## Reliable GICSP Dumps Ebook, Detail GICSP Explanation

As is known to us, there are best sale and after-sale service of the GICSP study materials all over the world in our company. Our company has employed a lot of excellent experts and professors in the field in the past years, in order to design the best and most suitable GICSP study materials for all customers. More importantly, it is evident to all that the GICSP study materials from our company have a high quality, and we can make sure that the quality of our products will be higher than other study materials in the market. If you want to pass the GICSP Exam and get the related certification in the shortest time, choosing the GICSP study materials from our company will be in the best interests of all people. We can make sure that it will be very easy for you to pass your exam and get the related certification in the shortest time that beyond your imagination.

## GIAC Global Industrial Cyber Security Professional (GICSP) Sample Questions (Q10-Q15):

NEW QUESTION # 10

What is the function of Level 3 in the Purdue Reference Architecture?

Response:

- A. Supervising control loops and process control
- B. Processing field device data in real time
- **C. Managing enterprise-wide data processing and business operations**
- D. Maintaining data security across the network

**Answer: C**

#### NEW QUESTION # 11

What differentiates a real-time operating system from a standard operating system?

- A. User accounts
- B. CPU speed
- **C. Process scheduling**
- D. Memory usage

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The defining characteristic of a real-time operating system (RTOS) is its process scheduling mechanism (C), which guarantees deterministic and predictable timing for critical tasks.

Memory usage (A), CPU speed (B), and user accounts (D) are secondary or unrelated to the core distinction.

RTOS uses priority-based or time-constrained scheduling to ensure timely task completion, crucial for ICS environments.

GICSP training emphasizes the importance of real-time scheduling in ICS control devices to meet operational safety and reliability.
