Finley Motors have done to incorporate the transparency principle of Privacy by Design (PbD)?

- A. Signed a data sharing agreement with AMP Payment Resources.
- B. Obtained verbal consent from Chuck and recorded it within internal systems.
- C. Documented that Finley Motors has a legitimate interest to share Chuck's information.
- **D. Provided notice of data sharing practices within the electronically signed rental agreement.**

**Answer: D**

Explanation:

By providing clear and concise notice of its data sharing practices within the rental agreement that Chuck electronically signed, Finley Motors could have ensured that Chuck was informed about how his personal information would be used and shared. This would have helped to increase transparency and build trust with Chuck.

#### **NEW QUESTION # 125**

What must be used in conjunction with disk encryption?

- A. Increased CPU speed.
- B. Export controls.
- C. A strong password.
- **D. A digital signature.**

**Answer: D**

#### **NEW QUESTION # 126**

A user who owns a resource wants to give other individuals access to the resource. What control would apply?

- **A. Role-based access controls.**
- B. Context of authority controls.
- C. Mandatory access control.
- D. Discretionary access control.

**Answer: A**

Explanation:

Explanation/Reference: <https://docs.microsoft.com/bs-latn-ba/azure/role-based-access-control/overview>

#### **NEW QUESTION # 127**

Which of the following is NOT relevant to a user exercising their data portability rights?

- A. Detection of phishing attacks against the portability interface.
- **B. Validation of users with unauthenticated identifiers (e.g. IP address, physical address).**
- C. Notice and consent for the downloading of data.
- D. Re-authentication of an account, including two-factor authentication as appropriate.

**Answer: B**

Explanation:

Notice and consent for the downloading of data (A): Users must be informed and consent to the downloading of their data.

Reference: GDPR Article 20(1).

Detection of phishing attacks against the portability interface (B): Ensuring the security of the data portability process is crucial, including detecting phishing attacks. Reference: GDPR Article 32.

Re-authentication of an account, including two-factor authentication as appropriate (C):

Re-authentication is necessary to ensure that the data is being ported securely and to the correct person.

Reference: GDPR Article 20(2).

Validation of users with unauthenticated identifiers (e.g., IP address, physical address) (D): Data portability requires authenticated identifiers, and using unauthenticated identifiers is not relevant or secure.

Reference: GDPR Article 20.

### NEW QUESTION # 128

An organization needs to be able to manipulate highly sensitive personal information without revealing the contents of the data to the users. The organization should investigate the use of?

- A. Quantum encryption
- B. Pseudonymization
- C. Homomorphic encryption
- D. Advanced Encryption Standard (AES)

**Answer: C**

Explanation:

Homomorphic encryption allows an organization to manipulate highly sensitive personal information without revealing the contents of the data to the users. This encryption method enables computations to be performed on encrypted data, producing an encrypted result that, when decrypted, matches the result of operations performed on the plain data. This technique maintains data confidentiality while allowing for meaningful analysis and processing, as detailed in the IAPP's CIPT resources on advanced encryption techniques.

### NEW QUESTION # 129

.....

If you need to purchase CIPT training materials online, you may pay much attention to the money safety. We apply the international recognition third party for payment, therefore if you choose us, your account and money safety can be guaranteed. And the third party will protect your interests. In addition, CIPT Exam Dumps cover most of knowledge points for the exam, and you can have a good command of them as well as improve your professional ability in the process of learning. In order to strengthen your confidence for CIPT exam materials, we are pass guarantee and money back guarantee,
