

2026 Professional FCSS_SASE_AD-25: FCSS - FortiSASE 25 Administrator Latest Learning Material

P.S. Free 2026 Fortinet FCSS_SASE_AD-25 dumps are available on Google Drive shared by Dumpkiller:
https://drive.google.com/open?id=13bGZ9OtsQXtDinKTI-TDmOZ4ZZoFE2_a

We know that it is hard to stay and study for the FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) exam dumps in one place for a long time. Therefore, you have the option to use FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) PDF questions anywhere and anytime. Dumpkiller FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) dumps are designed according to the Fortinet FCSS_SASE_AD-25 Certification Exam standard and have hundreds of questions similar to the actual FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) exam. Dumpkiller FCSS - FortiSASE 25 Administrator (FCSS_SASE_AD-25) web-based practice exam software also works without installation.

Our considerate service is not only reflected in the purchase process, but also reflected in the considerate after-sales assistance on our FCSS_SASE_AD-25 exam questions. We will provide considerate after-sales service to every user who purchased our FCSS_SASE_AD-25 practice materials. If you have any questions after you buy our FCSS_SASE_AD-25 study guide, you can always get thoughtful support and help by email or online inquiry. If you need any support, and we are always here to help you.

Practice Fortinet FCSS_SASE_AD-25 Test, Test FCSS_SASE_AD-25 Practice

On the one thing, our company has employed a lot of leading experts in the field to compile the FCSS_SASE_AD-25 exam torrents, so you can definitely feel rest assured about the high quality of our FCSS_SASE_AD-25 question torrents. On the other thing, the pass rate among our customers who prepared the exam under the guidance of our FCSS_SASE_AD-25 Study Materials has reached as high as 98% to 100%. What's more, you will have more opportunities to get promotion as well as a pay raise in the near future after using our FCSS_SASE_AD-25 question torrents since you are sure to get the FCSS_SASE_AD-25 certification.

Fortinet FCSS_SASE_AD-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Analytics and Monitoring: This section of the exam measures the skills of Security Analysts and emphasizes the monitoring and reporting aspects of FortiSASE. Candidates are expected to configure dashboards, logging settings, and analyze reports for user traffic and security issues. Additionally, they must use FortiSASE logs to identify potential threats and provide insights into incidents or abnormal behavior. The focus is on leveraging analytics for operational visibility and strengthening the organization's security posture.
Topic 2	<ul style="list-style-type: none">SASE Architecture and Components: This section of the exam measures the skills of Network Engineers and introduces the fundamentals of SASE within enterprise environments. Candidates are expected to understand the SASE architecture, identify FortiSASE components, and build deployment cases for real-world scenarios. The content emphasizes how SASE can be integrated into a hybrid network, showcasing secure design principles and the use of FortiSASE capabilities to support business and security objectives.
Topic 3	<ul style="list-style-type: none">SASE Deployment: This section of the exam measures the knowledge of Implementation Consultants and focuses on the practical aspects of deploying FortiSASE. Candidates will explore user onboarding methods, configuration of administration settings, and the application of security posture checks with compliance rules. The exam also includes key functions such as SIA, SSA, and SPA, alongside the design of security profiles that perform effective content inspection. By combining these tasks, learners demonstrate readiness to roll out secure and scalable deployments.
Topic 4	<ul style="list-style-type: none">Advanced FortiSASE Solutions: This section of the exam measures the expertise of Solution Architects and validates the ability to work with advanced FortiSASE features. It covers deployment of SD-WAN using FortiSASE, implementation of Zero Trust Network Access (ZTNA), and the overall role of FortiSASE in optimizing enterprise connectivity. The section highlights how these advanced solutions improve flexibility, enforce zero-trust principles, and extend security controls across distributed networks and cloud systems.

Fortinet FCSS - FortiSASE 25 Administrator Sample Questions (Q37-Q42):

NEW QUESTION # 37

A customer needs to implement device posture checks for their remote endpoints while accessing the protected server. They also want the TCP traffic between the remote endpoints and the protected servers to be processed by FortiGate.

In this scenario, which three setups will achieve the above requirements? (Choose three.)

- A. Sync ZTNA tags from FortiSASE to FortiGate.
- B. Configure ZTNA servers and ZTNA policies on FortiGate.
- C. Configure FortiGate as a zero trust network access (ZTNA) access proxy.
- D. Configure private access policies on FortiSASE with ZTNA.
- E. Configure ZTNA tags on FortiGate.

