## Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q151-Q156):

### NEW QUESTION # 151

Which of the following Story components captures details on testing for completion?

- A. User voice

- B. Story map
- C. Release plan
- D. **Acceptance criteria**

**Answer: D**

Explanation:

Acceptance criteria are the conditions that a story must satisfy to be accepted by the Product Owner and the stakeholders. They define the boundaries of the story and provide guidance on how to test it for completion.

Acceptance criteria are usually written as a list of statements or scenarios that describe the expected behavior and outcomes of the story. They help to ensure that the story delivers value to the user and meets the Definition of Done<sup>1234</sup>. #### NEW QUESTION # 152

When is the System Demo conducted during program execution?

- A. Each week
- B. Only when all the stakeholders are available
- C. When the System Team is ready
- D. **At the end of every Iteration**

**Answer: D**

Explanation:

System Demo is a critical event that provides stakeholders an integrated view of the new features delivered by the Agile Release Train (ART) over the past iteration. It offers the ART a fact-based measure of current, system-level progress within the Program Increment (PI). It also enables fast feedback and learning cycles, which help the ART build the right solution and improve quality. The System Demo takes place as close to the end of the iteration as possible, ideally the next day. It requires implementing the scalable engineering practices necessary to support Continuous Integration across the ART<sup>12</sup>. #### NEW QUESTION # 153

What are two reasons Agile development is more beneficial than waterfall development? (Choose two.)

- A. It relies on external provider dependencies
- B. **It increases productivity and employee engagement**
- C. It requires phase-gate approvals to ensure that everyone is moving together
- D. It allows management to track project progress based on steering committees and metrics
- E. **It allows businesses to deliver value to the market more quickly**

**Answer: B,E**

Explanation:

Agile development is more beneficial than waterfall development because it increases productivity and employee engagement by empowering teams to self-organize, collaborate, and deliver value in small increments. It also allows businesses to deliver value to the market more quickly by reducing the feedback cycle, adapting to changing requirements, and releasing high-quality products frequently. #### NEW QUESTION # 154

What is one element teams present during the draft plan review?

- A. Milestones
- B. Planned business value
- C. ART PI risks
- D. **Iteration goals**

## Answer: D

Explanation:

During the draft plan review, teams present their preliminary plans for the upcoming PI, including their iteration goals, capacity and load, and risks and impediments<sup>1</sup>. Iteration goals are a set of SMART objectives that provide a clear vision and alignment for each iteration<sup>2</sup>. They also help teams communicate their progress and dependencies to other teams and stakeholders during the PI planning event<sup>3</sup>. References: PI Planning, Iteration Goals, Presenting PI Planning Draft and Final Plan Reviews

## NEW QUESTION # 155

Which team event demonstrates the completed functionality?

- A. Iteration Retrospective
- B. Inspect & Adapt
- C. Backlog Refinement Session
- D. Iteration Review

## Answer: D

## NEW QUESTION # 156

.....
