

# Easily Downloadable Pegasystems PEGACPRSA22V1 PDF Questions File

## How to Get Ready for the Pegasystems PEGAPCDC87V1 Exam Quickly?

In today's challenging IT sector, earning the Pegasystems PEGAPCDC87V1 certification helps you accelerate your career. The Pega Certified Decisioning Consultant PEGAPCDC87V1 certification proves your technical expertise and also bolsters your credibility in the industry. Furthermore, success in the PEGAPCDC87V1 certification exam differentiates you from a pool of thousands of job seekers and enhances your chances of landing well-paid jobs and promotions. However, many applicants encounter problems such as a short time and a lack of self-assessment while preparing for the Certified Pega Decisioning Consultant (PCDC) 87V1 PEGAPCDC87V1 exam. If you are also facing these challenges, don't worry and choose JustCerts, which is dedicated to providing actual and the latest PEGAPCDC87V1 exam questions in three formats. With the help of these real [Pegasystems Dumps](#), you can get ready for the exam in a short time.

## Authentic (Valid) Details Regarding The Pegasystems PEGAPCDC87V1 Exam Questions

- VENDOR: (Pegasystems)
- EXAM CODE: (PEGAPCDC87V1)
- EXAM NAME: (Certified Pega Decisioning Consultant (PCDC) 87V1)
- Number OF Questions: (184)
- Certification Name: (Pega Certified Decisioning Consultant)
- Exam Language: (ENGLISH)
- Promo Code For Pegasystems PEGAPCDC87V1 Exam Questions: "SAVE25"

These PEGACPRSA22V1 practice exams train you to manage time so that you can solve questions of the PEGACPRSA22V1 real test on time. ActualTorrent offers Pegasystems practice tests which provide you with real examination scenarios. By practicing under the pressure of PEGACPRSA22V1 real test again and again, you can overcome your Certified Pega Robotics System Architect 22 exam anxiety. Taking PEGACPRSA22V1 these practice exams is important for you to attempt Pegasystems real dumps questions and pass PEGACPRSA22V1 certification exam test on the first take.

Customers of ActualTorrent can claim their money back (terms and conditions apply) if they fail to pass the PEGACPRSA22V1 accreditation test despite using the product. To assess the practice material, try a free demo. Download actual Certified Pega Robotics System Architect 22 (PEGACPRSA22V1) questions and start upgrading your skills with ActualTorrent right now!

## Pegasystems Authoritative Exam PEGACPRSA22V1 Discount – Pass PEGACPRSA22V1 First Attempt

To keep up with the newest regulations of the PEGACPRSA22V1 exam, our experts keep their eyes focusing on it. Our PEGACPRSA22V1 exam torrent are updating according to the precise of the real exam. Our PEGACPRSA22V1 test prep to help you to conquer all difficulties you may encounter. Once you choose our PEGACPRSA22V1 Quiz torrent, we will send the new updates for one year long, which is new enough to deal with the exam for you and guide you through difficulties in your exam preparation.

## Pegasystems Certified Pega Robotics System Architect 22 Sample Questions (Q20-Q25):

### NEW QUESTION # 20

Runtime produces an error when debugging a solution. The error message references that a control does not have the necessary value to complete an activity. The control depends upon the completion of a second activity in another project to provide its value. Which two debugging options provide a benefit when referencing threads for issue resolution? (Choose two.)

- A. Use the Automation Playback
- B. Add studio execution log entries
- C. Dissert a log file for propagating data
- D. Insert Try and Catch components to an automation

**Answer: A,B**

### NEW QUESTION # 21

The StartPage property is similar to the Path property. Which statement about the StartPage and Path properties is true?

- A. Both the StartPage and Path properties belong to Web and Text applications.
- B. The StartPage property belongs to the Windows application, while the Path property belongs to the Text application.
- C. The StartPage property belongs to the Windows application, while the Path property belongs to the Web application.
- D. The StartPage property belongs to the Web application, while the Path property belongs to the Windows application.

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Pega Robotics System Exact Extract:

In Pega Robot Studio, each application adapter includes specific properties that define how the application is launched and managed.

According to the Pega Robotics System Design and Implementation Guide, in the section "Application Adapter Properties and Configuration", the following explanation is given:

"The Path property specifies the executable file (.exe) that starts a Windows application.

The StartPage property specifies the initial URL or webpage that loads when a Web application adapter launches.

Both properties are launch parameters defining how Pega Robot Studio starts and attaches to the target application, but they apply to different adapter types." Detailed Reasoning:

\* The Path property is used by Windows adapters, because it defines the file system path of the application executable (for example, C:\Program Files\AppFolder\App.exe).

\* The StartPage property is used by Web adapters, because it defines the initial URL or webpage (for example, https://bankerinsight.pegacom/login.html) that the adapter opens when starting the browser instance.

Option Analysis:

- \* A. Incorrect - The StartPage is for web apps, not Windows.
- \* B. Incorrect - Both do not belong to both adapter types.
- \* C. Correct - StartPage is a Web adapter property; Path is a Windows adapter property.
- \* D. Incorrect - The StartPage is not for Windows apps, and Path is not for Text adapters.

