- A. Limited scalability for smaller businesses
- B. Offering a combination of guidance tools and actionable analytics
- C. Ability to operate without integrating into other software
- D. Exclusive focus on customer experience workflows

Answer: B

Explanation:

The correct answer is:

A . Offering a combination of guidance tools and actionable analytics ☐ Why this matters WalkMe stands out among Digital Adoption Platforms (DAPs) by not only providing in-app guidance-such as walkthroughs, tooltips, and task lists-but also delivering actionable insights through analytics. This powerful combination empowers organizations to both guide users and continuously optimize adoption using real-world usage data.

Why the other options don't apply

* B. Limited scalability for smaller businesses

☐ This is a limitation, if anything-not a differentiator or benefit.

* C. Exclusive focus on customer experience workflows

☐ WalkMe supports a wide array of use cases, including employee onboarding, IT, finance, and more- not just customer workflows.

* D. Ability to operate without integrating into other software

☐ WalkMe overlays onto existing applications and integrates deeply-it doesn't operate in isolation.

☐ Final Answer: A. Offering a combination of guidance tools and actionable analytics.

B. By offering proactive, contextual guidance through AI-powered tools ☐ WalkMe empowers users by delivering real-time, in-app guidance tailored to individual workflows. Specifically, their contextual AI tools-like the new "Action Bar"-proactively suggest next steps, remind users of critical tasks, and offer support based on ongoing context across applications. This reduces disruptions, closes adoption gaps, and accelerates productivity recovery Why the other options don't apply:

* A. By automating recruitment processes

☐ WalkMe focuses on user productivity and adoption, not HR or recruiting workflows.

* C. By outsourcing workflow management to third-party providers

☐ WalkMe provides in-house software tools and guidance-not workflow outsourcing
