## Salesforce Certified Platform Identity and Access Management Architect Sample Questions (Q209-Q214):

### NEW QUESTION # 209

Universal Containers (UC) has implemented SAML-based SSO solution for use with their multi-org Salesforce implementation, utilizing one of the the orgs as the Identity Provider. One user is reporting that they can log in to the Identity Provider org but get a generic SAML error message when accessing the other orgs. Which two considerations should the architect review to troubleshoot the issue? Choose 2 answers

- A. The Federation ID must is case sensitive
- B. The Federation ID must be in the form of an email address.
- C. The Federation ID must be a valid Salesforce Username
- D. The Federation ID must be populated on the user record.

**Answer: A,D**

#### **NEW QUESTION # 210**

Northern Trail Outfitters (NTO) recently purchased Salesforce Identity Connect to streamline user provisioning across Microsoft Active Directory (AD) and Salesforce Sales Cloud.

NTO has asked an identity architect to identify which Salesforce security configurations can map to AD permissions.

Which three Salesforce permissions are available to map to AD permissions?

Choose 3 answers

- A. Profiles and Permission Sets
- B. Public Groups
- C. Roles
- D. Sharing Rules
- E. Field-Level Security

**Answer: A,B,C**

#### **NEW QUESTION # 211**

A multinational industrial products manufacturer is planning to implement Salesforce CRM to manage their business. They have the following requirements:

1. They plan to implement Partner communities to provide access to their partner network .
2. They have operations in multiple countries and are planning to implement multiple Salesforce orgs.
3. Some of their partners do business in multiple countries and will need information from multiple Salesforce communities.
4. They would like to provide a single login for their partners.

How should an Identity Architect solution this requirement with limited custom development?

- A. Register partners in one org and access information from other orgs using APIs.
- B. Consolidate Partner related information in a single org and provide access through Salesforce community.
- C. Allow partners to choose the Salesforce org they need information from and use login flows to authenticate access.
- D. Create a partner login for the country of their operation and use SAML federation to provide access to other orgs.

**Answer: D**

#### **NEW QUESTION # 212**

Northern Trail Outfitters (NTO) is planning to build a new customer service portal and wants to use passwordless login, allowing customers to login with a one-time passcode sent to them via email or SMS.

How should the quantity of required Identity Verification Credits be estimated?

- A. Identity Verification Credits are consumed with each verification sent and should be estimated based on the number of logins
- B. Identity Verification Credits are consumed with each SMS (text message) sent and should be estimated based on the number of login verification challenges for SMS verification users.
- C. Identity Verification Credits are a direct add-on license based on the number of existing member-based or login-based Community licenses.
- D. Each community comes with 10,000 Identity Verification Credits per month and only customers with more than 10,000 logins a month should estimate additional SMS verifications needed.

**Answer: B**

#### **NEW QUESTION # 213**

Universal Containers would like its customers to register and log in to a portal built on Salesforce Experience Cloud. Customers should be able to use their Facebook or LinkedIn credentials for ease of use.

Which three steps should an identity architect take to implement social sign-on?
