

# ExamCost Actual and Updated SAP C\_BW4H\_2505 PDF Questions

P.S. Free & New C\_BW4H\_2505 dumps are available on Google Drive shared by ExamCost: <https://drive.google.com/open?id=1NbJXmP3HPab63UgseWHLL2H8Bw497pPw>

If you want to ace the SAP Certified Associate - Data Engineer - SAP BW/4HANA (C\_BW4H\_2505) test, the main problem you may face is not finding updated C\_BW4H\_2505 practice questions to crack this test quickly. After examining the situation, the ExamCost has come with the idea to provide you with updated and actual Sitecore C\_BW4H\_2505 Exam Dumps so you can pass C\_BW4H\_2505 test on the first attempt.

C\_BW4H\_2505 training materials are famous for high quality, and we have received many good feedbacks from our customers. C\_BW4H\_2505 exam materials are compiled by skilled professionals, and they possess the professional knowledge for the exam, therefore, you can use them at ease. In addition, C\_BW4H\_2505 training materials contain both questions and answers, and it's convenient for you to have a check after practicing. You can receive download link and password within ten minutes after paying for C\_BW4H\_2505 Exam Braindumps, it's convenient. If you don't receive, you can contact us, and we will solve this problem for you as quickly as possible.

## C\_BW4H\_2505 exam braindumps: SAP Certified Associate - Data Engineer - SAP BW/4HANA & C\_BW4H\_2505 study guide

This way you will get familiar with SAP Certified Associate - Data Engineer - SAP BW/4HANA exam pattern and objectives. No additional plugins and software installation are indispensable to access this C\_BW4H\_2505 Practice Test. Furthermore, all browsers and operating systems support this version of the SAP C\_BW4H\_2505 practice exam.

## SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q76-Q81):

NEW QUESTION # 76

You created an Open ODS View on an SAP HANA database table to virtually consume the data in SAP BW /4HANA. Real-time reporting requirements have now changed you are asked to persist the data in SAP BW /4HANA.

Which objects are created when using the "Generate Data Flow" function in the Open ODS View editor?

Note: There are 3 correct answers to this question.

- A. Transformation
- B. Data source
- C. DataStore object (advanced)
- D. CompositeProvider
- E. SAP HANA calculation view

**Answer: A,B,C**

Explanation:

\* Open ODS View: An Open ODS View in SAP BW/4HANA allows virtual consumption of data from external sources (e.g., SAP HANA tables). It does not persist data but provides real-time access to the underlying source.

\* Generate Data Flow Function: When using the "Generate Data Flow" function in the Open ODS View editor, SAP BW/4HANA creates objects to persist the data for reporting purposes. This involves transforming the virtual data into a persistent format within the BW system.

\* Generated Objects:

\* DataStore Object (Advanced): Used to persist the data extracted from the Open ODS View.

\* Transformation: Defines how data is transformed and loaded into the DataStore Object (Advanced).

\* Data Source: Represents the source of the data being persisted.

Key Concepts: Objects Created by "Generate Data Flow": When you use the "Generate Data Flow" function in the Open ODS View editor, the following objects are created:

\* DataStore Object (Advanced): This is the primary object where the data is persisted. It serves as the storage layer for the data extracted from the Open ODS View.

\* Transformation: A transformation is automatically generated to map the fields from the Open ODS View to the DataStore Object (Advanced). This ensures that the data is correctly structured and transformed during the loading process.

\* Data Source: A data source is created to represent the Open ODS View as the source of the data. This allows the BW system to extract data from the virtual view and load it into the DataStore Object (Advanced).

\* B. SAP HANA Calculation View: While Open ODS Views may be based on SAP HANA calculation views, the "Generate Data Flow" function does not create additional calculation views. It focuses on persisting data within the BW system.

\* E. CompositeProvider: A CompositeProvider is used to combine data from multiple sources for reporting. It is not automatically created by the "Generate Data Flow" function.

References: SAP BW/4HANA Documentation on Open ODS Views: The official documentation explains the "Generate Data Flow" function and its role in persisting data.

SAP Note on Open ODS Views: Notes such as 2608998 provide details on how Open ODS Views interact with persistent storage objects.

SAP BW/4HANA Best Practices for Data Modeling: These guidelines recommend using transformations and DataStore Objects (Advanced) for persisting data from virtual sources.

By using the "Generate Data Flow" function, you can seamlessly transition from virtual data consumption to persistent storage, ensuring compliance with real-time reporting requirements.

## NEW QUESTION # 77

Which tasks require access to the BW bridge cockpit? Note: There are 2 correct answers to this question.

- A. Create source systems
- B. Create transport requests
- C. Create communication systems
- D. Set up Software components

**Answer: C,D**

Explanation:

\* BW Bridge Cockpit: The BW Bridge Cockpit is a central interface for managing the integration between SAP BW/4HANA and SAP Datasphere (formerly SAP Data Warehouse Cloud). It provides tools for setting up software components, communication systems, and other configurations required for seamless data exchange.

\* Tasks in BW Bridge Cockpit:

\* **Software Components:** These are logical units that encapsulate metadata and data models for transfer between SAP BW/4HANA and SAP Datasphere. Setting them up requires access to the BW Bridge Cockpit.

