## XSOAR-Engineer Latest Exam Review & New XSOAR-Engineer Test Blueprint

We always lay great emphasis on the quality of our XSOAR-Engineer study materials. Never have we been complained by our customers in the past ten years. The manufacture of our XSOAR-Engineer study materials is completely according with strict standard. We do not tolerate any small mistake. We have researched an intelligent system to help testing errors of the XSOAR-Engineer Study Materials. The PDF version, online engine and windows software of the XSOAR-Engineer study materials will be tested for many times.

### Palo Alto Networks XSOAR Engineer Sample Questions (Q109-Q114):

#### NEW QUESTION # 109

In which two options can an automation script be executed? (Choose two.)

- A. Integration
- B. War room
- C. Playbook
- D. Engine

**Answer: B,C**

Explanation:

Reference: <https://docs.paloaltonetworks.com/cortex/cortex-xsoar/6-0/cortex-xsoar-admin/playbooks/automations.html>

#### NEW QUESTION # 110

For troubleshooting, after a log bundle is created, where do the logs appear on the XCSOAR server?

- A. /var/log/demisto
- B. /usr/local/demisto
- C. /var/lib/demisto
- D. /tmp/log/demisto

**Answer: A**

**NEW QUESTION # 111**

When uploading content, which two options could the upload include? (Choose two.)

- A. Fields
- B. Reports
- C. Indicators
- D. Incidents

**Answer: C,D**

**NEW QUESTION # 112**

What is needed to send a survey with multiple questions to a customer?.

- A. Section Header task.
- B. Survey task.
- C. Conditional Ask.
- D. Data Collection.

**Answer: D**

Explanation:

XSOAR provides two types of user-interaction mechanisms in playbooks: Ask tasks and Data Collection tasks

. Ask tasks present a single question whose answer determines the playbook's conditional path. Conversely, Data Collection tasks are specifically designed to gather multiple questions, forming a structured form or survey.

The Admin Guide explains that Data Collection tasks allow multiple question fields such as text input, dropdowns, yes/no responses, and date fields. These tasks may be delivered via email links, the XSOAR UI, or external response pages. Once completed, responses are automatically populated into incident fields or context keys.

A Section Header (option B) only organizes information within playbooks and layouts; it does not collect user input. Conditional Ask (option C) is strictly limited to single-question logic branching. A "Survey task" (option D) does not exist as a named task type in XSOAR; surveys are implemented through Data Collection tasks.

Thus, the correct answer is A: Data Collection, as it is the documented method for sending multi-question forms to users or customers.

**NEW QUESTION # 113**

What is a primary use case of data collection tasks?

- A. To determine different paths in a playbook
- B. To allow multi question surveys without authentication restrictions
- C. To generate new widgets for a dashboard
- D. To automate tasks such as parsing a file or enriching indicators

**Answer: B**

Explanation:

Reference: <https://docs.paloaltonetworks.com/cortex/cortex-xsoar/5-5/cortex-xsoar-admin/playbooks/playbook-tasks/communication-tasks/create-a-data-collection-task.html>

**NEW QUESTION # 114**

.....

Are you planning to take the Palo Alto Networks XSOAR Engineer (XSOAR-Engineer) certification test and don't know where to download real and updated XSOAR-Engineer exam questions? Exam4Docs is offering Palo Alto Networks XSOAR-Engineer Dumps questions, especially for applicants who want to prepare quickly for the Palo Alto Networks XSOAR Engineer test. Candidates who don't study from real dumps questions fail to clear the Palo Alto Networks XSOAR Engineer examination in a short

time.