Answer: B,C,E

Explanation:

To meet the requirements of implementing device posture checks for remote endpoints and ensuring that TCP traffic between the endpoints and protected servers is processed by FortiGate, the following three setups are necessary:

Configure ZTNA tags on FortiGate (Option A):

ZTNA (Zero Trust Network Access) tags are used to define access control policies based on the security posture of devices. By configuring ZTNA tags on FortiGate, administrators can enforce granular access controls, ensuring that only compliant devices can access protected resources.

Configure FortiGate as a zero trust network access (ZTNA) access proxy (Option B):

FortiGate can act as a ZTNA access proxy, which allows it to mediate and secure connections between remote endpoints and protected servers. This setup ensures that all TCP traffic passes through FortiGate, enabling inspection and enforcement of security policies.

Configure ZTNA servers and ZTNA policies on FortiGate (Option C):

To enable ZTNA functionality, administrators must define ZTNA servers (the protected resources) and create ZTNA policies on FortiGate. These policies determine how traffic is routed, inspected, and controlled based on device posture and user identity.

Here's why the other options are incorrect:

D . Configure private access policies on FortiSASE with ZTNA: While FortiSASE supports ZTNA, the requirement specifies that TCP traffic must be processed by FortiGate. Configuring private access policies on FortiSASE would route traffic through FortiSASE instead of FortiGate, which does not meet the stated requirements.

E . Sync ZTNA tags from FortiSASE to FortiGate: Synchronizing ZTNA tags is unnecessary in this scenario because the focus is on FortiGate processing the traffic. The tags can be directly configured on FortiGate without involving FortiSASE.

Fortinet FCSS FortiSASE Documentation - Zero Trust Network Access (ZTNA) Deployment FortiGate Administration Guide - ZTNA Configuration

NEW QUESTION # 38

Refer to the exhibits.

Antivirus is installed on a Windows 10 endpoint, but the windows application firewall is stopping it from running. What will the endpoint security posture check be?

- A. FortiClient will prompt the user to enable antivirus.
- B. FortiClient will trigger network lockdown on the endpoint.
- **C. FortiClient will tag the endpoint as FortiSASE-Non-Compliant.**
- D. FortiClient will be unmanaged from FortiSASE due to failed compliance.

Answer: C

Explanation:

Although the antivirus is installed, it is not running due to the Windows application firewall blocking it.

According to the FortiSASE-Non-Compliant rule, antivirus software must be both installed and running.

Since this condition fails, FortiClient assigns the FortiSASE-Non-Compliant tag to the endpoint.

NEW QUESTION # 39

Refer to the exhibits.

A FortiSASE administrator is trying to configure FortiSASE as a spoke to a FortiGate hub. The tunnel is up to the FortiGate hub. However, the administrator is not able to ping the webserver hosted behind the FortiGate hub. Based on the output, what is the reason for the ping failures?

- **A. The BGP route is not received.**
- B. Quick mode selectors are restricting the subnet.
- C. The Secure Private Access (SPA) policy needs to allow PING service.
- D. Network address translation (NAT) is not enabled on the spoke-to-hub policy.

Answer: A

NEW QUESTION # 40

Refer to the exhibit.

The daily report for application usage for internet traffic shows an unusually high number of unknown applications by category. What are two possible explanations for this? (Choose two.)

- **A. Deep inspection is not being used to scan traffic.**
- **B. The inline-CASB application control profile does not have application categories set to Monitor.**
- C. The private access policy must be set to log Security Events.
- D. Certificate inspection is not being used to scan application traffic.

Answer: A,B

NEW QUESTION # 41

Which policy type is used to control traffic between the FortiClient endpoint to FortiSASE for secure internet access?

- A. thin edge policy
- B. VPN policy
- C. secure web gateway (SWG) policy
- D. private access policy

Answer: B

NEW QUESTION # 42

.....

The world is rapidly moving forward due to the prosperous development of information. Our company is also making progress in every side. The first manifestation is downloading efficiency. A lot of exam candidates these days are facing problems like lacking of time, or lacking of accessible ways to get acquainted with high efficient FCSS_SASE_AD-25 guide question like ours. We emphasize on customers satisfaction, which benefits both exam candidates and our company equally. By developing and nurturing superior customers value, our company has been getting and growing more and more customers. To satisfy the goals of exam candidates, we created the high quality and high accuracy FCSS_SASE_AD-25 real materials for you. By experts who diligently work to improve our practice materials over ten years, all content are precise and useful and we make necessary alternations at intervals.
