### 質問 # 122

A company called Alpine is running a 'buy one get one free' (BOGO) promotion for all energy bars and sending out merchandisers to ensure that their retail customers are running it correctly. At what level should Retail Store KPIs be defined for a promotional end cap audit and also to minimize records created?

- A. At the custom context field level
- B. At the energy bar product SKU level
- **C. At the energy bar product category level.**
- D. At the Alpine brand catalog level

正解: C

解説:

Retail Store KPIs are key performance indicators that measure how well a retail store is performing against a specific goal or target. For a promotional end cap audit, Retail Store KPIs should be defined at the energy bar product category level, as this would capture all the energy bars that are included in the BOGO promotion and also minimize the number of records created. ### 質問 # 123

Which object is connected to Action Plan?

- **A. Visit**
- B. Action Plan Template em
- C. Retail Store
- D. Assessment Task

正解: A

### 質問 # 124

Prior to rollout testing users find themselves failing all the test cases related to delivery tasks What is a potential reason for this?

- **A. The tester did not have the lightning direct store delivery Permission Set added**
- B. The KPIs are too extreme and causing the system to fail
- C. The tester is outside the geofence for the store
- D. The tester did not have the Lightning Retail Execution Plus Permission Set added

正解: A

解説:

A possible reason for failing all the test cases related to delivery tasks is that the tester did not have the lightning direct store delivery Permission Set added. A Permission Set is a collection of settings and permissions that grant users access to various tools and features. The lightning direct store delivery Permission Set is required for users who need to use the delivery task functionality and related objects, such as product transfers and shipments.
