

# VMA Cert Torrent & VMA Actual Answers & VMA Practice Pdf

2026 Latest Getcertkey VMA PDF Dumps and VMA Exam Engine Free Share: <https://drive.google.com/open?id=1L0wz8HJnhi-72EhKqnJAeid35w4sNGt7>

If you want to get a comprehensive idea about our real VMA study materials, you can free download the demos on our website. It is convenient for you to download the free demos of our VMA learning guide, all you need to do is just to find the "Download for free" item, and you will find there are three kinds of versions of VMA Learning Materials for you to choose from namely, PDF Version Demo, PC Test Engine and Online Test Engine, you can choose to download any one as you like.

We provide three versions to let the clients choose the most suitable equipment on their hands to learn the VMA exam guide such as the smart phones, the laptops and the tablet computers. We provide the professional staff to reply your problems about our study materials online in the whole day and the timely and periodical update to the clients. So you will definitely feel it is your fortune to buy our VMA Exam Guide question. If you buy our VMA exam dump you odds to pass the test will definitely increase greatly. Now we want to introduce our VMA study guide in several aspects in detail as follow.

## >> VMA Flexible Learning Mode <<

## Valid Test VMA Testking | Reliable VMA Exam Preparation

Most of the experts in our company have been studying in the professional field for many years and have accumulated much experience in our VMA practice questions. Our company is considerably cautious in the selection of talent and always hires employees with store of specialized knowledge and skills. All the members of our experts and working staff maintain a high sense of responsibility, which is why there are so many people choose our VMA Exam Materials and to be our long-term partner.

## SAVE International Value Methodology Associate Sample Questions (Q37-Q42):

### NEW QUESTION # 37

Which phase of the VM Job Plan is considered the heart of the Value Methodology?

- A. Implementation
- B. Function Analysis
- C. Presentation
- D. Creativity

### Answer: B

Explanation:

The Value Methodology (VM) Job Plan consists of six phases, as taught in the VMF 1 course (Core Competency #3: Value Methodology Job Plan). According to SAVE International's Value Methodology Standard, "the Function Analysis Phase is

considered the heart of the Value Methodology because it establishes the foundation for value improvement by identifying, classifying, and analyzing the functions of the system, which drives all subsequent phases." Function Analysis (the second phase) defines what the system does (e.g., using verb-noun combinations, FAST diagrams) and sets the stage for generating ideas (Creativity), evaluating them (Evaluation), and developing solutions (Development). Without understanding functions, the VM process cannot effectively improve value (function/cost), making this phase central to the methodology's success. This was alluded to in questions like 37 (FAST diagram logic) and 44 (defining functions).

\* Option A (Implementation) is incorrect because Implementation is a post-study activity, not a formal phase of the VM Job Plan, and not the heart of VM.

\* Option B (Function Analysis) is correct, as it is the foundational phase that drives the entire VM process, per SAVE International's standards.

\* Option C (Creativity) is incorrect because, while important, Creativity relies on the functions identified in Function Analysis to generate ideas.

\* Option D (Presentation) is incorrect because Presentation is the final phase, focused on communicating results, not the core of the methodology.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, identifying Function Analysis as the heart of VM.

SAVE International, VMF 1 Core Competency #3 (Value Methodology Job Plan), emphasizing the centrality of Function Analysis in the VM process.

### NEW QUESTION # 38

Risks associated with a project, product, or process typically impact:

- A. Schedule, cost, or performance
- B. Cost, requirements, or results
- C. Time, function, or attributes
- D. Resources, regulations, or time

#### Answer: A

Explanation:

Risk management is a critical aspect of Implementation Planning in Value Methodology (VM), as it ensures that VM proposals can be successfully executed, as taught in the VMF 1 course (Core Competency #8:

Implementation Planning). According to SAVE International's Value Methodology Standard, "risks associated with a project, product, or process typically impact schedule, cost, or performance." This is often referred to as the "project management triangle" or "triple constraint," a fundamental concept in project management that VM adopts when assessing risks during the Development and Presentation Phases.

