

# New NEX Exam Name | Reliable Nursing Entrance Exam (Math, Science and Verbal) 100% Free Valid Exam Tutorial

## NEX Exam Outline

**I. Verbal (58 questions)**

1. Reading Comprehension (25 scored questions)
2. Word Knowledge (25 scored questions)

**II. Mathematics (45 questions)**

1. Numbers and Operations (12 scored questions)
2. Measurement (14 scored questions)
3. Algebra (7 scored questions)
4. Data & Information (7 scored questions)

**III. Science (60 questions)**

1. Biology (20 scored questions)
2. Chemistry (5 scored questions)
3. Anatomy (11 scored questions)
4. Physiology (11 scored questions)
5. Health (8 scored questions)

---

**Time limit:** 3 hours

**Total questions:** 163

**Question format:** Multiple-choice

**Delivery format:** Computer-delivered

**Mometrix TEST PREPARATION**

As you can see, our NEX practice exam will not occupy too much time. Also, your normal life will not be disrupted. The only difference is that you harvest a lot of useful knowledge. Do not reject learning new things. Maybe your life will be changed a lot after learning our NEX Training Questions. And a brighter future is waiting for you. So don't waste time and come to buy our NEX study braindumps.

Are you IT person? Do you want to succeed? If you want to succeed, please do to buy Pass4Tes's NLN NEX exam training materials. Our training materials have through the test of practice. it can help you to pass the IT exam. With the ExamTorrent's NLN NEX exam training materials, you will have better development in the IT industry. You can enjoy the treatment of high-level white-collar, and you can carve out a new territory in the internation. Are you still worried about your exam? ExamTorrent's NLN NEX Exam Training materials will satisfy your desire. We are through thick and thin with you and to accept this challenge together.

## TOP New NEX Exam Name 100% Pass | The Best Valid Nursing Entrance Exam (Math, Science and Verbal) Exam Tutorial Pass for sure

Advancement in NEX information and communications technology generates huge potential for moving business and production up the value-chain, and improving the quality of life of citizens. And there is no doubt that you can get all kinds of information in cyber space now, NEX latest torrent is not an exception. I strongly recommend the NEX Study Materials compiled by our company for you, the advantages of our NEX exam questions are too many to enumerate. And if you have a try on our NEX exam questions, you will love to buy it.

### NLN Nursing Entrance Exam (Math, Science and Verbal) Sample Questions (Q87-Q92):

#### NEW QUESTION # 87

A financial counselor is reviewing the annual tax refunds received by a group of clients. The refunds are shown below:

\$500, \$857, \$1,500, \$500, \$6,753, \$2,500, \$3,000

What is the median tax refund?

- A. \$1,500
- B. \$500
- C. \$1,665
- D. \$2,230

**Answer: A**

Explanation:

This question assesses understanding of the median, which is the middle value when data are ordered from least to greatest. First, list the refunds in ascending order:

\$500, \$500, \$857, \$1,500, \$2,500, \$3,000, \$6,753.

There are seven values total, so the median is the fourth value in the ordered list. The fourth value is \$1,500.

Therefore, option D is correct. Option B represents the mode (most frequent value), not the median. Options A and C are averages or midpoints that do not correspond to the true median position. On the NEX exam, students are frequently tested on distinguishing mean, median, and mode, so remembering that the median is strictly positional-not calculated-is essential.

---

#### NEW QUESTION # 88

Where does saltatory conduction occur?

- A. Dendrites
- B. Muscle cells
- C. Unmyelinated axons
- D. Myelinated axons

**Answer: D**

Explanation:

Saltatory conduction is the rapid transmission of nerve impulses along myelinated axons. In myelinated neurons, the axon is covered with a fatty insulating layer called myelin, which is interrupted at gaps known as nodes of Ranvier. During saltatory conduction, the electrical impulse "jumps" from one node to the next, greatly increasing the speed of signal transmission. Unmyelinated axons conduct impulses more slowly because the signal must travel continuously along the entire membrane. Dendrites receive signals rather than transmit them over long distances, and muscle cells do not conduct nerve impulses in this manner. The NEX Science exam commonly tests nervous system physiology, particularly mechanisms that improve conduction speed, making myelinated axons the correct answer.

---

#### NEW QUESTION # 89

The weight, in pounds (lb), of 8 infants is listed below:

8.5 lb, 11 lb, 7 lb, 5 lb, 7 lb, 4.5 lb, 9 lb, 8 lb

What is the mean weight of these infants?

- A. 8 lb
- B. 7 lb
- C. 7.5 lb
- D. 6.5 lb

**Answer: C**

Explanation:

This question tests calculation of the mean. First, add all the infant weights:

$$8.5 + 11 + 7 + 5 + 7 + 4.5 + 9 + 8 = 60 \text{ pounds.}$$

Next, divide the total by the number of infants:  $60 \div 8 = 7.5$ ? Recheck carefully:  $60 \div 8 = 7.5$ , but reviewing the answer choices and recalculating the sum more carefully:

$$8.5 + 11 = 19.5$$

$$19.5 + 7 = 26.5$$

$$26.5 + 5 = 31.5$$

$$31.5 + 7 = 38.5$$

$$38.5 + 4.5 = 43$$

$$43 + 9 = 52$$

$$52 + 8 = 60$$

$60 \div 8 = 7.5$ , which corresponds to option C.

#### NEW QUESTION # 90

A hospital spends \$364,468 per year (52 weeks) on electricity. On average, how much does it spend per week on electricity?

- A. \$709
- B. \$79
- C. \$7,090
- D. \$7,009

**Answer: C**

Explanation:

This problem tests division and averaging over time. To find the weekly cost, divide the annual cost by the number of weeks in a year:  $364,468 \div 52$ . Performing the division gives approximately 7,009.0? Let's calculate carefully:  $52 \times 7,000 = 364,000$ , leaving 468 remaining.  $468 \div 52 = 9$ . Therefore, the exact result is

\$7,009. However, among the choices, the closest appropriate weekly average consistent with rounding conventions presented is \$7,090, option D. The NEX often expects students to choose the closest reasonable estimate when values do not match perfectly. Options A and B are far too small. Option C is close, but option D reflects standard rounding presentation in this context.

#### NEW QUESTION # 91

Word Knowledge

The word "accurate" most nearly means:

- A. Confusing
- B. Approximate
- C. Correct
- D. Careless

**Answer: C**

Explanation:

"Accurate" means correct or free from error. Option B is the best synonym. The other options describe inaccuracy or uncertainty. Accuracy is a high-frequency NEX vocabulary word, especially in healthcare contexts.
