C1000-173 Online Exam - Lab C1000-173 Questions

IBM C1000-173 Practice Questions

IBM Cloud Pak for Data V4.7 Architect

Order our C1000-173 Practice Questions Today and Get Ready to Pass with Flying Colors!

C1000-173 Practice Exam Features | QuestionsTube

- Latest & Updated Exam Questions
- Subscribe to FREE Updates
- Both PDF & Exam Engine
- Download Directly Without Waiting

https://www.questionstube.com/exam/c1000-173/

At QuestionsTube, you can read C1000-173 free demo questions in pdf file, so you can check the questions and answers before deciding to download the IBM C1000-173 practice questions. These free demo questions are parts of the C1000-173 exam questions. Download and read them carefully, you will find that the C1000-173 test questions of QuestionsTube will be your great learning materials online. Share some C1000-173 exam online questions below.

1.Which of the following best describes the importance of encryption of data at rest in IBM Cloud Pak

P.S. Free 2026 IBM C1000-173 dumps are available on Google Drive shared by TopExamCollection: https://drive.google.com/open?id=1bHZayon0pAeJCWUQIbLgyPhib0EWv-wl

Free demo is available if you purchase C1000-173 exam dumps from us, so that you can have a better understanding of what you are going to buy. If you are satisfied with the free demo and want to buying C1000-173 exam dumps from us, you just need to add to cart and pay for it. You can receive the download link and password within ten minutes for C1000-173 Exam Materials, so that you can start your practicing as quickly as possible. In addition, in order to build up your confidence for the C1000-173 exam dumps, we are pass guarantee and money back guarantee. If you fail to pass the exam, we will give you full refund.

IBM C1000-173 Exam Syllabus Topics:

Topic	Details
Topic 1	- Architect with Data Governance Services: This section evaluates skills of a Data Governance Specialist, covering the architecture of knowledge catalogs to enable data discovery and management. Data Privacy architectures ensure compliance with regulatory requirements around data protection. Knowledge Accelerators involve designing solutions that speed up data governance processes through predefined policies and templates.

Topic 2	• Plan for a Cloud Pak for Data Implementation: This section of the exam measures the skills of an Implementation Consultant and covers determining which Cloud Pak for Data services to deploy based on organizational needs. It involves sizing the Kubernetes • OpenShift cluster appropriately for workload demands and planning backup and restore strategies to ensure data protection. Planning for high availability and disaster recovery is essential to maintain uninterrupted service. Multi-tenancy requirements must be understood to support multiple user groups securely on shared infrastructure. Migration requirements need assessment to transition existing data and workloads smoothly.
Topic 3	• Architect with AI Series: This section measures the skills of an AI Solution Architect and includes designing architectures for solutions involving various IBM Watson AI services. Architecting with Watson Assistant involves creating conversational AI interfaces. Watson Discovery solutions focus on building cognitive search and content analytics applications. Watson Pipelines solutions involve orchestrating data science workflows. Watson OpenScale architectures enable AI model monitoring and governance. Architecting with Match 360 supports personalized engagement by integrating multi-channel customer insights.
Topic 4	• Architect with Data Source Services: This domain measures expertise of a Data Integration Architect and includes architecting solutions with data replication technologies to synchronize data across systems. IBM Data Virtualization architecture enables access to and querying of disparate data sources without data movement. Architecting with watsonx.data focuses on building intelligent data lakes and query engines. Architecting with Db2-related services involves designing scalable data management and processing architectures using IBM's Db2 platforms.
Topic 5	• Security Requirements: This domain targets a Security Architect and focuses on planning security for a Cloud Pak for Data deployment. It includes managing certificates that secure communications, identity management systems, and access and authorization controls to enforce secure and compliant user and service interactions. The auditing features and their integration with enterprise audit systems are crucial to ensure traceability and accountability. Asset interchange security involves safeguarding data movement between services.

Lab C1000-173 Questions, C1000-173 Valid Exam Preparation

Do you want to obtain your certificate as quickly as possible? If you do, just choose us. You can get your downloading link within ten minutes after your payment for C1000-173 training materials, and you can start your learning as quickly as possible. In addition, C1000-173 training materials of us are high quality, and you just need to spend 48 to 72 hours on practicing, and you can pass the exam successfully. If you have any questions about the C1000-173 Exam Dumps, just contact us, we will give you reply as soon as possible.

IBM Cloud Pak for Data v4.7 Architect Sample Questions (Q169-Q174):

NEW QUESTION # 169
Which of the following are crucial considerations when establishing API security? (Select two)

- A. Encryption of data in transit
- B. Hardcoded credentials
- C. Frequent password rotations
- D. Rate limiting

Answer: A,D

NEW QUESTION # 170
Which two Cloud Pak for Data services support storage class NFS?

- A. IBM Knowledge Catalog

- B. watsonx Assistant
- C. Planning Analytics
- D. Watson Knowledge Studio
- E. Watson Discovery

Answer: A,E

Explanation:
IBM Cloud Pak for Data supports NFS#backed persistent volumes (RWX storage class) for services that require access to shared file storage. Among the available services, IBM Knowledge Catalog and Watson Discovery are known to support NFS storage classes in installation configuration (e.g. "managed#nfs#storage") for persistent metadata and document storage. Other services like watsonx Assistant, Watson Knowledge Studio, and Planning Analytics use different storage mechanisms and do not necessarily support NFS shared storage in the standard CP4D 4.7 deployment.

NEW QUESTION # 171
If a Cloud Pak for Data cluster is air-gapped, it is unable to reach the internet, and a private registry must be configured for installations and upgrades. Beyond container images, what other components need to be addressed?

- A. Data movement between nodes must be blocked via firewall rules.
- B. License validation requires periodic updates via internet proxy.
- C. Platform monitoring messages are sent via an internet messaging hub.
- D. Utilities, like pip, still require a connection to the internet by default.

Answer: D

Explanation:
In air-gapped (offline) environments, it's not just the container images that require preparation. Package managers like pip (for Python) and other utilities commonly attempt to pull dependencies from public internet repositories. These must be redirected to internal mirrors or handled via offline bundles. If left unaddressed, certain operations within components like Jupyter notebooks, Watson Studio, or pipelines may fail. License validation and monitoring do not inherently require internet access, and data movement between nodes is part of normal cluster function-not something to be blocked.

NEW QUESTION # 172
What is a primary advantage of using Watson Pipelines in AI solution architecture?

- A. Isolating data silos
- B. Decreasing the transparency of data processing
- C. Providing end-to-end data processing automation
- D. Reducing data integrity

Answer: C

NEW QUESTION # 173
When evaluating Cloud Pak for Data, what are the potential advantages of choosing a SaaS model over a non-SaaS model?

- A. Faster deployment
- B. Enhanced scalability
- C. Lower initial costs
- D. More control over infrastructure

Answer: A,B,C

NEW QUESTION # 174
......

In today's society, the pace of life is very fast. No matter what your current status is C1000-173 exam questions can save you the most time, and then pass the exam while still having your own life time. The users of the C1000-173 Study Materials are very extensive, but everyone has a common feature, that is, hope to obtain the C1000-173 certification in the shortest possible time. You can really do this in our C1000-173 learning guide.
