When you select HPE0-J68 exam, do you want to choose an exam training courses?

## HPE Storage Solutions Sample Questions (Q176-Q181):

### NEW QUESTION # 176

Which statement is true regarding the connection of extra drive enclosures to an HPE Alletra Storage MP B10000 storage array with a 100 GbE 2-port OCP adapter?

- A. The ports are used for RCIP connectivity
- B. The ports are used for frontend NVMe/TCP connectivity
- C. The ports are used for RoCEv2 backend connectivity
- D. The ports are used for iSCSI connectivity

**Answer: C**

Explanation:

The 100 GbE 2-port OCP adapter on an HPE Alletra Storage MP B10000 array is used for RoCEv2 backend connectivity, which facilitates high-speed, low-latency connections to extra drive enclosures.

### NEW QUESTION # 177

You have proposed that a customer replace their legacy SAN switches with new ?-Series switches. They are concerned about the management of all the devices, so you have included SANnav in the proposal.

What are the benefits of SANnav that you should emphasize to this customer? (Choose two.)

- A. It runs in a dedicated JVM
- B. It runs in a browser
- C. It offers automated SPOCK validation
- D. It provides a global View
- E. It provides fine-grain visibility into Storage Fabrics (FC + Ethernet)

**Answer: D,E**

### NEW QUESTION # 178

Which type of networking switch handles both Ethernet and fibre channel traffic?

- A. Virtual
- B. Converged
- C. Director
- D. Edge

**Answer: B**

Explanation:

Converged switches are designed to handle both Ethernet and Fibre Channel traffic, enabling them to support converged networks where both storage and regular data traffic are managed through a single infrastructure.

This approach simplifies network management and can reduce costs by consolidating the networking hardware required for both types of traffic.

### NEW QUESTION # 179

The customer is using HPE GreenLake for Backup & Recovery. Which steps are necessary to define a Protection Policy in HPE GreenLake Data Services console?

- A. Define Hyper-V or vCenter server and snapshot frequency
- B. Create iSCSI tunnel between array and d2d appliance
- C. Define the name of policy, scheduling and destination
- D. Define source and destination array

**Answer: C**

Explanation:

When defining a Protection Policy in the HPE GreenLake Data Services console for HPE GreenLake for Backup & Recovery, you must define the name of the policy, scheduling, and destination. This process involves specifying how and when backups should occur and where the backed-up data should be stored. The flexibility in setting these parameters allows for tailored backup solutions that meet specific recovery objectives and compliance requirements.

**NEW QUESTION # 180**

Drag and Drop Question

Match the MSA architecture components with their descriptions.

Component		Description
Tier	<input type="text"/>	aggregation of disks of the same type using a specific RAID level
Virtual disk group	<input type="text"/>	automatically assigned performance characteristic
Volume group	<input type="text"/>	collection of virtual volumes allowing group management functions
Virtual pool	<input type="text"/>	collection of virtual disk groups
Virtual volume	<input type="text"/>	logical subdivision of a virtual pool that can be mapped to a host

**Answer:**

Explanation:

Component	Description
Virtual disk group	aggregation of disks of the same type using a specific RAID level
Virtual volume	automatically assigned performance characteristic
Volume group	collection of virtual volumes allowing group management function
Virtual pool	collection of virtual disk groups
Tier	logical subdivision of a virtual pool that can be mapped to a host

**NEW QUESTION # 181**

.....

In order to meet the needs of each candidate, the team of IT experts in DumpsActual are using their experience and knowledge to improve the quality of exam training materials constantly. We can guarantee that you can pass the HP HPE0-J68 Exam the first time. If you buy the goods of DumpsActual, then you always be able to get newer and more accurate test information. The coverage of the products of DumpsActual is very broad. It can be provide convenient for a lot of candidates who participate in IT certification exam. Its accuracy rate is 100% and let you take the exam with peace of mind, and pass the exam easily.
