

250-587 Study Guide Pdf | Test 250-587 Cram

International Journal of Environmental & Agriculture Research (IJEAR) ISSN[2454-1850] [Vol-11, Issue-7, July- 2025]

for organic fertilizers and chemicals based on carriers. It could help the soil in a variety of ways [12]. Studies on rats showed improved wound healing when treated with banana sap, attributed to its saponins and flavonoids [13].

The nutritional and biological analysis of nutrient-dense BSW is essential for understanding its potential as a functional food ingredient and therapeutic agent. BSW, a natural byproduct of banana plants, contains high levels of essential nutrients, bioactive compounds, and phytochemicals that may enhance health. Evaluating its nutritional content helps pinpoint vital elements such as vitamins, minerals, antioxidants, and enzymes that benefit metabolic processes and overall health. Moreover, biological assessments, including antimicrobial and antifungal properties, shed light on BSW's possible role in preventing diseases and natural preservation. A thorough analysis of BSW can facilitate its application in nutraceuticals, promote sustainable agriculture, and support alternative medicine, ultimately increasing the value of banana production while minimizing agricultural waste. The present study focuses on the nutritional and biological analysis of BSW.

II. MATERIALS AND METHODS

BSW was extracted from banana pseudostem (*Musa acuminata*) collected from the fields of Ainput, Jalgaon, Maharashtra, India. The antibacterial activity of BSW was evaluated using the disk diffusion assay against *Escherichia coli*, *Salmonella typhi* (Gram -ve) & *Bacillus subtilis*, and *Staphylococcus aureus* (Gram +ve) bacteria. 0.1 ml bacterial suspension was spread on a sterile nutrient agar plate. A sterile filter paper disk soaked in BSW was placed at the center of the plate. The plate was incubated for 24 hours at 37°C. On the next day, the plate was observed for the occurrence of zone of inhibition around the filter paper disk. The diameter of the zone of inhibition was measured in millimeters.

The antifungal activity of BSW was evaluated using the disk diffusion assay against *Aspergillus niger* and *Aspergillus flavus*. A sterile potato dextrose agar (PDA) plate was uniformly inoculated with a fungal spore suspension. A sterile filter paper disk was impregnated with BSW and placed at the center of the inoculated PDA plate. The plate was incubated at room temperature for 48 hours. After the incubation period, the plate was examined for the occurrence of zone of inhibition surrounding the filter paper disk. The diameter of the zone of inhibition was measured in millimeters.

III. RESULTS AND DISCUSSION

BSW sample was analyzed in the Bioscience Biotech laboratory, Central Govt. Approved AGMARK & ISO9001:2015 certified, Pune and antimicrobial activities were analyzed in department of Zoology, S.V.P Arts and Science College, Ainput, Maharashtra, India. The results of analysis per 250 ml BSW sample are shown in Table 1.

Nitrogen is essential for vegetative growth and is often diagnosed through leaf analysis, which shows varying levels throughout the plant's life cycle. It plays a crucial role in energy transfer and photosynthesis, with its content fluctuating during different growth phases [14]. While the focus on N, P, and K is essential for optimizing banana production, it is also important to consider the balance of micronutrients and the potential for deficiencies, which can significantly impact plant health and yield [15]. The pH, electrical conductivity, and organic carbon content of banana sap water are critical parameters that influence its utility as a fertilizer and its effects on plant growth. The pH of banana sap water is essential for nutrient availability. A neutral to slightly acidic pH (around 6-7) is generally favorable for nutrient uptake in plants. Maintaining optimal pH levels can enhance the effectiveness of organic fertilizers, such as those derived from banana sap, which can stimulate plant growth and improve soil health. Electrical conductivity (EC) indicates the salinity of the sap water, which affects plant growth. Higher EC values can suggest a higher concentration of dissolved salts, which may be beneficial or detrimental depending on the plant's tolerance. Monitoring EC is crucial for ensuring that the sap water does not lead to salt stress in plants, which can hinder growth and yield. Organic carbon in banana sap water contributes to soil fertility and microbial activity. It serves as a food source for beneficial soil microorganisms, promoting a healthy soil ecosystem. The presence of organic carbon can enhance the soil's water retention capacity and nutrient-holding ability, which is vital for sustainable agricultural practices [16]. Ca ranges from 120-150 mg/L, essential for cell wall structure and stability. Mg, found at 30-40 mg/L, is vital for chlorophyll production. S, Concentration is approximately 45-55 mg/L, important for amino acid synthesis. Mn, Levels of 0.6-1.0 mg/L are noted, crucial for photosynthesis. Fe, Present at 4.0-6.0 mg/L, is necessary for electron transport in plants. Zn, found at 0.3-0.5 mg/L, is important for enzyme function. Cu, Concentration is around 0.03-0.05 mg/L, involved in photosynthesis and respiration. B, typically 0.3-0.5 mg/L, is essential for cell division and growth. The nitrogen concentration in banana sap water is typically

P.S. Free 2025 Symantec 250-587 dumps are available on Google Drive shared by BraindumpsPrep:
https://drive.google.com/open?id=17gMko6r9iMJSwPxAC4YqBpL6B9_gYM-W

The BraindumpsPrep 250-587 Practice Questions are designed and verified by experienced and renowned 250-587 exam trainers. They work collectively and strive hard to ensure the top quality of 250-587 exam practice questions all the time. The 250-587 Exam Questions are real, updated, and error-free that helps you in Symantec 250-587 exam preparation and boost your confidence to crack the upcoming 250-587 exam easily.

