Sustainable-Investing Valid Cram Materials & Sustainable-Investing Practice Guide

Sustainable-Investing certification has great effect in this field and may affect your career even future. Sustainable-Investing real questions files are professional and high passing rate so that users can pass the exam at the first attempt. High quality and pass rate make us famous and growing faster and faster. Many candidates compliment that Sustainable-Investing Study Guide materials are best assistant and useful for qualification exams, they have no need to purchase other training courses or books to study, and only by practicing our Sustainable-Investing Sustainable Investing Certificate exam braindumps several times before exam, they can pass exam in short time easily.

CFA Institute Sustainable Investing Certificate (CFA-SIC) Exam Sample Questions (Q362-Q367):

NEW QUESTION # 362
Which of the following is a for-profit provider offering multiple ESG-related products and services?

- A. UNEP
- B. CDP
- C. FactSet

Answer: C

Explanation:
FactSet is a for-profit data provider that offers a wide range of ESG-related products and services, helping investors integrate ESG data into their decision-making processes. (ESGTextBook[PallasCatFin], Chapter 9, Page 518)

NEW QUESTION # 363
Growing income inequality most likely leads to:

- A. Higher purchasing power among the middle class.
- B. Less social mobility.
- C. More educational opportunities.

Answer: B

Explanation:
Growing income inequality is associated with reduced social mobility (Option A), meaning that individuals from lower-income backgrounds face greater challenges in moving up the economic ladder. This happens because:
Lower-income families often have limited access to quality education, healthcare, and job opportunities, making it harder for individuals to improve their economic status.
Wealth concentration among the elite leads to a decline in broad-based economic opportunity.
More educational opportunities (Option B) is incorrect because education tends to become more expensive and less accessible as income inequality increases.
Higher purchasing power among the middle class (Option C) is incorrect because growing inequality usually means that the middle class shrinks, and wealth is concentrated among the wealthy, reducing overall purchasing power.

NEW QUESTION # 364
Which of the following best describes a credit rating agency's ESG analysis of an issuer's efficiency ratios? The agency tests:

- A. how ESG factors affect an issuer's ability to convert assets into cash.
- B. how well the issuer's management uses assets under its control to generate sales and profit.
- C. the extent to which ESG-related costs affect an issuer's ability to generate profits.

Answer: B

Explanation:
Efficiency ratios measure how well management uses assets to generate sales and profits. In anESG-integrated credit analysis, agencies consider howenvironmental, social, and governance issuesmightimpact operational efficiency(e.g., resource use, supply

chain disruptions, labor relations), ultimately reflecting how well the issuer's managementleverages assets to drive returns. CFA materials note that such ratios are a key input inassessing operational ESG-related risksthat influence creditworthiness.

NEW QUESTION # 365
Regarding ESG issues, which of the following sets the tone for the investment value chain?

- A. Asset owners
- B. Asset managers
- C. Investment consultants

Answer: A

Explanation:
Regarding ESG issues, asset owners set the tone for the investment value chain. Asset owners, such as pension funds, endowments, and insurance companies, have significant influence over the incorporation of ESG factors in investment strategies due to their large capital allocations and long-term investment horizons.
Investment Mandates: Asset owners often set ESG-related mandates and guidelines for asset managers, influencing how ESG factors are integrated into investment decisions. Their requirements shape the strategies and practices of the entire investment value chain.
Demand for ESG Integration: By prioritizing ESG considerations, asset owners drive demand for sustainable investment products and services. This, in turn, encourages asset managers and investment consultants to develop and offer ESG-integrated solutions.
Leadership Role: Asset owners play a leadership role in promoting sustainable investing practices. Their commitment to ESG issues can lead to broader adoption and standardization of ESG integration across the investment industry.

NEW QUESTION # 366
When applying ESG screens to fixed income, financing to "brown" industries is most likely provided by:

- A. social bonds.
- B. SDG-linked bonds.
- C. transition bonds.

Answer: C

Explanation:
Transition bondsare designed to help high-emitting or "brown" industries shift toward lower-carbon or more sustainable practices. These bonds provide capital for companies that are not yet green but are working to reduce their environmental footprint.
"Transition bonds allow financing of activities by companies that may be carbon-intensive today, but are on a credible path to lower emissions. They are often used in sectors like steel or oil & gas." This distinguishes transition bonds from social bonds (focused on social outcomes) and SDG-linked bonds (which are broader and not specific to "brown" industries).
