

Best API API-580 exam questions and answers

API 580 - Practice exam Questions And Correct Answers, 100% Correct | 66 Q&A 2023/2024

Which of the following statements is correct with regard to equipment items with risks deemed acceptable by RBI analysis?

- A Inspection interval should be tightened
- B Inspection effectiveness should be adjusted
- C Equipment should be removed from inspection programs
- D No further mitigation is necessary

D Which of the following statements is correct with regard to the results of quantitative analysis?

- A They normally provide an initial screening with which to rank units for attention.
- B They are usually numeric and should be comparable
- C They must be included in the documentation of any RBI evaluation
- D They are more accurate than the results of a qualitative analysis.

B In RBI, residual factors for loss of containment include all of the following except:

- A Human Error
- B Unknown mechanisms of deterioration
- C Inspection efforts
- D Secondary effects from nearby units.

C Compared to quantitative analysis, qualitative analysis using broad ranges generally requires:

- A a lower level of judgement, skill, and understanding.
- B Greater accuracy in data input to compensate for lower precision of the models
- C Higher level of judgment, skill, and understanding
- D Better training in understanding the impact of data quality

C In RBI investigation, consequence analysis is intended to provide a measure of the:

- A Mitigations necessary to reduce risk.
- B Overall risk of a potential failure
- C Maximum liability for a failure
- D Significance of a potential failure.

technology, lifelong learning has become more accessible, which means everyone has opportunities to achieve their own value and life dream. Our API-580 Exam Materials are pleased to serve you as such an exam tool. You will have a better future with our API-580 study braindumps!

How to book the API-580 Exam

These are following steps for registering the API-580 exam.

Step 1: Signup/Login to ICP Portal
Step 2: Submit an application
Step 3: After your application is approved, Select Date, time and confirm with payment method

API Risk Based Inspection Professional Sample Questions (Q66-Q71):

NEW QUESTION # 66

In RBI analysis, dividing process units into groups of equipment that have common characteristics is:

- A. useful only for common types of equipment.
- B. not permitted unless equipment is in identical service.
- C. useful as a means of screening together and saving time.
- D. to be avoided because every equipment item is unique.

Answer: C

Explanation:

API 580, Section 6.3.5 states:

"It is often advantageous to group equipment within a process unit into systems, loops, or circuits where common environmental operating conditions exist... By dividing a process unit into systems, the equipment can be screened together, saving time compared to treating each piece of equipment separately." Grouping allows for more efficient screening and risk prioritization without needing to analyze each item in isolation, provided the conditions are similar.
