# SC-401 Latest Test Fee, Reliable SC-401 Braindumps

DOWNLOAD the newest ActualPDF SC-401 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1hxQoyc9PRscLArkAfjb6nruX_A3isulC

Once you learn all SC-401 questions and answers in the study guide, try ActualPDF's innovative testing engine for exam like SC-401 practice tests. These tests are made on the pattern of the SC-401 real exam and thus remain helpful not only for the purpose of revision but also to know the real exam scenario. To ensure excellent score in the exam, SC-401 Braindumps are the real feast for all exam candidates. They contain questions and answers on all the core points of your exam syllabus. Most of these questions are likely to appear in the SC-401 real exam.

Microsoft SC-401 Exam Syllabus Topics:

Topic	Details
Topic 1	• Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.
Topic 2	• Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.
Topic 3	• Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.

Topic 4	• Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.

Reliable SC-401 Braindumps - SC-401 Latest Dumps Questions

From the ActualPDF platform, you will get the perfect match SC-401 actual test for study. SC-401 practice download pdf are researched and produced by Professional Certification Experts who are constantly using industry experience to produce precise, and logical SC-401 Training Material. SC-401 study material is constantly begining revised and updated for relevance and accuracy. You will pass your real test with our accurate SC-401 practice questions and answers.

Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q75-Q80):

NEW QUESTION # 75
You have a Microsoft 365 subscription that contains a sensitivity label named Contoso Confidential.
You publish Contoso Confidential to all users.
Contoso Confidential is configured as shown in the Configuration exhibit. (Click the Configuration tab.)
The Access control settings of Contoso Confidential are configured as shown in the Access control exhibit.
(Click the Access control tab.)
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:
Explanation:

NEW QUESTION # 76
You have a Microsoft 365 subscription that contains a sensitivity label named Contoso Confidential.
You publish Contoso Confidential to all users.
Contoso Confidential is configured as shown in the Configuration exhibit. (Click the Configuration tab.)
The Access control settings of Contoso Confidential are configured as shown in the Access control exhibit.
(Click the Access control tab.)
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:
Explanation:
Step 1 - Review the configuration
Sensitivity label name: Contoso Confidential
Scope: Files and emails
Access control:
Encrypts documents/emails.
Permissions assigned to AuthenticatedUsers with Co-Author rights.
Offline access allowed only for 7 days.
Auto-labeling = None (not configured).
Content marking: Footer applied.
Step 2 - Analyze each statement

Statement 1: If a user account is disabled, the user will be immediately prevented from opening a file protected by Contoso Confidential.

Sensitivity labels with encryption enforce Azure AD authentication every time a user tries to access a file.

If the account is disabled in Azure AD, access is blocked immediately.

Statement 2: Guest users will be able to open documents protected by Contoso Confidential.

Access control was configured only for AuthenticatedUsers (internal users).

Guest or external users are not included in this group.

Therefore, guest users cannot open the protected documents.

Statement 3: Contoso Confidential will be applied automatically to the files stored in Microsoft SharePoint Online.

Auto-labeling for files and emails = None.

That means labeling must be applied manually by users, not automatically.

The answer: No

Final Verified Answers

If a user account is disabled, the user will be immediately prevented from opening a file protected by Contoso Confidential # Yes

Guest users will be able to open documents protected by Contoso Confidential # No Contoso Confidential will be applied automatically to the files stored in Microsoft SharePoint Online # No

NEW QUESTION # 77

You have the files shown in the following table.

☐

You configure a retention policy as shown >n the exhibit. (Click the Exhibit lab.) The start of the retention period is based on when items are created. The current date is January 01. 207S.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

☐

Answer:

Explanation:

☐

Explanation:

☐

NEW QUESTION # 78

You have a Microsoft 365 E5 subscription.

Users access their mailbox by using the following apps.

* Outlook for Microsoft 365

* Outlook on the web

* Outlook Mobile fiOS. Android)

You create a data loss prevention (DLP) policy named DLP1 that has the following settings:

* Location; Exchange email

* Status: On

* User notifications: On

* Notify users with a policy tip: Enabled

Which apps display a policy tip when content is matched by using DIP1 ?

- A. Outlook for Microsoft 365 only
- B. Outlook for Microsoft 365 and Outlook Mobile (iOS. Android) only
- C. Outlook on the web only
- D. Outlook for Microsoft 365 and Outlook on the web only
- E. Outlook for Microsoft 365. Outlook on the web, and Outlook Mobile (iOS. Android)

Answer: D

Explanation:

Policy tips in DLP: Policy tips are messages shown to users when their action (such as sending sensitive content via email) conflicts with a DLP policy.

For Exchange email location, policy tips are supported in the following apps:

Outlook for Microsoft 365 (desktop client) #

Outlook on the web (OWA) #

Outlook Mobile (iOS/Android) # Policy tips are not shown in mobile apps. Instead, DLP actions (block/restrict /send incident report) still apply, but the user does not see a policy tip notification.

Therefore:

Supported: Outlook for Microsoft 365, Outlook on the web.
Not supported: Outlook Mobile apps.
Reference:
Microsoft Learn: Policy tips in DLP
Quote: "Policy tips are supported in Outlook on the web and Outlook 2013 and later. Policy tips are not supported in Outlook mobile apps."

NEW QUESTION # 79

You have a Microsoft 365 £5 subscription.
You have a Microsoft Purview Advanced Message Encryption branding template named 0ME1.
You need to create a Microsoft Exchange Online mail flow rule to apply OME1 to email.
How should you configure the rule? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Step 1 - Requirement
You need to configure a mail flow rule in Exchange Online to apply a Microsoft Purview Advanced Message Encryption (OME) branding template named OME1.
Step 2 - Mail Flow Rule Conditions
In Exchange Online, to trigger encryption based on sensitivity labels (classifications):
You use the condition "Apply this rule if: The sender ... Includes the classification".
This lets the rule detect when the sender applies a particular sensitivity label (classification) to the email.
Step 3 - Mail Flow Rule Action
To apply a custom branding template (such as OME1), you configure the action:
"Modify the message security".
This is the action that allows applying encryption and assigning a specific OME template for branding.

NEW QUESTION # 80

......

If you are finding a study material in order to get away from your exam, you can spend little time to know about our SC-401 test torrent, it must suit for you. Therefore, for your convenience, more choices are provided for you, we are pleased to suggest you to choose our Administering Information Security in Microsoft 365 guide torrent for your exam. If you choice our product and take it seriously consideration, we can make sure it will be very suitable for you to help you pass your exam and get the SC-401 Certification successfully. You will find Our SC-401 guide torrent is the best choice for you
