Although the PL-600 certificate is good, people who can successfully obtain each year are rare, and the difficulty of the PL-600 exam and the pressure of study usually make the students feel discouraged. However, for us, these will no longer be a problem. In the past few years, our team has ushered in hundreds of industry experts, experienced numerous challenges day and night, and finally formed complete learning products--PL-600 Exam Torrent, which is tailor-made for students who want to obtain the PL-600 certificate.

Microsoft Power Platform Solution Architect Sample Questions (Q140-Q145):

NEW QUESTION # 140
You are designing a Microsoft Power Platform solution for a financial services company. Data from existing financial systems will be imported into Microsoft Dataverse and displayed to users as part of the app deployment.
The company has the following issues with data:
* Phone numbers in records can contain letters in the record.
* Security has not been applied to financial total values held in each record.
* Users and managers can see all records.
You need to apply data quality standards to the solution.
What should you recommend? To answer, drag the appropriate solutions to the correct data quality items.
Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view

content NOTE: Each correct selection is worth one point.

Solutions

- Masking rules
- Field-level security
- Hierarchical security

Answer Area

Data quality item	Solution
Phone numbers must contain only numbers.	
Account financial totals are secured for only authorized users to access.	
Users must be able to view their records and managers must be able to view records for their team.	

Answer:

Explanation:

Solutions

- Masking rules
- Field-level security
- Hierarchical security

Answer Area

Data quality item	Solution
Phone numbers must contain only numbers.	Field-level security
Account financial totals are secured for only authorized users to access.	Hierarchical security
Users must be able to view their records and managers must be able to view records for their team.	Masking rules

Explanation:

Solutions

- Masking rules
- Field-level security
- Hierarchical security

Answer Area

Data quality item	Solution
Phone numbers must contain only numbers.	Field-level security
Account financial totals are secured for only authorized users to access.	Hierarchical security
Users must be able to view their records and managers must be able to view records for their team.	Masking rules

NEW QUESTION # 141

You are a Microsoft Power Platform solution architect working on a project. API calls are being sent between external applications and a Microsoft Power Platform solution.
The number of requests per user within a given time frame varies. Some users may be exceeding the service protection API limits.
You need to ensure that the API conforms to service protection limits.
Which three metrics should you review? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

- **A. The number of requests that a user can make each day.**
- **B. The combined execution time required to process requests from a user.**
- **C. The number of concurrent requests that a user can make.**
- D. The total number of requests that can be processed each day.
- E. The total execution time for requests by all users.

Answer: A,B,C

Explanation:
Explanation
Three types of service protection API limit errors that can be returned:
Number of requestsThis limit counts the total number of requests during the preceding 300 second period.
Execution timeThis limit tracks the combined execution time of incoming requests during the preceding
300 second period.
Concurrent requestsThis limit tracks the number of concurrent requests.

NEW QUESTION # 142

A company plans to create a Power Apps portal to manage support cases for customers. The company has an account hierarchy for customers. The hierarchy supports accounts, cases, and contacts where both contacts and cases belong to their relevant account.
The company has the following requirements:

Portal users must only see the notes for the cases that they manage.
Portal users must only see cases that are submitted by their colleagues.
You need to design the security model for the portal.
Which entity permission scope should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Requirement	Scope
Portal users must only see the notes for the cases that they manage.	▼ Self / Parent / Contact / Account
Portal users must only see cases that are submitted by their colleagues.	▼ Self / Global / Contact / Account

Answer:

Explanation:

Requirement	Scope
Portal users must only see the notes for the cases that they manage.	▼ Self / Parent / **Contact** / Account
Portal users must only see cases that are submitted by their colleagues.	▼ Self / Global / Contact / **Account**

https://docs.microsoft.com/en-us/powerapps/maker/portals/configure/assign-entity-permissions

NEW QUESTION # 143
You need to recommend methods to resolve the organization's issues.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Issue	Resolution method
Users cannot see Power BI reports.	▼
	Add users to Microsoft 365.
	Assign Power BI licenses to users.
	Configure an on-premises data gateway.
Historical data does not appear in reports.	▼
	Configure Azure Data Lake.
	Configure a custom connector.
	Configure an on-premises data gateway.

Answer:

Explanation:

Issue	Resolution method
Users cannot see Power BI reports.	▼
	Add users to Microsoft 365.
	Assign Power BI licenses to users.
	Configure an on-premises data gateway.
Historical data does not appear in reports.	▼
	Configure Azure Data Lake.
	Configure a custom connector.
	Configure an on-premises data gateway.

Explanation:

Issue	Resolution method
Users cannot see Power BI reports.	▼
	Add users to Microsoft 365.
	Assign Power BI licenses to users.
	Configure an on-premises data gateway.
Historical data does not appear in reports.	▼
	Configure Azure Data Lake.
	Configure a custom connector.
	Configure an on-premises data gateway.

Box 1: Add users to Microsoft 365.
Scenario: Users cannot view Power BI reports within the Power Platform apps.
Issue: The people you share with may see a locked tile in a dashboard, or a "Permission required" message when they try to view a report.

Solution: You need to grant them permission to the underlying dataset.
* Go to the All or the Datasets + dataflows tab in your content list.
* Select More options (...) next to a dataset, then select Manage permissions.
* Select Add user.
* Enter the full email addresses for individuals, distribution groups, or security groups.
* Select Grant access.
Box 2: Configure an on-premises data gateway.
Scenario: The company plans to reference historical data in the [on-premises] existing system. The records held in these systems will not be migrated to the new solution except for medication information.
The on-premises data gateway acts as a bridge to provide quick and secure data transfer between on-premises data (data that isn't in the cloud) and several Microsoft cloud services. These cloud services include Power BI, PowerApps, Power Automate, Azure Analysis Services, and Azure Logic Apps. By using a gateway, organizations can keep databases and other data sources on their on-premises networks, yet securely use that on-premises data in cloud services.