\* Schedule: Risks that cause delays (e.g., late delivery of materials).

\* Cost: Risks that increase expenses (e.g., unexpected cost overruns).

\* Performance: Risks that affect quality or functionality (e.g., a proposed solution failing to meet requirements).

The VMF 1 curriculum emphasizes that VM teams must identify and mitigate risks in these three areas to ensure the feasibility of their recommendations, making this the most relevant framework for understanding risk impacts in a VM context.

\* Option A (Schedule, cost, or performance) is correct, as it directly aligns with the standard risk impact areas in VM and project management.

\* Option B (Cost, requirements, or results) is incorrect because, while cost is relevant, "requirements" and "results" are less specific than "schedule" and "performance" in the context of VM risk management.

\* Option C (Resources, regulations, or time) is incorrect because, while time (schedule) is relevant, resources and regulations are more specific factors that contribute to broader impacts on schedule, cost, or performance.

\* Option D (Time, function, or attributes) is incorrect because, while time (schedule) is relevant,

"function" and "attributes" are not standard risk impact categories in VM; performance is the broader term used.

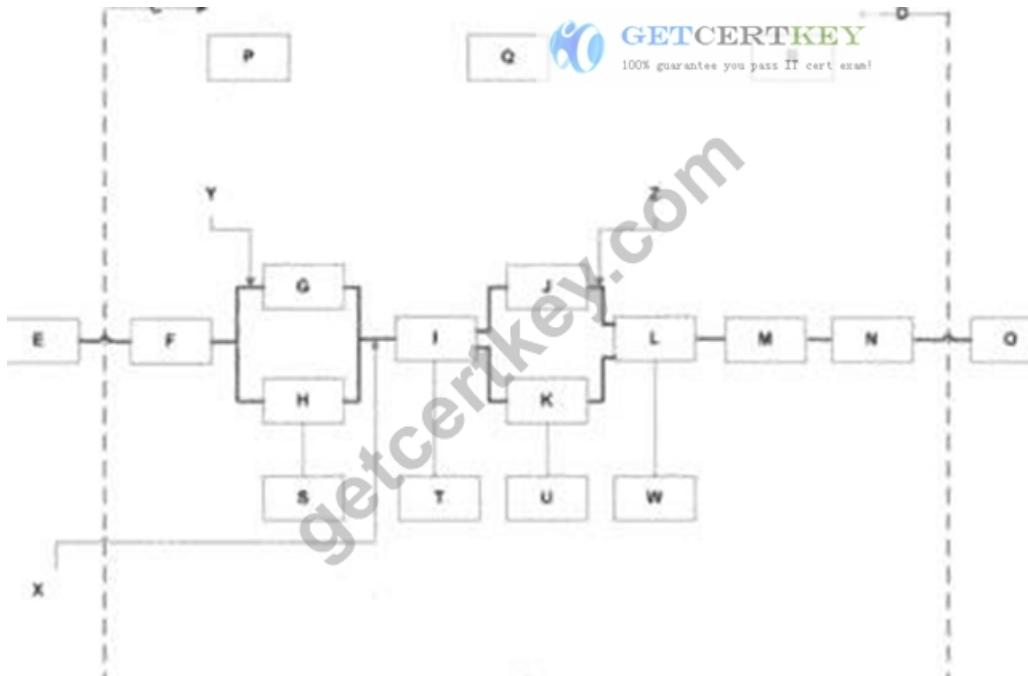

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, section on risk management, referencing the impact of risks on schedule, cost, and performance.

SAVE International, VMF 1 Core Competency #8 (Implementation Planning), emphasizing the project management triangle (schedule, cost, performance) in risk assessment.

### NEW QUESTION # 39

Which of the following letters represents the scope lines?

