

AD0-E725 Updated Testkings - AD0-E725 Exam Dump

The Adobe Commerce Developer Expert (AD0-E725) web-based practice test works on all major browsers such as Safari, Chrome, MS Edge, Opera, IE, and Firefox. Users do not have to install any excessive software because this AD0-E725 practice test is web-based. It can be accessed through any operating system like Windows, Linux, iOS, Android, or Mac. Another format of the practice test is the desktop software. It works offline only on Windows. Our Adobe Commerce Developer Expert (AD0-E725) desktop-based practice exam software comes with all specifications of the web-based version.

Adobe AD0-E725 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none">Section 1: Architecture: This section of the exam measures the skills of Backend Developers and covers the core structural concepts of Adobe Commerce. It involves demonstrating effective cache implementation, understanding key code components like plugins and observers, and managing multi-site configurations on a single instance. The domain also includes explaining the use of Git patches, critical security features, the CRON scheduling system, and how indexing functions within the platform. |
| Topic 2 | <ul style="list-style-type: none">Cloud: This section of the exam measures the skills of Cloud Architects and covers the deployment and management of Adobe Commerce on cloud infrastructure. It requires explaining the fundamental cloud architecture, performing setup and configuration tasks, and utilizing the Adobe Commerce Cloud CLI tool to manage the environment effectively. |
| Topic 3 | <ul style="list-style-type: none">External Integrations: This section of the exam measures the skills of Integration Specialists and focuses on connecting Adobe Commerce with external SaaS services. It encompasses the skills needed to customize data flows, utilize Adobe App Builder for extensibility, and implement Adobe I/O events and webhooks to create automated and connected business processes. |
| Topic 4 | <ul style="list-style-type: none">Customizations: This section of the exam measures the skills of Solutions Engineers and involves modifying and extending platform functionality. This includes customizing core areas like the product catalog, checkout process, and admin panel, as well as manipulating data entities, customizing APIs, working with message queues, and writing integration tests to ensure code quality and functionality. |

Quiz Adobe - AD0-E725 –High Hit-Rate Updated Testkings

Adobe AD0-E725 certification exam is among those popular IT certifications. It is also the dream of ambitious IT professionals. This part of the candidates need to be fully prepared to allow them to get the highest score in the AD0-E725 Exam, make their own configuration files compatible with market demand.

Adobe Commerce Developer Expert Sample Questions (Q31-Q36):

NEW QUESTION # 31

A Developer is working on a new controller in the admin panel. Per requirements, it must be accessible only for specific admin users. According to best practices, how should the Developer secure access to the new controller?

- A. Override ADMIN_RESOURCE constant with a value for a custom ACL (Access Control List) resource.
- B. Implement isAllowed method from AuthorizationInterface and check the result for a custom ACL resource.
- C. Override _isAllowed method and check the authorization result for a custom ACL resource.

Answer: A

Explanation:

The best practice is to use the ADMIN_RESOURCE constant in the controller. This constant defines the ACL resource that controls access to the controller. Magento automatically checks the ACL resource against the current admin user's permissions. A is unnecessary because ACL checking is built-in and tied to ADMIN_RESOURCE.

C is a legacy method (_isAllowed) used in Magento 1; in Magento 2, the constant override is the proper way.

NEW QUESTION # 32

A Developer is integrating a custom third-party gift card system into the Adobe Commerce checkout. During checkout, a customer enters a store-bought gift card for payment, and depending on external API checks, the gift card is verified and allowed to be used on the order.

Which approach should be used for the internal processing of such functionality?

- A. Create an Adobe Commerce gift card account and manage the account using the gift card repositories.
- B. Create a unique voucher code for each gift card usage request which grants a discount on the order's total.
- C. Directly subtract the gift card amount from the order, keeping no history of the discount transaction.

Answer: B

Explanation:

The correct way to integrate external gift cards is to generate a unique discount (voucher code) that maps to the validated gift card value. This approach ensures that the transaction is recorded in Magento's discount system, preserving order and accounting integrity.

A is incorrect because Adobe Commerce gift card accounts are native to the Commerce Gift Card module and not applicable to external systems.

C is incorrect as directly subtracting amounts without transaction history violates best practices and auditability.

B is correct: mapping external validation into a voucher/discount ensures proper tracking.

NEW QUESTION # 33

A Developer using API Mesh is assigned to optimize the integration of several third-party APIs with Adobe Commerce. Part of this task is to address performance issues such as the n+1 problem.

In this scenario, which option should the Developer implement?

- A. Use API Mesh to replace the existing APIs with direct GraphQL queries.

- B. Use API Mesh batching to combine multiple API requests into a single query.
- C. Use API Mesh as a middleware for aggregating data from APIs back into Adobe Commerce.

Answer: B

NEW QUESTION # 34

An Adobe Commerce Cloud Developer is tasked with investigating slow page loads and intermittent errors reported by a client after a recent deployment to their Pro Production environment.

Which action should the Developer use to quickly access and analyze the necessary data?

- A. Go to New Relic Log Management to access aggregated log data, allowing the analysis of application, infrastructure, CDN, and WAF errors.
- B. Connect via SSH into each production node to review system and application logs independently for a more accurate representation of issues being logged.
- C. Access Cloud Console to review environment messages and deployment logs that took place during the previous deployment to production.

Answer: A

Explanation:

In Adobe Commerce Cloud Pro Production, logs are spread across multiple nodes, so manually checking each node (A) is inefficient. The correct approach is to use New Relic Log Management, which aggregates logs from all services and nodes. This allows developers to quickly analyze application logs, infrastructure logs, CDN, and WAF errors in one place.

A is inefficient and not recommended.

C only shows deployment logs, not ongoing runtime errors.

B is correct: New Relic Log Management is the single source of truth for performance and error analysis.

Reference:

Adobe Commerce Cloud DevDocs - Log management with New Relic

NEW QUESTION # 35

An Adobe Commerce Developer is tasked with adding a custom tax calculation to the checkout process. In addition to core tax calculations, a legacy code extending core tax calculation classes is also found. The Developer wants to utilize Magento's dependency injection system effectively to meet requirements, ensuring the solution works without modifying the existing core and legacy classes.

What should the Developer implement to achieve this?

- A. Constructor arguments
- B. Virtual types
- C. Preferences

Answer: B

NEW QUESTION # 36

.....

We promise you will pass the AD0-E725 exam and obtain the AD0-E725 certificate successfully with our help of AD0-E725 exam questions. According to recent survey of our previous customers, 99% of them can achieve their goals, so believe that we can be the helping hand to help you achieve your ultimate goal. Besides we have high-quality AD0-E725 Test Guide for managing the development of new knowledge, thus ensuring you will grasp every study points in a well-rounded way.
