最新的 Salesforce Certification Slack-Con-201 免費考試真題 (Q262-Q267):

問題 #262

A company wants to ensure that the Slack apps used by its employees enhance productivity without compromising security. Which approach should they take for app approval in Slack?

- A. Implement an automatic approval process for all popular Slack apps
- B. Allow all employees to install any Slack apps they choose
- C. Prohibit the installation of all third-party apps
- D. Establish a review process where admins approve apps before they can be installed

答案：D

解題說明：

Implementing a review process for app approval ensures that each app is evaluated for both productivity and security before being allowed for use, balancing functionality with security.

問題 #263

A company is restructuring its Slack workspace and wants to ensure that channels are easily identifiable and organized. What is the

best practice they should be advised to follow regarding channel naming?

- A. Use generic names like 'Channel-1', 'Channel-2' for simplicity
- **B. Implement a standardized naming convention based on team or project names**
- C. Allow team members to name channels freely without any guidelines
- D. Use a fun and creative naming scheme for all channels to boost engagement

答案： B

解題說明：

Implementing a standardized naming convention based on team or project names helps in easily identifying the purpose of each channel, facilitating better organization and navigation in the workspace.

問題 #264

A client's organization is concerned about protecting sensitive information from being shared on Slack. What org level security setting should be prioritized to prevent unauthorized sharing of confidential data?

- **A. Implementing a data loss prevention (DLP) integration**
- B. Enabling two-factor authentication for all users
- C. Limiting workspace creation to administrators only
- D. Restricting file uploads to certain approved types

答案： A

解題說明：

Implementing a DLP integration is crucial for preventing the sharing of sensitive information, as it can automatically detect and block confidential data from being transmitted on Slack.

問題 #265

A large enterprise is planning to introduce Slack as its new communication platform. What should be a key component of their rollout communication plan to ensure successful adoption across the organization?

- A. A single, comprehensive email sent to all employees on the day of the rollout
- B. Focusing solely on the technical aspects of Slack in the communication plan, without addressing its practical applications
- **C. A phased communication strategy that includes initial awareness campaigns, detailed training sessions, and ongoing support post-launch**
- D. Limiting communication to top-level executives and relying on them to disseminate information to their teams

答案： C

解題說明：

A phased communication strategy is essential for a successful Slack rollout in a large enterprise.

It should start with awareness campaigns to build interest, followed by detailed training sessions for effective usage, and ongoing support to address post-launch queries and issues. This comprehensive approach ensures employees are well-prepared and supported throughout the transition.

問題 #266

What is a fundamental aspect of the Slack experiential learning approach when training new users in a corporate setting?

- **A. Encouraging users to explore and use Slack features through guided, practical activities and real-world scenario simulations**
- B. Relying exclusively on traditional lecture-based training sessions without hands-on practice
- C. Providing a comprehensive set of written documentation for users to study and learn about Slack independently
- D. Limiting training to only observing demonstrations by experienced Slack users without user interaction

答案： A

解題說明：

The core of the experiential learning approach in Slack training involves encouraging users to actively explore and use Slack features through guided, practical activities. This hands-on method, especially when coupled with real-world scenario simulations, ensures that users not only understand the functionalities of Slack but also learn how to apply them effectively in their daily work environment.