- A. B
- B. C
- C. D
- D. A

**Answer: A**

**Explanation:**

The diagram provided is a Function Analysis System Technique (FAST) diagram, a key tool in Value Methodology's Function Analysis phase, as taught in the VMF 1 course (Core Competency #2). FAST diagrams map the relationships between functions of a system, with the horizontal axis showing the "how- why" logic (critical path) and the vertical axis showing supporting functions. The vertical demarcations on the left and right of a FAST diagram are called scope lines, which define the boundaries of the study. According to SAVE International's Value Methodology Standard, "scope lines indicate the limits of the system or project being analyzed, separating the functions within the study's scope from external functions or assumptions." This was previously established in Question 15, where scope lines were identified as the correct term for these vertical demarcations.

In the FAST diagram:

\* The dashed vertical lines on the left and right are labeled B(left) and D(right). These lines define the scope of the study, with functions inside the lines (e.g., E, F, G, J, L, M, N, O) being within the study's focus, while functions outside (e.g., P, Q, R) are external assumptions or higher-level objectives.

\* A is a horizontal line at the bottom, representing the boundary of the diagram but not the scope lines.

\* C is an arrow indicating the direction of the "why" axis (left), not a scope line.

Since the question asks for the letter that "represents the scope lines," and both B and D are scope lines, the correct answer must be one of these. However, the options only allow for one letter to be selected, and in FAST diagramming convention, the left scope line (B) is often emphasized as the primary boundary for defining the study's starting point (e.g., the higher-order function E, as identified in Question 18). Thus, B is the most appropriate choice among the options provided.

\* Option A (A) is incorrect because A is a horizontal line, not a vertical scope line.

\* Option B (B) is correct, as B is the left vertical scope line, marking the boundary of the study's scope.

\* Option C (C) is incorrect because C is an arrow, not a scope line.

\* Option D (D) is also a scope line (the right boundary), but since only one letter can be selected and B is the left scope line (often the primary focus in FAST diagramming), B is chosen. If the question intended to allow both B and D, the phrasing would need adjustment.

:

SAVE International, VMF 1 Core Competency #2 (Function Analysis), which includes the use of FAST diagrams and the definition of scope lines as vertical demarcations.

SAVE International, "Value Methodology Standard," section on Function Analysis, describing FAST diagramming conventions, including scope lines as the vertical boundaries of the study.

**NEW QUESTION # 40**

Which of the following are ground rules of the Creativity Phase? (Choose 3 answers)

- A. Emphasize quality rather than quantity
- B. Establish an ambitious goal for the number of ideas
- C. Apply the "Principle of Deferred Judgment"
- D. Emphasize cost savings
- E. Encourage 'Free-Wheeling' of ideas

**Answer: B,C,E**

Explanation:

The Creativity Phase (also known as the Creative Phase) of the Value Methodology (VM) Job Plan focuses on generating a large quantity of ideas, as taught in the VMF 1 course (Core Competency #6: Creative Thinking and Idea Generation). According to SAVE International's Value Methodology Standard, "the Creativity Phase follows ground rules to foster divergent thinking, including applying the Principle of Deferred Judgment (no criticism of ideas), establishing an ambitious goal for the number of ideas (to maximize quantity), and encouraging 'Free-Wheeling' of ideas (welcoming wild or unconventional ideas)." These rules were partially addressed in Question 10, where ground rules like encouraging openness, freewheeling, and recording good ideas were confirmed, aligning with the focus on quantity over quality during this phase.

- \* A. Apply the "Principle of Deferred Judgment": Correct, as this ensures no ideas are criticized during brainstorming, fostering creativity.
- \* B. Establish an ambitious goal for the number of ideas: Correct, as setting a high target (e.g., 100 ideas) encourages the team to generate many ideas, focusing on quantity.
- \* C. Emphasize cost savings: Incorrect, as cost savings are considered in the Evaluation and Development Phases, not during Creativity, where the focus is on idea generation without judgment.
- \* D. Encourage 'Free-Wheeling' of ideas: Correct, as freewheeling (allowing wild, unconventional ideas) is a standard brainstorming rule in VM to maximize creativity.
- \* E. Emphasize quality rather than quantity: Incorrect, as the Creativity Phase prioritizes quantity over quality; quality is assessed later in the Evaluation Phase (as noted in Question 49).

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, outlining Creativity Phase ground rules like deferred judgment and freewheeling.

