C-S4CFI-2504 exam dumps are edited by professional experts, therefore the quality can be guaranteed. C-S4CFI-2504 exam materials cover most of knowledge points for the exam, and you can master major knowledge points. In addition, we are pass guarantee and money back guarantee if you fail to pass the exam. You can know the latest information for C-S4CFI-2504 Exam Materials through the update version, since we offer you free update for one year, and the update version for C-S4CFI-2504 exam dumps will be sent your email address automatically.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Financial Accounting Sample Questions (Q10-Q15):

NEW QUESTION # 10

When do you specify the data retention period in SAP S/4HANA Migration Cockpit?

- A. When the project status is "Finished"
- B. When the project status is "In progress"
- C. When the project status is "Completed"
- **D. When the project status is "Not started"**

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation:

In the SAP S/4HANA Migration Cockpit, the data retention period determines how long migration data (e.g., staging tables or files) is retained before being archived or deleted, aligning with data governance and compliance requirements.

Option A (When the project status is "Not started"): Correct. The retention period is defined during the initial setup of a migration project in the Migration Cockpit, before any data is loaded or processed. This is part of the project configuration in the "Create Project" step, ensuring clarity on data lifecycle management from the outset.

Option B (When the project status is "Finished"): Incorrect. By the "Finished" stage, migration activities are complete, and the retention period is already in effect-changes are no longer allowed.

Option C (When the project status is "In progress"): Incorrect. While adjustments can be made during "In progress," the retention period is a foundational setting established earlier.

Option D (When the project status is "Completed"): Incorrect. "Completed" is not a standard status in the Migration Cockpit; "Finished" is the final status, and retention is predefined.

NEW QUESTION # 11

For which fields can you enter time-dependent changes in the asset master record?

Note: There are 3 correct answers to this question.

- **A. Cost center**
- **B. Description**
- **C. WBS Element**
- D. Trading partner number
- E. Plant

Answer: A,B,C

Explanation:

Comprehensive and Detailed in Depth Explanation:

Time-dependent data in the asset master allows changes over periods (e.g., via "Manage Fixed Assets").

- * A: Correct. Description can be updated time-dependently.
 - * C: Correct. Cost center assignments are time-dependent.
 - * D: Correct. WBS elements can change with time.
