## Latest Reliable NS0-094 Exam Answers for Real Exam

And you can also use the Network Appliance NS0-094 PDF on smart devices like smartphones, laptops, and tablets. The second one is the web-based Network Appliance NS0-094 practice exam which can be accessed through the browsers like Firefox, Safari, and Google Chrome. The customers don't need to download or install excessive plugins or software to get the full advantage from web-based NS0-094 Practice Tests.

## Network Appliance NetApp Hardware Support Engineer Professional Exam Sample Questions (Q17-Q22):

### NEW QUESTION # 17

On an AFF A700 system, a SAS stack is connected to SAS ports 2a and 2b. The system has an additional 4-port SAS card in slot 9. How should the cabling be corrected for best practices?

- A. Use port 2a and 2c.
- **B. Use port 2a and 9a.**
- C. Use port 2a and 9b.
- D. Use port 2b and 9d.

**Answer: B**

Explanation:

Best Practices for SAS Cabling in AFF A700 Systems:

The AFF A700 system has built-in SAS ports (e.g., 2a and 2b) as well as additional SAS ports on optional SAS cards.

To ensure high availability and redundancy, it is recommended to distribute SAS connections across multiple SAS ports from different controllers or slots.

Why Port 2a and 9a Are Recommended:

Port 2a is a built-in SAS port on the AFF A700 system. Port 9a belongs to the additional SAS card in slot 9. By connecting the stack using 2a and 9a, you utilize different SAS domains (built-in controller ports and add-on card ports), providing both path redundancy and load balancing.

### NEW QUESTION # 18

In the latest MANAGEMENT LOG AutoSupport message, you try to inspect the ENVIRONMENT section but find it empty. In which section of AutoSupport can you find the reason?

- A. AUTOSUPPORT-HISTORY.XML
- **B. AUTOSUPPORT-BUDGET.XML**
- C. HEADERS
- D. MANIFEST.XML

**Answer: B**

Explanation:

If the ENVIRONMENT section of the latest MANAGEMENT LOG AutoSupport message is empty, the reason can typically be found in the AUTOSUPPORT-BUDGET.XML file. This file contains information about AutoSupport resource allocation, including what sections were processed and any limits that were hit.

Key Details:

AUTOSUPPORT-BUDGET.XML:

This file provides a summary of the resources (budget) allocated for different AutoSupport sections. If the ENVIRONMENT section is missing or empty, the AUTOSUPPORT-BUDGET.XML file will indicate whether it was skipped due to resource constraints or configuration limits.

### NEW QUESTION # 19

You have upgraded your cluster from ONTAP 9.5 software to ONTAP 9.7 software. After the upgrade, you notice that the upgrade causes issues. You decide to revert to ONTAP 9.5 software. Which revert step is allowed?

- **A. Revert to ONTAP 9.5 software with the netboot procedure.**
- B. Revert directly from ONTAP 9.7 software to ONTAP 9.5 software.
- C. Revert from ONTAP 9.7 software to ONTAP 8.6 software and then to ONTAP 9.5 software.
- D. Revert from ONTAP 9.7 software to ONTAP 9.5 software by using the boot backup procedure.

**Answer: A**

Explanation:

Reverting to a Previous ONTAP Version:

Reverting ONTAP software requires specific procedures and is only supported if the ONTAP version being reverted to is compatible with the current cluster configuration.

Why the Netboot Procedure Is Used:

The netboot process loads the desired ONTAP version directly into memory from a network location and reinitializes the system.

This method is used when a full software revert is required and is often necessary for downgrades to a version that cannot be directly reverted to from the running ONTAP version.

Key Notes:

A direct revert is not supported from ONTAP 9.7 to ONTAP 9.5 using standard methods due to system metadata changes. Always verify compatibility using the "ONTAP Software Version Interoperability Matrix".

### NEW QUESTION # 20

A node has unexpectedly failed and is unresponsive through its node management interface.

Which two commands from the Service Processor are helpful to determine the root cause?

(Choose two.)

- **A. event log show**
- B. system log
- **C. system core**

- D. sp status -d

**Answer: A,C**

Explanation:

To determine the root cause of an unexpected node failure using the Service Processor (SP), the following commands are helpful:

1. event log show

What it does:

Displays recent events logged by the Service Processor. This includes hardware failures, environmental alerts, or other events that may have caused the node failure.

2. system core

What it does:

Shows information about any core dumps that were generated during the failure. A core dump provides a snapshot of the system state at the time of the failure, which can be analyzed to identify the root cause.

### NEW QUESTION # 21

Which three commands can be used to manually generate a kernel core file? (Choose three.)

- A. `::> reboot -node <node_name> -dump true`
- B. `SP> system core`
- C. `SP> system power cycle`
- D. `::> halt -dump true -node <node_name>`
- E. `::> system node panic -node <node_name>`

**Answer: A,D,E**

Explanation:

To manually generate a kernel core file in ONTAP, the following commands can be used:

1. `::> reboot -node <node_name> -dump true`

What it does:

Reboots the specified node and generates a core dump before rebooting.

Example Usage:

`reboot -node <node_name> -dump true`

2. `::> halt -dump true -node <node_name>`

What it does:

Halts the specified node and generates a core dump before shutting down.

Example Usage:

`halt -dump true -node <node_name>`

3. `::> system node panic -node <node_name>`

What it does:

Forces a panic on the specified node, which triggers a kernel core dump.

Example Usage:

`system node panic -node <node_name>`

### NEW QUESTION # 22

.....

NS0-094 study materials represent the major knowledge points, therefore you can just focus your attention on the practicing. NS0-094 study guide is also high quality, and it will help you to pass the exam successfully. Besides, we have both online and offline chat service stuff, if you have any question about the NS0-094 Exam Dumps, please don't hesitate to inquiry us. We have the professional knowledge, and we will give you the reply that can solve your problem.

**NS0-094 Exam Answers:** <https://www.premiumvcedump.com/NetworkAppliance/valid-NS0-094-premium-vce-exam-dumps.html>

Network Appliance Reliable NS0-094 Exam Answers Didn't Find The Exam You Were Looking For, So when you decide to pay and buy our NS0-094 exam dumps, some worries and unsafe thoughts will generate naturally, In other words, the NS0-094 test questions promises you get the certification 100% as long as you have studied the material seriously, Network Appliance Reliable NS0-094 Exam Answers If you purchase our products, you will not have this trouble.

You cannot open any major periodical without reading about NS0-094 Exam Answers successes, or more often, failures in this area, In Why Trade Options, Didn't Find The Exam You Were Looking For?

So when you decide to pay and buy our NS0-094 Exam Dumps, some worries and unsafe thoughts will generate naturally, In other words, the NS0-094 test questions promises you get the certification 100% as long as you have studied the material seriously.

## **Top Reliable NS0-094 Exam Answers | High-quality NS0-094: NetApp Hardware Support Engineer Professional Exam 100% Pass**

If you purchase our products, you will not have this trouble, A person's NS0-094 career prospects are often linked to his abilities, so an international and authoritative certificate is the best proof of one's ability.
