This specification helps them to remove PECB Certified EMS ISO 14001 Lead Auditor Exam (ISO-14001-Lead-Auditor) exam fear and attempt the final test confidently.

PECB Certified EMS ISO 14001 Lead Auditor Exam Sample Questions (Q38-Q43):

NEW QUESTION # 38

Which one of the following conclusions in the audit report is not required by the certification body when deciding to grant certification?

- A. The scope of certification has been fulfilled.
- B. The corrections taken by the organisation related to major nonconformities have been accepted.
- C. The plans to address corrective actions related to minor nonconformities have been accepted.
- D. The organisation fully complies with all legal and other requirements applicable to the Environmental Management System.

Answer: D

Explanation:

According to ISO/IEC 17021-1:2015 Clause 9.4.5 and 9.5.1:

Certification decisions are based on:

The audit conclusions,

Acceptance of corrective action plans for minor nonconformities (A),

Acceptance of corrections for major nonconformities (C),

Confirmation that the scope is fulfilled (B).

Full legal compliance (D) is not a requirement for certification decisions rather, it is the effectiveness of the management system to meet compliance obligations that is assessed.

Reference: ISO/IEC 17021-1:2015 Clause 9.4.5 and 9.5.1; ISO 14001:2015 Clause 9.1.2.

NEW QUESTION # 39

An oil organisation has a natural gas treatment plant on land crossed by several small rivers. On one particular day, after heavy rainfall for 48 hours, some of those rivers burst their banks and flooded the water treatment facilities of the plant. The oil-contaminated water reached some scarcely populated areas nearby.

Soon after, an internal audit was carried out to particularly analyse this event that was considered a nonconformity. There were no records of such heavy rainfall in the past 200 years.

Which three of the following actions are 'corrections'?

- A. Build up some additional protection to the water treatment plant
- B. Send the contaminated land for processing
- C. Clean up the houses of the persons affected
- D. Reinforce the riverbanks with cement
- E. Offer loans to the persons affected to build new houses far from the plant
- F. Revise the existing emergency plan
- G. Clean up the affected land
- H. Relocate the water treatment plant to lower ground

Answer: B,C,G

NEW QUESTION # 40

A multi-level shopping centre is open every day to the public from 09:00-21:00 hours. During an external audit of the centre to ISO

14001, you establish that there are 40 vending machines that are permanently switched on. Thirty of them do not sell perishable foodstuffs. You also note that there are eight escalators in the complex that run constantly during public access. When asked about environmental performance improvement objectives, the Centre Manager says that there are plans to increase the natural daylight by installing more skylights thus saving on lighting costs, but the estimated budget for this has not yet been approved by the board.

You: I note that energy consumption is a significant environmental aspect in the centre. How do you mitigate the impacts of this?

EMS Manager: We try to reduce our energy costs by negotiating a better deal from the energy company. We are considering changing to one that only supplies electricity from renewable sources.

You: What steps have you taken to reduce overall consumption?

EMS Manager: We conducted awareness training for staff. For example, turning off lights in staff areas not being used.

You: I see that the escalators account for the highest usage of energy. Are there any objectives to try and reduce this?

EMS Manager: No, it would be too costly to change them.

You: How do you measure electricity consumption?

EMS Manager: We have meters installed in each floor of the centre. We take readings every hour and we plot the consumption graph for every staff shift.

You continue the interview and find that energy consumption has increased steadily over the past five years.

Select the two statements that are true.

- A. The organisation's energy supplier sources renewable energy.
- B. The escalators are switched on permanently.
- C. The Centre Manager is trained in energy awareness.
- D. The vending machines are switched on permanently.
- E. The organisation should take action to address its energy consumption.
- F. The centre staff are responsible for energy consumption in the staff areas.

Answer: D,E

NEW QUESTION # 41

A management system meeting ISO 14001:2015 requirements is based on the Plan-Do-Check-Act (PDCA) cycle.

Which two elements of the management system are part of the 'Check' stage of the PDCA cycle?

- A. Improvement
- B. Environmental policy
- C. Nonconformities
- D. Monitoring performance
- E. Control of the processes
- F. Management review

Answer: C,D

Explanation:

As per ISO 14001:2015 Clause 10 (Improvement) and Clause 9 (Performance Evaluation):

The 'Check' phase includes activities that evaluate performance, such as:

Clause 9.1:

"The organization shall monitor, measure, analyze and evaluate its environmental performance." Clause 10.2:

"When a nonconformity occurs, the organization shall react to the nonconformity, evaluate the need for corrective action."

Management review is part of the 'Act' phase (Clause 9.3), and Environmental Policy (Clause 5.2) belongs to 'Plan'.

Reference: ISO 14001:2015 Clauses 9.1, 10.2, 9.3, 5.2.

NEW QUESTION # 42

Which one of the following options describes the main purpose of a Stage 1 audit?

- A. To get to know the organisation
- B. To determine readiness for Stage 2
- C. To compile the audit plan
- D. To check for legal compliance by the organisation

Answer: B

Explanation:

According to ISO/IEC 17021-1:2015 Clause 9.3.2.1:

The main purpose of Stage 1 is:

"To evaluate the client's management system documentation and preparedness for Stage 2 audit." This includes reviewing:

The status of implementation.

The client's understanding of requirements.

Readiness for the Stage 2 audit.

While the auditor will learn about the organization (B) and may draft plans (C), these are supporting activities. Legal compliance checks (D) occur in Stage 2.

Reference: ISO/IEC 17021-1:2015 Clause 9.3.2.1.
