Real MSSC CLT Dumps PDF - Achieve Success In Exam

The Exam4Docs is a leading platform that is committed to making the CLT exam dumps preparation simple, quick, and successful. To achieve this objective Exam4Docs is offering real, valid, and updated MSSC CLT practice questions in three different formats. These formats are Exam4Docs MSSC CLT PDF Dumps Files, desktop practice test software, and web-based practice test software. All these Exam4Docs Certified Logistics Technician (CLT) 4.0 exam questions formats are easy to use and compatible with all web browsers, operating systems, and devices.

MSSC Certified Logistics Technician (CLT) 4.0 Sample Questions (Q114-

Q119):

NEW QUESTION # 114

Which of the following is the common name for wood containers used to provide a structure that enables material handlers to grasp and move items while providing a degree of protection at the same time?

- A. pallets
- B. crates
- C. wire mesh containers
- D. drums

Answer: A

Explanation:

The pallet is the most widely used base platform in logistics, described in the CLT "Product Storage" module as a load-handling unit that provides both structure and protection for materials during handling, storage, and transport. Typically made of wood (though plastic and metal versions exist), pallets allow forklifts and pallet jacks to easily lift and move unitized loads. Their standardized dimensions (such as the 48x40-inch GMA pallet) ensure compatibility with racking systems and automated equipment. Unlike crates, pallets are open-structured, facilitating efficient storage and airflow. The CLT curriculum emphasizes the use of pallets to improve safety, reduce handling time, and protect goods from damage through secure strapping or stretch-wrapping. Proper palletization reduces manual lifting, streamlines workflow, and maintains load stability-critical for warehouse efficiency and safety compliance.

NEW QUESTION # 115

Which of the following containers is typically used to transport and store liquids and powdered or granulated goods in bulk?

- A. drums and barrels
- B. corrugated paper containers
- C. military crates
- D. wire mesh containers

Answer: A

Explanation:

The Packaging and Shipment competency in CLT highlights that certain materials-particularly liquids, chemicals, and powdered or granulated bulk goods-require sealed containment to prevent leakage, contamination, or evaporation. Drums and barrels (metal, plastic, or fiber) meet these requirements because they provide durable, sealed storage and easy handling via pallet jacks or drum clamps. Corrugated containers lack liquid containment strength, and wire mesh containers are ventilated for solid goods. Using proper packaging ensures regulatory compliance for hazardous or sensitive materials and preserves product quality during transport and storage.

NEW QUESTION # 116

The common tool to perform a cycle count using the UPC label or similar labels is

- A. handheld bar code scanner
- B. material handling equipment-mounted data terminal
- C. physical inventory tags
- D. wedge counter

Answer: A

Explanation:

The handheld bar code scanner is the standard device used in cycle counting and verification processes. CLT "Inventory Control" identifies cycle counting as a periodic counting method used to maintain continuous inventory accuracy. Bar code scanners allow operators to quickly identify and record item numbers, quantities, and locations by scanning Universal Product Code (UPC) or SKU labels. Data is transmitted to the WMS for reconciliation against system records. This method reduces human error, minimizes disruption, and provides real-time updates compared to traditional physical inventory counts. CLT highlights the efficiency, precision, and auditability of barcode-assisted counts as a best practice for modern warehouse operations.

NEW QUESTION # 117

What information would be unnecessary in a packing slip sent with the customer's shipment?

- A. the contents of the shipment
- B. the origination of the shipment
- C. internal stock adjustments
- D. any items placed on backorder

Answer: C

Explanation:

A packing slip accompanies outbound shipments and provides a detailed list of what is included in the shipment, its origin, and any backordered items. According to the CLT "Packaging and Shipment" standards, its purpose is to confirm what was shipped and assist the customer in verifying receipt. Internal stock adjustments, however, are warehouse control data related to inventory accounting and are not relevant or appropriate for inclusion on external documents. Including such internal data could cause confusion or reveal proprietary operational details. The CLT emphasizes clear, customer-facing communication—packing slips should reflect only what directly relates to the customer's order fulfillment, ensuring transparency and professionalism in documentation.

NEW QUESTION # 118

Which of the following is NOT a purpose of the Bill of Lading?

- A. serves as a presumption of title to goods
- B. serves as a pick ticket
- C. serves as a receipt from the carrier to the shipper for the goods received for transportation
- D. serves as a contract of carriage

Answer: B

Explanation:

According to the CLT documentation, the Bill of Lading (BOL) performs three core functions: it is a contract of carriage, a receipt for goods, and a document of title. It legally binds the carrier to deliver the goods under specified terms. However, a pick ticket is an internal warehouse document that directs employees on what to pick from inventory—it does not serve any legal transportation purpose. Therefore, using a Bill of Lading as a pick ticket is incorrect. Recognizing document functions prevents confusion between internal warehouse paperwork and external transportation documentation responsibilities.

NEW QUESTION # 119

.....

Our CLT study tools not only provide all candidates with high pass rate study materials, but also provide them with good service. If you have some question or doubt about us or our products, you can contact us to solve it. The thoughtfulness of our CLT study guide services is insuperable. What we do surly contribute to the success of CLT practice materials. We all know that it is of great important to pass the CLT Exam and get the certification for someone who wants to find a good job in internet area. I will recommend our study materials to you. It can be said that our CLT test prep greatly facilitates users, so that users cannot leave their homes to know the latest information.