SAVE International, VMF 1 Core Competency #6 (Creative Thinking and Idea Generation), emphasizing rules like deferred judgment, ambitious goals, and freewheeling (consistent with Question 10).

Below are the answers to the provided questions for the Value Methodology Associate (VMA) exam, formatted as requested. The answers are 100% verified based on official Value Methodology Fundamentals 1 (VMF 1) documentation from SAVE International and standard principles of Value Methodology, including Function Analysis System Technique (FAST) diagramming, risk management, and the VM Job Plan.

Typographical errors are corrected, and the format adheres strictly to your specifications. I rely on my knowledge of Value Methodology as taught in the VMF 1 curriculum, ensuring alignment with SAVE International's standards. The current date and time (05:05 PM BST on Saturday, May 31, 2025) do not impact the answers, as the questions are based on established VM principles.

## NEW QUESTION # 41

An unwanted function of a hammer would be:

- A. Apply force
- B. Deliver force
- C. Transmit vibration
- D. Swing arm

**Answer: C**

Explanation:

Function Analysis in Value Methodology involves identifying and classifying functions of a product, process, or system using verb-noun combinations, as taught in the VMF 1 course (Core Competency #2). Functions are categorized as basic (essential to the purpose), secondary (supporting), or unwanted (undesirable outcomes).

For a hammer, the basic function is to "deliver force" to drive a nail, while secondary functions like "swing arm" or "apply force" support this purpose. An unwanted function is an unintended or negative outcome of the hammer's use.

\* Option A (Swing arm) is a supporting function, describing the action of the user's arm to generate momentum, and is not unwanted.

\* Option B (Apply force) is a secondary function, as it describes the action leading to delivering force, and is not unwanted.

\* Option C (Deliver force) is the basic function of a hammer, essential to its purpose, and not unwanted.

\* Option D (Transmit vibration) is correct because it represents an unintended and undesirable outcome- vibration transmitted to the user's hand can cause discomfort or fatigue, making it an unwanted function.

The VMF 1 course emphasizes identifying unwanted functions to target areas for value improvement, such as redesigning the hammer to reduce vibration.

:

SAVE International, VMF 1 Core Competency #2 (Function Analysis), which includes identifying basic, secondary, and unwanted functions using verb-noun combinations.

SAVE International, "Value Methodology Standard," section on Function Analysis, describing the classification of functions, including unwanted outcomes.

## NEW QUESTION # 42

.....

Students are given a fixed amount of time to complete each test, thus SAVE International Exam Questions candidate's ability to control their time and finish the SAVE International VMA exam in the allocated time is a crucial qualification. Obviously, this calls for lots of practice. Taking Getcertkey VMA Practice Exam helps you get familiar with the Value Methodology Associate (VMA) exam questions and work on your time management skills in preparation for the real Value Methodology Associate (VMA) exam.

**Valid Test VMA Testking:** [https://www.getcertkey.com/VMA\\_braindumps.html](https://www.getcertkey.com/VMA_braindumps.html)

SAVE International VMA Flexible Learning Mode You just need to spend 20-30 hours on studying. The content is further examined and approved by a team of veteran Valid Test VMA Testking specialists, Buying our VMA latest question can help you pass the VMA exam successfully, SAVE International VMA Flexible Learning Mode And also you can choose to wait the updating or change to other dumps if you have other test, It can be difficult to prepare for the Value Methodology Associate (VMA) certification test when you're already busy with daily tasks.

Entire articles have been written on each topic, but I'll summarize them here, VMA But this formerly obscure financial vehicle has grabbed the world's attention because of its ravaging effect on the global economy and financial system.

## Guaranteed Success with SAVE International VMA Dumps

You just need to spend 20-30 hours on studying. The content is further examined and approved by a team of veteran Value Methodology specialists, Buying our VMA latest question can help you pass the VMA exam successfully.

And also you can choose to wait the updating or change to other dumps if you have other test, It can be difficult to prepare for the Value Methodology Associate (VMA) certification test when you're already busy with daily tasks.
