

# CPIM-8.0 Training Kit | CPIM-8.0 Reliable Test Materials

What's more, part of that DumpsKing CPIM-8.0 dumps now are free: [https://drive.google.com/open?id=1g7AaT1v0mJbhGJDoe-XLt29O\\_ZJL9Rhm](https://drive.google.com/open?id=1g7AaT1v0mJbhGJDoe-XLt29O_ZJL9Rhm)

Do you want your IT capability to be most authoritatively recognized? One of the best method is to pass the CPIM-8.0 certification exam. The CPIM-8.0 exam software designed by our DumpsKing will help you master CPIM-8.0 Exam skills. Besides, abundant materials, user-friendly design and one-year free update after payment are the best favor for you to pass CPIM-8.0 exam.

## APICS CPIM-8.0 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Supply: This module tests the competencies of Procurement Specialists in managing supply chains effectively. It involves creating master schedules for production planning, maintaining these schedules over time, material requirements planning (MRP), capacity requirements planning (CRP), supplier management practices, and purchasing strategies during product life cycle changes. A key skill measured here is "validating master schedules."</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Inventory: The inventory module evaluates the skills of Inventory Controllers, covering inventory planning principles such as determining optimal stock levels based on costs versus benefits analysis metrics like ABC classification systems used globally today along with itemized inventory control mechanisms ensuring efficient stock turnover rates while minimizing holding costs. Distribution: This section measures the abilities of Logistics Coordinators, focusing on distribution network design principles that optimize replenishment orders efficiently while considering reverse logistics practices aimed at reducing waste through proper disposal methods according to environmental regulations.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Supply Chains and Strategy: This section of the exam measures the skills of Supply Chain Managers and covers various aspects related to supply chains, including their interaction with the environment and strategic objectives. It delves into developing organizational strategies, functional strategies, performance monitoring using KPIs, risk management, capital equipment management, and sustainability strategies. A key skill assessed here is "analyzing market trends."</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• Detailed Schedules: This section assesses the skills of Production Planners by focusing on detailed scheduling processes for production or service delivery environments. It includes methods like PAC (Programmable Automation Controller) scheduling techniques to manage detailed production timelines efficiently across different materials required for manufacturing or service delivery processes.</li> </ul>

### Full fill Your Goals by Achieve the APICS CPIM-8.0 Certification

If you have your own job and have little time to prepare for the exam, you can choose us. CPIM-8.0 exam bootcamp of us is high quality, and you just need to spend about 48 to 72 hours, you can pass the exam. In addition, CPIM-8.0 exam bootcamp contains most of knowledge points of the exam, and you can also improve your professional ability in the process of learning. We offer you free update for 365 days after you buy CPIM-8.0 Exam Dumps. The update version will be sent to your email automatically.

### APICS Certified in Planning and Inventory Management (CPIM 8.0) Sample Questions (Q171-Q176):

#### NEW QUESTION # 171

An organization wants to ensure a risk does not occur. The action taken is to eliminate the attack surface by uninstalling vulnerable software. Which risk response strategy did the organization take?

- A. Mitigating risk
- B. Accepting risk
- C. Avoiding risk
- D. Transferring risk

**Answer: C**

#### NEW QUESTION # 172

Which of the following is a PRIMARY benefit of sharing assessment results among key organizational officials across information boundaries?

- A. Facilitates development of organization-wide security metrics
- B. Allows management to assess which organizational elements have the best security practices
- C. Identifies areas that require additional training emphasis in each organizational element
- D. Provides the organization a wider view of systemic weaknesses and deficiencies in their information systems

**Answer: D**

#### NEW QUESTION # 173

In which of the following situations would you use an X-bar chart?

- A. Determine the average value of a group of units.
- B. Measure the difference between the largest and the smallest in a sample.
- C. Track the number of defects that are found in each unit.
- D. Estimate a subgroup variation.

**Answer: A**

Explanation:

An X-bar chart is a type of control chart that is used to determine the average value of a group of units. It is also known as a mean chart. It plots the sample means of subgroups of units over time and compares them with the center line and the control limits. An X-bar chart is useful for monitoring the central tendency of a process and detecting any shifts or trends in the process mean. It is often used in conjunction with an R-chart, which measures the subgroup variation. References:

#### NEW QUESTION # 174

An organization has integrated its enterprise resource planning system into its centralized Identity and Access Management (IAM) system to automate provisioning of access. A security audit revealed that privileged access granted within the ERP system is not visible in the IAM system. Which of the following controls BEST mitigates this risk?

- A. Implement step-up authentication for privileged functions within the ERP system.
- B. Implement a periodic review of all ERP access within the IAM system.
- C. Implement a periodic review of privileged access within the ERP system.
- D. Implement an automated reconciliation process between ERP and IAM systems.

Answer: D

#### NEW QUESTION # 175

Labor 3 people

Work hours 10 hours per day

Days 4 days per week

Meetings with work area employees 1/2 hour per day

Work area efficiency 85%

Given the information above, what is the weekly theoretical capacity of this work area in hours?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:

The weekly theoretical capacity of this work area in hours is calculated by multiplying the number of people, the work hours per day, the days per week, and the work area efficiency, and subtracting the time spent on meetings. The formula is:

$$\text{Capacity} = (3 \times 10 \times 4 \times 0.85) - (3 \times 0.5 \times 4)$$

$$\text{Capacity} = (102) - (6)$$

$$\text{Capacity} = 96$$

The closest answer to this value is 120, which is option D. References :=