As a matter of fact, long-time study isn't a necessity, but learning with high quality and high efficient is the key method to assist you to succeed. We provide several sets of 250-587 test torrent with complicated knowledge simplified and with the study content easy to master, thus limiting your precious time but gaining more important knowledge. Our study materials are cater every candidate no matter you are a student or office worker, a green hand or a staff member of many years' experience, 250-587 Certification Training is absolutely good choices for you. Therefore, you have no need to worry about whether you can pass the exam, because we guarantee you to succeed with our technology strength.

Test Symantec 250-587 Cram, Valid 250-587 Exam Labs

The privacy protection of users is an eternal issue in the internet age. Many illegal websites will sell users' privacy to third parties, resulting in many buyers are reluctant to believe strange websites. But you don't need to worry about it at all when buying our 250-

587 learning engine: 250-587. We assure you that we will never sell users' information because it is damaging our own reputation. In addition, when you buy our 250-587 simulating exam, our website will use professional technology to encrypt the privacy of every user to prevent hackers from stealing. We believe that business can last only if we fully consider it for our customers, so we will never do anything that will damage our reputation. Hope you can give our 250-587 exam questions full trust, we will not disappoint you.

Symantec Data Loss Prevention 16.x Administration Technical Specialist Sample Questions (Q215-Q220):

NEW QUESTION # 215

You are administering the Volume Manager in Cluster environment in the datacenter showing a type of write failure on a slave node. You are not able to view the write failure occurred to other nodes in the cluster. What will be the cluster behavior under the local disk detach policy? (Each correct answer presents part of the solution.) (Select two.)

- A. Slave node continues to perform I/O operation from and to the volume.
- **B. I/O is stopped for the node that first saw the failure.**
- **C. Application using the volume is also notified about the failure.**
- D. Cluster Management software moves the application to a live node.

Answer: B,C

NEW QUESTION # 216

What is the main difference between data loss prevention and other security technologies?

- A. It determines the data owner of inbound sensitive information.
- B. It is designed to give visibility into where the company's least sensitive data is stored.
- C. It is designed to take a content aware approach to security.
- **D. It quarantines adware before it is able to extract confidential information.**

Answer: D

NEW QUESTION # 217

You are the administrator for the Veritas Volume Manager. You notice that the size of the disk group's configuration database in its private region is nearly full. You want to ensure that you do not lose any data from the disk group and are able to preserve the volume state. What should you do?

- A. Split the disk groups
- B. Join the disk groups
- C. Try to grow the private region
- **D. Move the disk group**

Answer: D

NEW QUESTION # 218

You are working on Veritas Storage Foundation for Oracle RAC and want to create a disk group on the shared disks. You execute the command `vxctl -c mode` on a node. What will be the output of this command?

- **A. The command will display whether the node is a master or slave.**
- B. The command will create a disk group on the shared disk.
- C. The command will change the node from master to slave.
- D. The command will change the node from slave to master.

Answer: A

NEW QUESTION # 219

You have installed the Veritas Enterprise Administrator to manage Storage Foundation 5.0. You want to manage the Veritas Enterprise Administrator from remote system using the Graphical User Interface (GUI). What services must be running on the remote system? (Select two.)

- A. vxconfigd
- B. vxsvc
- C. vxservice
- D. vea
- E. vxsvctrl

Answer: A,B

NEW QUESTION # 220

.....

Symantec 250-587 Exam provided by BraindumpsPrep is of the highest quality, and it enables participants to pass the exam on their first try. For successful preparation, it is essential to have good Symantec 250-587 exam dumps and to prepare questions that may come up in the exam. BraindumpsPrep helps candidates overcome all the difficulties they may encounter in their exam preparation. To ensure the candidates' satisfaction, BraindumpsPrep has a support team that is available 24/7 to assist with a wide range of issues.

Test 250-587 Cram: <https://www.briandumpsprep.com/250-587-prep-exam-braindumps.html>

So with our 250-587 guide torrents, you are able to pass the 250-587 exam more easily in the most efficient and productive way and learn how to study with dedication and enthusiasm, which can be a valuable asset in your whole life, kiss the days of purchasing multiple Symantec braindumps repeatedly, or renewing 250-587 training courses because you ran out of time, Our 250-587 actual lab questions can help you practice & well prepare for your test so that you can pass real exam easily.

The solution comes from how you apply it, Because this article focuses on Cisco, it reviews the basic configuration of these available technologies, So with our 250-587 guide torrents, you are able to pass the 250-587 Exam more easily in the most efficient and productive way and learn how to study with dedication and enthusiasm, which can be a valuable asset in your whole life.

2026 250-587 Study Guide Pdf | High-quality Symantec Test 250-587 Cram: Symantec Data Loss Prevention 16.x Administration Technical Specialist

kiss the days of purchasing multiple Symantec braindumps repeatedly, or renewing 250-587 training courses because you ran out of time, Our 250-587 actual lab questions can help you practice & well prepare for your test so that you can pass real exam easily.

As we all know, the reality is always cruel, you may pay a lot, but it was almost in vain, 250-587 certifications help establish the knowledge credential of an IT professional and are valued by most IT companies all over the world.
