What should the administrator configure to allow the team to use thesplit list view?

- A. Include the Shipments tab on the app's navigation bar.
- B. Filter by a single shipment record type in the list view.
- C. Add the Manage List Views permission for support users.
- D. Split views are only available on standard objects.

Answer: D

Explanation:
Split views are a feature that allows users to view records as a split list on object home pages in Lightning Experience apps that use console navigation. Split views show records in two panes: a list view pane on the left and a record detail pane on the right. Users can switch between different list views and records without losing context or scrolling. However, split views are onlyavailable on standard objects such as accounts, contacts, leads, opportunities, cases, etc., and not on custom objects such as shipments.References:https://help.