\* **Communication Systems:** These define the connection details (e.g., host, credentials) for external systems like SAP Datasphere. Creating or configuring these systems is done in the BW Bridge Cockpit.

\* **Transport Requests:** These are managed within the SAP BW/4HANA system itself, not in the BW Bridge Cockpit.

\* **Source Systems:** These are configured in the SAP BW/4HANA system using transaction codes like RSA1, not in the BW Bridge Cockpit.

\* **A. Create transport requests:** This task is performed in the SAP BW/4HANA system using standard transport management tools (e.g., SE09, SE10). It does not require access to the BW Bridge Cockpit.  
Incorrect.

\* **B. Set up Software components:** Software components are essential for transferring metadata and data models between SAP BW/4HANA and SAP Datasphere. Setting them up requires access to the BW Bridge Cockpit. Correct.

\* **C. Create source systems:** Source systems are configured in the SAP BW/4HANA system using transaction RSA1 or similar tools. This task does not involve the BW Bridge Cockpit. Incorrect.

\* **D. Create communication systems:** Communication systems define the connection details for external systems like SAP Datasphere. Configuring these systems is a key task in the BW Bridge Cockpit.  
Correct.

\* **B:** Setting up software components is a core function of the BW Bridge Cockpit, enabling seamless integration between SAP BW/4HANA and SAP Datasphere.

\* **D:** Creating communication systems is another critical task in the BW Bridge Cockpit, as it ensures proper connectivity with external systems.

**References:** SAP BW/4HANA Integration Documentation: The official documentation outlines the role of the BW Bridge Cockpit in managing software components and communication systems.

SAP Note on BW Bridge Cockpit: Notes such as 3089751 provide detailed guidance on tasks performed in the BW Bridge Cockpit.

SAP Best Practices for Hybrid Integration: These guidelines highlight the importance of software components and communication systems in hybrid landscapes.

By leveraging the BW Bridge Cockpit, administrators can efficiently manage the integration between SAP BW/4HANA and SAP Datasphere.

#### NEW QUESTION # 78

For which use case would you need to model a transitive attribute?

- A. Generate a transient provider for a BW query on master data attributes
- **B. Report on navigational attributes of navigational attributes**
- C. Load attributes using the enhanced master data update
- D. Store time-dependent snapshots of master data attributes

**Answer: B**

#### NEW QUESTION # 79

What are benefits of using an InfoSource in a data flow? Note: There are 2 correct answers to this question.

- A. Realizing direct access to source data without storing them
- **B. Splitting a complex transformation into simple parts without storing intermediate data**
- C. Providing the delta extraction information of the source data
- **D. Enabling a data transfer process (DTP) to execute multiple sequential transformations**

**Answer: B,D**

#### NEW QUESTION # 80

In which ODP context is the operational delta queue (ODQ) managed by the target system?

- A. ODP\_CDS
- B. ODP\_HANA
- **C. ODP\_BW**
- D. ODP\_SAP

**Answer: C**

## NEW QUESTION # 81

.....

The passing rate of our C\_BW4H\_2505 study materials is the issue the client mostly care about and we can promise to the client that the passing rate of our product is 99% and the hit rate is also high. Our C\_BW4H\_2505 practice braindumps are selected strictly based on the Real C\_BW4H\_2505 Exam and refer to the exam papers in the past years. Our expert team devotes a lot of efforts on them and guarantees that each answer and question is useful and valuable.

**C\_BW4H\_2505 Valid Test Question:** [https://www.examcost.com/C\\_BW4H\\_2505-practice-exam.html](https://www.examcost.com/C_BW4H_2505-practice-exam.html)

Cutting-edge Testing Engine from ExamCost C\_BW4H\_2505 Valid Test Question allows for a 100% exam simulation, so candidates can practice in the real exam environment from the comfort of their homes, So you can get the useful C\_BW4H\_2505 valid practice torrent on the cheap, and we also give you some discounts on occasion, SAP Vce C\_BW4H\_2505 Download IT industry is becoming the exigent need for standardization of the whole process of computer education.

Choose the three best answers, For example, the Mac OS X Login Window Exam Sample C\_BW4H\_2505 Online application, which authenticates user access to a computer, interacts with Open Directory whenever a user attempts the login.

## Free PDF Quiz 2026 C\_BW4H\_2505: Updated Vce SAP Certified Associate - Data Engineer - SAP BW/4HANA Download

Cutting-edge Testing Engine from ExamCost allows for a C\_BW4H\_2505 100% exam simulation, so candidates can practice in the real exam environment from the comfort of their homes.

So you can get the useful C\_BW4H\_2505 valid practice torrent on the cheap, and we also give you some discounts on occasion, IT industry is becoming the exigent need for standardization of the whole process of computer education.

The sooner you use C\_BW4H\_2505 training materials, the more chance you will pass the C\_BW4H\_2505 exam, and the earlier you get your certificate, The web-based SAP C\_BW4H\_2505 practice test software can be used through browsers like Firefox, Safari, and Google Chrome.