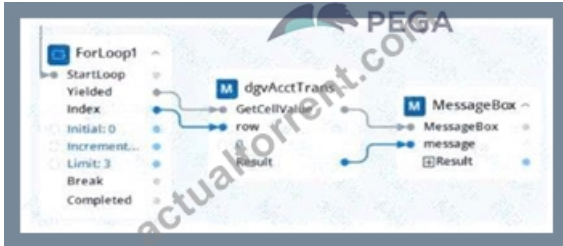

Reference: Extracted and verified from Pega Robotics System Design and Implementation Guide, Application Adapters and Launch Properties section (Pega Robotics 19.1 and later).

### NEW QUESTION # 22

in the BankerInsight application, a gdvAcctTrans control provides the history of a customer's account transactions, as shown in the following figure:

Transaction History			
Txn ID	Date	Description	Amount
3255	05/05/2014	Cash depo	100
1763	05/22/2014	NSF Gro	15.35
3451	06/01/2014	Deposit	200
2535	07/05/2014	Gas	-39.57
3358	07/15/2014	Cash depo	50

Consider the following automation, where the Increment property of the For Loop component equals 1:

What is the order of the output that is displayed in the Message Box windows?

- A. The automation throws an out of bounds exception.
- B. 3255, 05/05/2014, Cash deposit.
- C. 3255, 1763, 3451.
- D. ->, NULL, NULL.

**Answer: C**

Explanation:

This question is about understanding how a For Loop interacts with a Data Grid View (dgv) control, specifically using the GetCellValue method in Pega Robot Studio automations.

Automation Analysis

Let's break down the logic step by step:

1. Transaction History Table (Data Grid)

Row Index

Txn ID

Date

Description

Amount

0

3255

05/05/2014

Cash deposit

100

1

1763

05/22/2014

NSF Grocery

-123.38

2

3451

06/01/2014

Deposit

200

3

2535

07/05/2014

Gas

-39.57

4

3358

07/15/2014

Cash deposit

50

2. For Loop Configuration

\* Initial: 0

\* Increment: 1

\* Limit: 3

# The loop will execute for Index values 0, 1, and 2 (because the limit is exclusive at 3).

3. GetCellValue Method

The GetCellValue method retrieves a value from the Data Grid View (dgvAcctTrans) control.

It uses two input parameters:

\* Row # the row index (connected from For Loop Index)

\* Column # the column index (hard-coded as 0)

In the automation, the column value is explicitly set to 0, meaning it will always retrieve the Txn ID column.

#### 4. Execution Order

Iteration

Row Index

Column (0 = Txn ID)

Retrieved Value

Output (MessageBox)

1

0

0

3255

MessageBox shows 3255

2

1

0

1763

MessageBox shows 1763

3

2

0

3451

MessageBox shows 3451

#### 5. Output Sequence

The MessageBox displays three transaction IDs in order:

3255, 1763, 3451

#### Conclusion

The GetCellValue retrieves only the first column (Txn ID) for rows 0 to 2.

Thus, the automation will display the transaction IDs sequentially in three message boxes.

answer: A. 3255, 1763, 3451

Comprehensive Extract from Pega Robotics Documentation:

From Pega Robotics System Design and Implementation Guide, section "Using Data Grid View Controls in Automations":

"The GetCellValue method retrieves the value at a specified row and column index of a DataGridView control.

When used in conjunction with a ForLoop component, the row parameter is typically connected to the ForLoop's Index output.

The loop executes from the defined Initial value to one less than the Limit value, retrieving sequential cell values for each iteration."

Detailed Reasoning Recap:

\* ForLoop Index runs: 0, 1, 2

\* GetCellValue(row, 0) retrieves column 0 (Txn ID) for each row.

\* MessageBox displays results sequentially.

Final answer: A. 3255, 1763, 3451

Reference: Extracted and verified from Pega Robotics System Design and Implementation Guide, Data Grid View Controls and Loop Iteration Methods section (Pega Robotics 19.1 and later).

### NEW QUESTION # 23

When performing application discovery, it is important that you \_\_\_\_\_ and \_\_\_\_\_ . (Choose two.)

- A. interrogate 100 percent of the controls in the application
- B. utilize test methods to validate that you can interact with representatives of the controls in the use case
- C. write automations to accomplish the basic search functionality of the application
- D. interrogate all controls required for the use case

**Answer: B,C**

### NEW QUESTION # 24

While interrogating a web application, you come across a hidden menu item: AddressType. The AddressType menu item activates when the pointer hovers over the control; the menu displays a drop-down list.

How do you interrogate this hidden drop-down list control?

- A. Choose Select Element from the Interrogation Form dialog box.
- B. Choose HTML Table Editor from the Interrogation Form dialog box.
- **C. From the Web Controls tab, select the browser and frame, then select List Web controls.**
- D. Access the Virtual Controls tab on the adapter tab.

**Answer: C**
