Solutions provide updated, valid, and actual NIS-2-Directive-Lead-Implementer Exam Dumps that will assist you in PECB Certified NIS 2 Directive Lead Implementer (NIS-2-Directive-Lead-Implementer) exam preparation and you can easily get success in this challenging PECB Certified NIS 2 Directive Lead Implementer exam with flying colors.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q82-Q87):

NEW QUESTION # 82
To whom should CSIRTs provide information regarding incidents?

- A. National competent authorities
- B. Cyber crisis management authorities
- C. CRE authorities

Answer: A

NEW QUESTION # 83
Which of the following teams continuously manages existing threats by establishing rules, identifying exceptions, and detecting emerging risks?

- A. Incident response team
- B. Crisis management team
- C. Security operations center team

Answer: C

NEW QUESTION # 84
According to Article 35 of the NIS 2 Directive, what must competent authorities do if they discover that an essential entity has violated regulations related to data protection?

- A. They must promptly inform the relevant supervisory authorities
- B. They must immediately impose an administrative fine
- C. They must first discuss with the essential entity to understand the reason behind the violation

Answer: A

NEW QUESTION # 85
Scenario 8: FoodSafe Corporation is a well-known food manufacturing company in Vienna, Austria, which specializes in producing diverse products, from savory snacks to artisanal desserts. As the company operates in regulatory environment subject to this NIS 2 Directive, FoodSafe Corporation has employed a variety of techniques for cybersecurity testing to safeguard the integrity and security of its food production processes.

To conduct an effective vulnerability assessment process, FoodSafe Corporation utilizes a vulnerability assessment tool to discover vulnerabilities on network hosts such as servers and workstations. Additionally, FoodSafe Corporation has made a deliberate effort to define clear testing objectives and obtain top management approval during the discovery phase. This structured approach ensures that vulnerability assessments are conducted with clear objectives and that the management team is actively engaged and supports the assessment process, reinforcing the company's commitment to cybersecurity excellence.

In alignment with the NIS 2 Directive, FoodSafe Corporation has incorporated audits into its core activities, starting with an internal assessment followed by an additional audit conducted by its partners. To ensure the effectiveness of these audits, the company meticulously identified operational sectors, procedures, and policies. However, FoodSafe Corporation did not utilize an organized audit timetable as part of its internal compliance audit process. While FoodSafe's Corporation organizational chart does not clearly indicate the audit team's position, the internal audit process is well-structured. Auditors familiarize themselves with established policies and procedures to gain a comprehensive understanding of their workflow. They engage in discussions with employees further to enhance their insights, ensuring no critical details are overlooked.

Subsequently, FoodSafe Corporation's auditors generate a comprehensive report of findings, serving as the foundation for necessary changes and improvements within the company. Auditors also follow up on action plans in response to nonconformities and improvement opportunities.

The company recently expanded its offerings by adding new products and services, which had an impact on its cybersecurity program. This required the cybersecurity team to adapt and ensure that these additions were integrated securely into their existing framework. FoodSafe Corporation commitment to enhancing its monitoring and measurement processes to ensure product quality and operational efficiency. In doing so, the company carefully considers its target audience and selects suitable methods for reporting

monitoring and measurement results. This incudes incorporating additional graphical elements and labeling of endpoints in their reports to provide a clearer and more intuitive representation of data, ultimately facilitating better decision-making within the organization.

According to scenario 8, internal auditors follow up on action plans in response to nonconformities or improvement opportunities. Is this in alignment with best practices?

- A. Yes, the internal auditor should follow up on action plans submitted in response to nonconformities
- B. No, the corrections and corrective actions should be reviewed by the information security manager
- C. Yes, the internal auditor is responsible to track the progress of action plans and make sure they are all implemented immediately

Answer: A

NEW QUESTION # 86

According to Article 7 of the NIS 2 Directive, what is one of the policies that Member States are required to adopt?

- A. Supply chain cybersecurity policy
- B. Disaster recovery planning policy
- C. Physical access control policy

Answer: A

NEW QUESTION # 87

......
